UHD Signage UH5Q Series

UHD Signage Display with LG webOS Platform and Advanced Security

**HDR** HDR Support

Slim & Even Bezel

webOS Smart Platform

LG Shield

UH5Q

Screen Size	65" / 55" / 49" / 43"
Screen Resolution	3,840 × 2,160 (UHD)
Brightness	Up to 500 nits (Typ.)
Surface Treatment (Haze)	65" / 55" / 43": 25% 49": 28%
Bezel Width	11.4 mm (Even Bezel)

Superb Picture Quality with Ultra HD Resolution

With the resolution of UHD, it makes the colors and details of the content vivid and realistic. In addition, the wide viewing angle provides clear content.

Even & Slim Bezel Design

The UH5Q series features perfectly balanced horizontal and vertical slim bezels, creating a visually harmonious display solution. Its specialized design simplifies installation in retail environments while delivering a truly immersive viewing experience.

Convenient webOS Platform

The UH5Q is equipped with a high-performance SoC (System on Chip) that allows for multiple tasks to be performed without a separate media player. The webOS platform provides app development tools with an intuitive UI that enhances user convenience, and includes webOS partner apps to create an SI-friendly (System Integrator) environment.

Design for Space Utilization

Designed with thin bezels and simple cable management, the UH5Q saves space. With specialized hidden power inlets, it can be installed close to the wall, leaving only about 13.5 mm of space with the slim bracket.

*   The product image will differ slightly from the actual appearance of the product due to the variance caused by each inch option.

Durability that Provides Reliability

Optimized for business environments, the UH5Q is protected against salt, dust, iron powder and humidity thanks to conformal partial coating on power board, allowing for stable operation. Also, its customer-centric features, such as IP5x and Shock Monitoring*, provide both reliability and satisfaction.

*   When a physical impact occurs on the product, an alert is provided to the administrator through the media controller.

Comprehensive Security

webOS Signage goes beyond security measures at the operating system (OS) level. LG Shield employs a five-tiered defense system, encompassing server, application, operating system, system, and hardware. Each layer operates independently, providing comprehensive protection against various threats. Also webOS platform support ETSI EN 303 645.
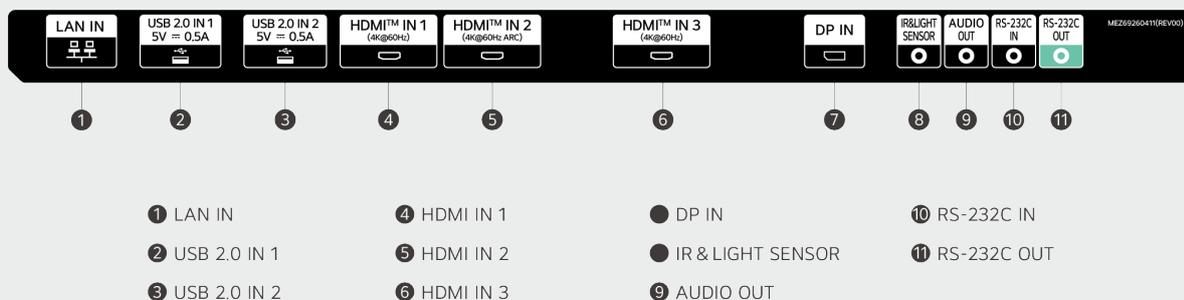

SuperSign™ Solutions

SuperSign* is an integrated and intuitive content management solution for creative and organized digital signage content in your space, connecting customers to a range of services with convenient user experiences. There are a variety of versions such as SuperSign Cloud, so discover and enjoy the version that best fits you.

*   SuperSign must be purchased separately

CONNECTIVITY
