

PRO FRAME THIN AT8K SERIES

The **Pro Frame Thin AT8K** by Elite ProAV is an EDGE FREE® fixed frame screen that utilizes an ultra-fine tightly knit front projection material designed for 4K and 8K high-resolution projectors to provide exceptional video and audio performance. The CineWhite® A8K material is a multi-layer, tightly knitted fabric with a bonded black backing to preserve image brightness and color saturation. It has earned the world-renowned ISF Certification for providing a flat spectral response and displaying accurate colors in a dark room environment.

Screen Material

- CineWhite® A8K 1.1 Gain sound transparent projection material
- Moiré-free ultra-fine knit design provides superior picture quality
- Wide viewing angle allows viewers to see a bright, clear image from any angle
- ISF Certified for accurate color reproduction
- Exceptional sonic transparency with minimal attenuation
- 4K/8K Ultra HD, HDR, Active 3D ready
- Compatible with ultra, short and standard throw projectors
- Available in diagonal sizes
 - 110", 120", 135" and 150" in 16:9 Aspect ratio
 - 138", 158", 166" and 176" in 2.35:1 Aspect Ratio

Design & Installation

- Bonded black backing eliminates back-lighting (reflection) and reduces projector light loss
- Thin EDGE FREE® Fixed Frame design maximizes viewing area
- Black aluminum bezel trim provides a flat panel display-like appearance
- Split-frame aluminum design is cost-effective for shipping and provides easy access to installation sites
- Sliding wall mounting brackets allow horizontal movement of screen to ensure precision on-axis alignment
- LED Backlighting kit with IR remote included
- 5-year manufacturer's warranty
