DocAction II: Simplify Your Scanning

The SmartOffice PS286 Pro with DocAction II makes scanning easy and efficient. Create up to 255 custom scan profiles with your preferred format, resolution, and save location. With one button press, instantly launch the right profile and keep your document workflow smooth and productive.

Fast Duplex Scanning with 50-Sheet ADF

Scan at 30 pages per minute / 60 images per minute in color, grayscale, or black and white. The built-in 50-sheet Automatic Document Feeder makes it easy to batch scan contracts, forms, or mixed files without interruptions.

Direct FTP Upload

Easily upload scanned files directly to your FTP server for centralized access and team collaboration. This feature helps simplify document delivery across departments while improving file security and workflow speed.

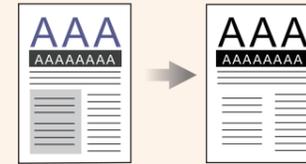

Barcode Recognition for Smarter File Management

Built-in barcode recognition lets users automatically name and sort scanned documents based on barcode data. This helps streamline file naming, minimize errors, and speed up document retrieval—ideal for organizing large volumes of structured paperwork.

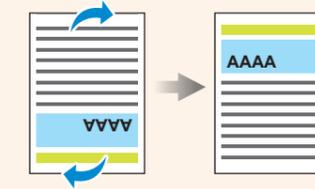

1 Auto Threshold

Automatically thresholds the current image into a binary black and white image.

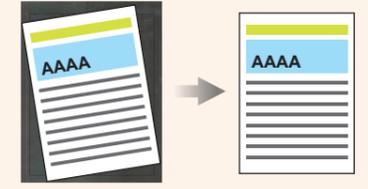

2 Auto Rotate

Automatically rotates document based on the contents of the document.

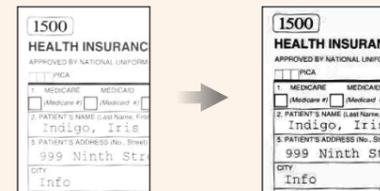

3 Auto Crop & Deskew

Automatically straightens and crops image to the document's actual size.

4 Character enhancement

Choose this function can increase the contrast, especially on character, in order to clarify the words.

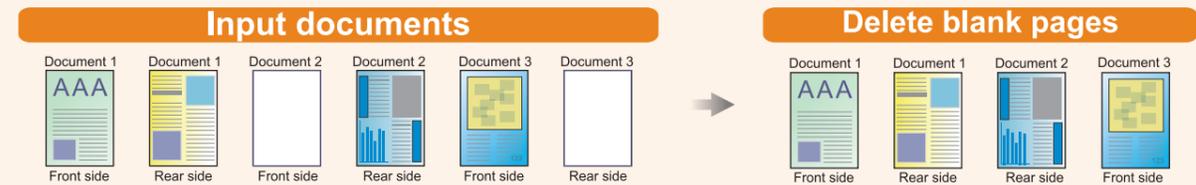

5 Punch hole removal

Documents that are on file usually have punch holes for the easier binding purpose. When scanning these type of files, the scanner will detect the hole leaving black dot over places where the punch hole is in place on the digitalized document.

6 Blank Page Removal

Automatically removes blank pages without manual editing.

Fast scanning at speeds up to 25ppm in Grayscale and Color modes.

Effective scanning with large Automatic Document Feeder up to 50 pages.

Digitalize paper business cards into easily-managed and sorted contacts, and turn your business cards into information.

Scans long documents up to 200 inches (5080 mm), ideal for oversized forms like utility bills, medical records, and transaction logs—captured accurately in a single pass.

Save paper documents as searchable PDFs at the touch of a button and find your information faster.

The PS188 allows users upload their scanned files to FTP server, FTP is one of the most common forms of file storing method, saving the scanned document directly to FTP helps user sharing their files more convenient and effective.
