## A Copilot+PC<sup>1</sup>

Key Experiences and Product Specs

Light without limits. Mobility without compromise.

### **Key Product Experiences**

- **Refined design. Relentless performance. Future-ready for AI.** Smart inside, stunning outside, and fast everywhere. Experience mobility without compromise on this premium, lightweight laptop that delivers future-ready AI power—keeping you fast, cool, and responsive. From OLED brilliance to haptic precision, every detail is built to elevate your work life, empowering you to shine now—and stay ready to tackle the future of work in style.
- **Smarter by design.** Built IT friendly delivering a reliable, secure, and easy to manage premium laptop. With intelligent performance, long battery life, and new, improved serviceability—like a top-mounted keyboard for faster replacement—it drives greater uptime, simplifies IT support, and extends the device lifecycle.
- **Redesigned for speed and comfort.** Redesigned keyboard with deeper, more comfortable keycaps, enlarged keys where it matters, and a top-mount design for faster serviceability paired with a larger waterfall haptic trackpad for smooth, responsive, and seamless navigation.
- **Mobile and light.** Starting at 999g, the EliteBook X G2i Clamshell delivers exceptional portability in a meticulously crafted chassis. It's available in Glacier Silver, Atmospheric Blue, and the bold new Eclipse Gray.
- **Ultra-flexible with smart pen capabilities.** The EliteBook X Flip G2i adapts to your workflow with four versatile use modes and an optional HP Nested Pen.<sup>19</sup> Go beyond writing and sketching—track a lost pen<sup>43</sup>, magnify small text by hovering, and get up to 2 hours of use with a 30 second charge.<sup>44</sup>
- **Protected by HP Wolf Security.** HP Wolf Security for Business creates a hardware-enforced, always-on, resilient defense. From the BIOS to the browser, above, in, and below the OS, these constantly evolving solutions help protect your PC from modern threats.<sup>2</sup>

## Disclaimers:

1. Copilot+ in Windows requires Windows 11. Some features require an NPU. Timing of feature delivery and availability varies by market and device. Requires Microsoft account to log in. Where Microsoft in Windows is not available, the Copilot key will lead to the Bing search engine. Use of Recall requires customer authentication using Windows Hello Enhanced Sign in Security (ESS) which requires a fingerprint reader or facial recognition camera and may not be supported on all platforms. See <http://aka.ms/WindowsAIFeatures>
2. HP Wolf Security for Business requires Windows 10 and higher, includes various HP security features and is available on HP Pro, Elite, Workstation, and RPOS products. See product details for included security features and OS requirements.
3. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.
4. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.
5. Next Gen AI PC with 40+ TOPS NPU to enable local AI processing.
6. AI applications that require an NPU may require software purchase, subscription or enablement by a software or platform provider, and third-party software may have specific configuration or compatibility requirements. Potential NPU inferencing performance varies by use, configuration, and other factors
7. For systems configured with more than 3 GB of memory and a 32-bit operating system, all memory may not be available due to system resource requirements. Addressing memory above 4 GB requires a 64-bit operating system. Memory modules support data transfer rates up to 2666 MT/s, 2933 MT/s or 3200 MT/s as depending on processor config; with 1 DIMM per channel. Additional DIMM loading on any channel may impact maximum memory speed. Actual data rate is determined by the system's configured; See processor specifications for supported memory data rate.
8. For storage drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows) is reserved for system recovery software.
9. All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.
10. HP Sure View integrated privacy screen is an optional feature that must be configured at purchase and is designed to function in landscape orientation.
11. Touch will reduce actual brightness
12. Actual throughput may vary
13. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 7 (802.11BE) functionality requires compatible Windows 11 OS, compatible processor, and separately purchased Wi-Fi 7 router to support backwards compatibility with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported. The specification for 802.11BE is a draft specification and is not final. If the final specification differs from the draft specification, it may affect the ability of the device to communicate with other 802.11BE devices.
14. Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See <http://intel.com/vpro>
15. HP GO is optional and must be configured at time of purchase.
16. 5G module is optional and must be configured at the factory. Module designed for 5G NR NSA (non-standalone) networks as carriers deploy Evolved-Universal Terrestrial Radio Access New Radio Dual Connectivity (ENDC) with both 100Mhz of 5G NR and LTE channel bandwidth, using 256QAM 4x4 as defined by 3GPP. Module requires activation and separately purchased service contract. Check with service provider for coverage and availability in your area. Data connection, upload and download speeds will vary due to network, location, environment, network conditions, and other factors. Backwards compatible to 4G LTE and 3G HSPA technologies. 5G module planned to be available in select platforms and select countries, where carrier supported.
17. HP Go integrates pre-embedded carrier profiles, pre-activation processes, and pre-configured APNs at the factory, enabling seamless out-of-the-box connectivity. Requires 5G module and Windows support for carrier profile management and network selection. US subscription service ONLY
18. Actual battery life will vary with use and environmental conditions, and will naturally decrease with time and usage.
19. Optional feature must be configured at time of purchase.
20. Front height measurement is near the front edge where the chassis bottom cover taper begins. Back height measurement is near the back edge where the chassis bottom cover taper ends, excluding transition area to rubber feet.
21. Actual weight will vary by configuration.
22. Recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal parts over 25 grams.
23. Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 EPEAT standard

24. Percentage of ocean-bound plastic contained in each component varies by product. Ocean Bound plastic is expressed as a percentage of the total weight plastic. Ocean Bound plastic is based on the definition set by the UL2809 standard.
25. Percentage of recycled glass in the monitor panel varies by product. Recycled glass is expressed as a percentage of the total weight of the glass.
26. HP paper and fiber based packaging for PCs, displays, home and office print, and supplies is reported by suppliers as recycled or certified, with a minimum of 97% by volume verified by HP. Packaging is the box that comes with the product and all paper-based materials inside the box. Packaging for commercial, personal systems accessories, and spare parts is not included.
27. Percentage of recycled fishing net plastic contained in each component varies by product. Recycled fishing net plastic is expressed as a percentage of the total weight plastic.
28. Percent of recycled material varies by product.
29. EPEAT tier levels may vary by country. See [www.epeat.net](http://www.epeat.net) for registration status and tier levels by country.
30. Power Consumption Measurement with real-time total power usage tracking will release in 2024 on our commercial notebook line. The energy consumption data is planned to be available to end users within myHP and ITDMs via HP Proactive Insights in May 2024. Fleet management within HP Proactive Insights requires Windows 10 or higher and registration for the Workforce Experience platform at <https://admin.hp.com>. Some features and capabilities may require additional purchase of HP services and/or commercial hardware capable of supporting the HP Insights agent for Windows, Mac, & Android. Activation and restrictions may apply. Select HP Workforce Solutions require an HP Insights agent for Windows, Mac, & Android, available for download at <https://admin.hp.com/software>. For full system requirements and services that require the agent, please visit <https://admin.hp.com/requirements>. The agent collects telemetry and analytics around devices and applications that integrate into the Workforce Experience platform and is not sold as a standalone service. Internet access with connection to the Workforce Experience platform is required. HP follows stringent GDPR privacy regulations, and the platform is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security.
31. Poly Camera Pro requires the HP application and Windows OS.
32. HP Sure Admin requires Windows 10 or higher and HP BIOS
33. HP Sure Click requires Windows 10 and higher. See [https://bit.ly/2PrLT6A\\_SureClick](https://bit.ly/2PrLT6A_SureClick) for complete details.
34. HP Sure Recover is available on select HP PCs and requires Windows 10 and an open network connection. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. Network based recovery using Wi-Fi is only available on PCs with Intel Wi-Fi Module.
35. HP Sure Run is available on select Windows 10 Pro and higher based HP Pro, Elite and Workstation PCs with select Intel® or AMD processors.
36. HP Sure Sense is available on select HP PCs with Windows 10 Pro, Windows 10 Enterprise, Windows 11 Pro, or Windows 11 Enterprise OS.
37. HP Sure Start is available on select HP PCs and requires Windows 10 Pro and higher
38. HP Tamper Lock must be enabled by the customer or your administrator.
39. HP BIOSphere requires Windows 10 or higher and is available on select HP Pro and Elite PCs. Features may vary depending on the platform and configurations.
41. HDMI 2.1 Support resolution up to 4K @60 Hz
42. Screen to body ratio is the percent of active plus nonactive viewing area to active viewing area plus border. Measure with lid vertical to the desk
43. One-step inking, pen loss alert, pen last location, gestures, and magnification on hover require enablement in the HP application.
44. Actual battery life will vary with use and environmental conditions, and will naturally decrease with time and usage.
45. Based on an August 2025 certification project, audited by TÜV RheinlandTaiwan according to international standards <https://www.prnewswire.com/apac/news-releases/from-waste-to-worth-hp-and-tuv-rheinlands-sustainabil...>
