

HP 200 G2a 14 inch Notebook PC (D72JPPT)

Overview

Essential features in a compact design

The HP 200 G2a 14-inch Notebook PC is purpose-built for cost-conscious educators and professionals to pack immersive visuals, flexible specs, and business-grade features into a compact, durable chassis. It's secure, simple to manage, and ready for hybrid work—whether you're in the office, on the move, or somewhere in between.

An upgraded experience in cost-conscious devices

Delivering trusted durability and enterprise-grade experiences in an accessible, secure and cost-optimized device for growing businesses.

Crisp and clear communication tools

Show up with confidence on any call with integrated camera and HP AI Noise Reduction[4] with dual-array mics.

Durable design, trusted security

HP 200 G2a combines trusted security and convenience with TPM 2.0 for business data protection.[6]

Help protect our shared future

Built with at least 80% recycled metal in the keyboard[8].

Features

HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.^[1]

Commanding AMD processor

Take on your work with an efficient and reliable AMD Ryzen® processor with Thermal Design Power (TDP) that provides a highly responsive experience.^[2]

Fast and efficient wireless LAN

The portability of your PC and the reliability of a fast connection determines where you can work. Get a fast and reliable connection in dense wireless environments with gigabit-speed Wi-Fi 6.^[3]

Be your best virtual self

Sometimes in life, only a face-to-face conversation will do. Thanks to the HP HD camera with wide dynamic range (WDR), you always come off looking your best during virtual conferences in bright and low light conditions.

Protection for minor spills

Help protect sensitive electronics and key components from minor spills with the spill-resistant keyboard.

Crisp and clear collaboration

Suppress background noise and prevent interruptions for effective online calls and meetings with HP AI Noise Reduction, which improves collaboration by applying industry-leading, noise-filtering technology to all inbound and outbound audio.^[4]

[4] Requires HP app and Windows OS.

[6] TPM 2.0 is limited on HP ThinPro/HP Smart Zero, and functionality is dependent upon use of a customer-enabled application that can locate the TPM chip.

[8] Recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal parts over 25 grams.

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See <http://aka.ms/WindowsAIFeatures>.

[2] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed. Features and software that require a NPU may require software purchase, subscription or enablement by a software or platform provider, and third party software may have specific configuration or compatibility

requirements. Potential NPU inferencing performance varies by use, configuration, and other factors.

[3] Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs. The specifications for Wi-Fi 6 (802.11ax) are draft and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the PC to communicate with other 802.11ax devices. Wi-Fi® supporting gigabit speeds is achievable with Wi-Fi 6 (802.11ax) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.
