HP9500 Series ECLIPSE SPT 3D SPATIAL AUDIO Wireless Over-Ear Headphones

■ 3D Spatial Audio

Our ECLIPSE SPT Spatial Audio Headphones provide an immersive natural auditory experience. These headphones use advanced technology to map sound in three dimensions. Instead of simply surrounding the user with sound, Spatial Audio provides a realistic Depth to create the same sounds in that of a physical space, providing the user an unparalleled auditory experience.

■ Hybrid Active Noise Canceling

Hybrid Active Noise Canceling detects and virtually eliminates background noise such as automobile traffic and airplane engines by up to 45db to allow you to focus on what's important. Turn the ANC Button off when you need to hear what is happening around you, while still listening to music or movies.

■ Extended 80-Hour Playtime

Our Wireless Headphones are built to last up to 80 hours of use on a single charge. Designed to support 2x Fast charging via USB Type-C charging port and fast charging battery. Our Headphones also work in wired mode with the included USB Type-C to USB Type-C wired cable.

■ Bluetooth® 6.0

We designed our Wireless Headphones on the Bluetooth® 6.0 platform, allowing our ECLIPSE SPT Active Noise Canceling Bluetooth Headphones to communicate as Bluetooth® low energy devices, providing a stronger signal for better stability and improved battery life up to 80 hours.

■ USB Type-C Fast Charging

We engineered our ECLIPSE SPT Bluetooth Headphones with USB Type-C fast charging and a specialized battery that charges twice as fast. In the rare case that your Wireless Headphones run out of power, a 15 minute quick charge will provide up to 10 hours of use.
