

Eaton 5 Series UPS Keeps IT equipment running when the power goes out

Eaton's 5 Series offers world-class battery backup for desktops, network cabinets, storage and small data centres. All 5 series models are line-interactive, features a graphical LCD interface that provides clear status of key UPS information and are compact in size to fit into small spaces. Compatible with Eaton's Intelligent Power Manager software that allows you to optimise power performance in your virtual environments.

For more information, visit [Eaton 5 series UPS overview](#)

Eaton 5E

- Ideal for small office space and home offices
- Affordable protection for your personal computer and peripherals
- 5E batteries are permanently recharged even when off and UPS can start without mains (cold-start)
- Automatic Voltage Regulation (AVR) enables UPS to perform while under and over voltage

Eaton 5S

- Ideal for small business servers, network-attached storage (NAS), network equipment, ATMs, ticket machines and kiosks
- Small footprint for easy integration within small spaces
- USB port for automatic HID identification on Windows®, Mac® and Linux®
- Pure sinewave output for sensitive equipment

Eaton 5SC

- Cost-effective solution for desktop and Point of Sales (POS) equipment
- Reduce energy costs by up to 30% with EcoControl technology
- Seamless integration with Windows®, Mac® and Linux®

Eaton 5SX

- Affordable protection for networking systems, emergency lighting and electrical infrastructure
- Pure sinewave output, ideal for any sensitive equipment connected
- Reduces risk of intrusion with the optional Gigabit Network Card (NETWORK-M2)
- R/T models authorises either tower or rack installation-pedestals are included

Eaton 5 Series UPS

Eaton 5P

- Premium protection for servers, network equipment and storage
- Provides high quality output signal for any sensitive equipment, such as active PFC (power factor corrected) servers
- Fully remotely manageable with optional, cyber-secured card
- Two-post, four-post, tower and wall-mount options allow for quick installation and ease of use

Eaton 5P Lithium-ion

- Ideal for edge computing environment
- Lithium-ion batteries deliver extended service life up to eight years
- Easy to install in either rack or wall mounted
- Battery management system provides up-to-date insight into battery performance, charge cycles and temperature

Eaton 5PX Gen 2

- Ideal for enterprise and distributed IT, telecom, retail, banks, IDF, small business, long runtime needs
- Regulates voltage fluctuations and offers extended battery runtimes
- Mass UPS firmware upgrades without dropping connected equipment
- Reduces risk of intrusion with the optional Gigabit Network Card (NETWORK-M2)
