PRODUCT SPECIFICATION & INFORMATION

Pass through compatibility allows it to work with any Bluetooth device, such as car kit, entertainment unit, or computer.

Compatible with 12/24 volt charging with voltage spike protection.

Internal multiband passive antenna booster is specifically tuned to 3G/4G networks.

The cradle firmly grasps each specific device to reduce vibration that may be caused by excessive movement.

Compatible with RAM Mounts with its industry-standard AMPS mounting pattern.

Designed, engineered and made in Australia for Australian conditions.

Can be used in the following industries: Retail, Transport & Logistics, Utilities, Field Mobility, Cross-Industry, Manufacturing, Federal Government, Healthcare, Human Services, and Public Safety.

Choose from a wide variety of lockable mounts, industry specific mounts, cases, and other mounting options as additional features to suit various industries.

Patented design exclusive for Strike.

The **Strike Alpha Car Cradle** secures your iPad Pro 11 (2024) for easy access and a comfortable viewing angle, ideal for tasks like reviewing reports, video conferencing, or navigating routes.
