

PortLock Combination Laptop Lock for Specialized USB-C® Lock Slots

Part Number: K64548WW | UPC Code: 0 85896 64548 1 (Resettable)

Part Number: K64549WW | UPC Code: 0 85896 64549 8 (Serialized, 1-pack)

Part Number: K64552WW | UPC Code: 0 85896 64552 8 (Serialized, 25-pack)

Precision fit.
Effortless
protection.

Newer Dell XPS 14 and XPS 16 laptops feature a proprietary USB-C® security slot that is incompatible with standard laptop locks, requiring the use of adhesive locking plates, which can add bulk, hinder stability, and leave sticky residue.

Approved by Dell, the PortLock Combination Laptop Lock attaches directly to the specialized USB-C® slot without requiring adapters, preserving the laptop's slim profile and supporting full port access. Its low-profile lock head prevents wobbling, while the pivoting design supports user-friendly one-handed attachment.

With preset or user-settable 4-wheel number codes, IT teams can eliminate key management issues while ensuring secure, compliant, and user-friendly device protection across your fleet.

- Dell-approved for XPS 14 and XPS 16 laptops with specialized USB-C® slots (2026+)
- Slim lock head ensures no laptop wobble
- Pivoting lock head lets you secure the lock from any angle
- No port blocking
- Long 6ft (1.8m) carbon steel cable
- 10,000 possible combinations
- Register & Retrieve™ for quick, easy, and secure lookup of forgotten code
- Tested for strength, physical endurance, and mechanical resilience
- 5-year limited warranty

Designed Exclusively for Dell

Kensington worked directly with Dell to provide professional-level security that looks as good as it functions. Specifically designed for the latest XPS 14 and XPS 16 laptops with specialized USB-C® slots (2026+), this Dell-approved lock eliminates the need for bulky adhesive adapters – while preserving your laptop's sleek, professional appearance.

Slim Lock Head

The low-profile lock head provides trusted direct-attach security while allowing your device to lie flat and stable.

Pivoting Head and Rotating Anchor

Engage the lock with one hand at any angle without blocking nearby ports or straining your laptop's lock slot or chassis.

6ft (1.8m) Carbon Steel Cable

Resists cutting attempts and features a plastic sheath that protects desktop surfaces while offering ample length for anchoring your laptop to desks, tables, and other fixed structures.

Resettable 4-Wheel Number Code with Register & Retrieve™

Provides convenient keyless security. Set or reset your personal number code from 10,000 possible combinations. Free code registration allows for quick, easy, and secure lookup if your combination is ever lost or forgotten.

Verified & Tested

Each Kensington lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance, and mechanical resilience.
