Part No.: [440493](#)

EAN-13: 0766623440493 | UPC: 766623440493

---

### Anti-theft laptop security lock to protect your device when traveling and in low-supervision areas

This Manhattan Laptop Nano Lock is your reliable security companion in today's world of mobile workforces and BYOD trends. It protects your expensive mobile devices and the sensitive information they contain, wherever your workday takes you. It's easy to use and carry so your laptop stays right where it needs to be.

### Reliable protection for ultra-thin laptops and tablets

This lock effortlessly latches directly into the most common industry nano-sized lock slot design, the Kensington Nano Security Slot, which is used in many ultra-thin notebook computers and some tablets. Its very slim lock head won't raise your device off its surface, allowing it to lie flat and stable

### Resettable 4-digit combo lock

The combination lock means you don't have to worry about lost keys. The four-wheel design provides up to 10,000 possible combinations to help safeguard your equipment from attempted code guesses. Choose your own combination so you can remember it easily or change it often to prevent others from knowing it.

### Strong, durable and cut-resistant steel cable

Set in 1.8 meters (6 ft.) of sleeved, galvanized steel, this cable lock strongly resists cutting attempts. The flexible construction bends easily to loop around a stationary post, desk, table or other attachment point. A durable PVC jacket helps protect electronics, furniture and other objects from scratches and damage.

## **Security first in retail, educational environments and trade show booths**

Most electronics theft is a crime of opportunity, and it only takes a second to steal an untethered laptop from a desk or table. Better safe than sorry in places like libraries, computer labs, government offices, universities, airports and many other public spaces.

### **Features:**

- Anti-theft locking solution that secures your laptop or other equipment to a stationary object
- Fits the Kensington® Nano Security Slot
- Strong, cut-resistant steel cable and solid, all-metal construction to prevent tampering
- Keyless, resettable four-digit lock with 10,000 selectable combinations
- Suitable for all devices with the commonly used 6 x 2.5 mm slot, such as ultra-thin laptops and tablets
- Slim lock head won't raise your notebook off its surface, allowing thin devices to lie flat and stable
- Flexible, 1.8 m (6 ft.) long cable to easily anchor your device to a stationary desk, post or other attachment point
- Durable PVC coating protects electronics, furniture and other objects from scratches
- Maximized security for travel and in low-supervision areas like retail stores, libraries, computer labs, offices, schools or trade show booths
- Integrated hook-and-loop strap for storage
- Foam spacer near the lock tip prevents scuffing the laptop or device
- Lifetime warranty
