

HyperX Alloy Rise - Gaming Keyboards (7G7A3AA)

Overview

The gaming keyboard, elevated.

As the world's most customizable toolless mechanical gaming keyboard on the market[5], the HyperX Alloy Rise takes personalization to the next level. Not only can you hot swap in key switches, but also magnetic top plates, badges, and more. All that customization is built onto the Alloy Rise's solid frame and ultra-responsive 8k polling rate. Out of the box, this keyboard features pre-lubed HyperX Linear Switches rated for up to 80 million keypresses¹ as well as pre-installed HyperX PBT Keycaps. You'll also get an upgraded RGB experience courtesy of the ambient light sensor that auto-adjusts the brightness, 10 keyboard profiles saved directly to the keyboard, and powerful customization via HyperX NGENUITY Software. Get one step closer to your endgame with the HyperX Alloy Rise.

Copious customization options

With swappable toolless top plates, badges, and rotary knobs, you'll have a wealth of ways to show off your own individual style[2]. Rise up!

Smart ambient light sensor

Alloy Rise is the world's first gaming keyboard to introduce an ambient light sensor that dynamically adjusts the backlighting of your RGB to your environmental lighting conditions[5]. Just tweak your preferences in NGENUITY and you're set!

Hot-swappable keyboard

Take keyboard personalization even further with the ability to hot-swap your key switches of choice into the board.

Gasket mounted keyboard

The Alloy Rise is gasket mounted, and pairs that feature with smooth, easy-actuating HyperX Linear Switches to make your typing an even more comfortable experience.

[2] Additional accessories are sold separately.

[5] Based on HyperX's internal analysis as of Jan 2024. Toolless based on aluminum top frame, hard enamel badges, and rotary knob. Gaming keyboards based on all keyboards with RGB backlighting, mechanical switches, and software customization.

Specifications

Form factor	Full Size
Weight	Weight (with cable): 1.310 kg
Weight	Weight (with cable): 2.89 lb
