

Safeguard 15-inch MacBook Air models M3/M4/M5 with the MAXCases Extreme Shell-L case. Designed to deliver robust protection, the Extreme Shell-L case features clear, compound Polycarbonate (PC) panels surrounded by tough TPU bumpers. This 360-degree protection is enhanced by impact-absorbing enhanced corners and a textured spine wrap for added hinge protection and a wide grip-assist surface. The custom-fit design delivers a snug, perfect fit and supports all device functions and port access. Slip resistant, pop-out mini-stand elevates the MacBook for an ergonomic typing angle. Custom-fit keyboard protectors and ballistic glass screen protectors, as well as custom colors, logos and/or MAXProtec antibacterial upgrade are available with minimum quantity order.
