NOTHING CUTS LIKE AN OLFA

FEATURES

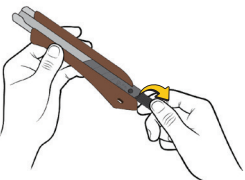

EASY, NO-TOOLS BLADE CHANGE

1

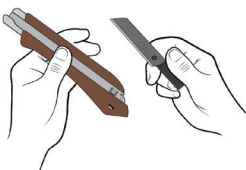

Push down on Slider assembly and slide towards back end.

2

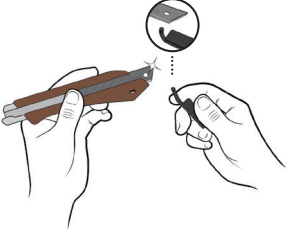

Push Slider assembly past the base of handle to remove.

3

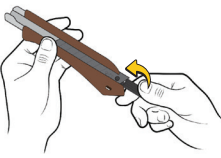

Remove Slider assembly from blade. Carefully slide used blade section out of handle and dispose of properly in sharps container.

4

Slide new blade into channel. Align blade by placing the hole in the blade over the raised mounting point on Slider assembly.

5

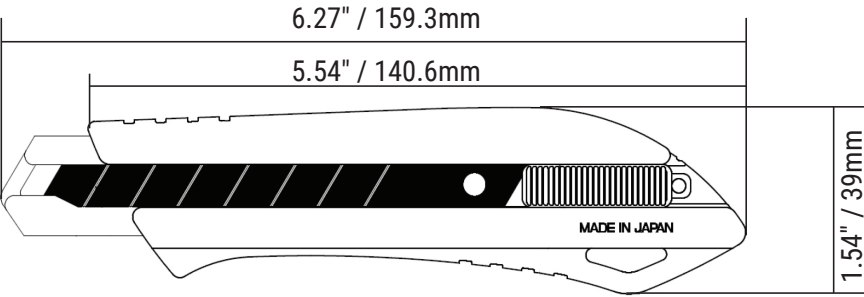

Push Slider assembly and blade forward in the handle to lock into place.

6

New blade is now ready for use.
