

Compostable Hinged Containers - 6" X 6" X 3" / White

Our bagasse plates, bowls, cutlery, portion cups and containers are made of 100% sugarcane fiber (Bagasse), a hygienic, sustainable, and renewable material that is 100% biodegradable and composts within 35 days! Bagasse material is strong enough to hold all kinds of food without bending or breaking and is built stronger than paper or cardboard food boxes. These are the perfect size for take-out, delivery or leftovers in breakfast, lunch, dinner, and any other hot or cold fast foods, making it a great alternative to traditional paper or plastics. Responsibly replaces polystyrene, plastic, and tree-based paper take-out and delivery food containers. The containers feature dual tabs for secure closure and are made with strong quality hinged lids.

Key Features

- Cut resistant, stackable, and engineered for heavy duty use
- Eco-friendly soak-proof, leak-proof, and a sturdy alternative
- Hot or cold, fridge, freezer, microwave, and oven safe -40° F to 450° F (-4° C to 232° C)
- Meets ASTM D6400 and/or D6868 for compostability, BPI certified and FDA approved for food contact
