

Featuring MAXCases' patented slide-on top design, the Extreme Shell-F Slide Case V3 protects Chromebooks with slide-on ease and enhanced screen protection in an updated, lighter-weight design. The slimmer top design further reduces carrying weight, without sacrificing durability or protection, while providing a sleek and easy-to-clean surface. The updated corners provide a slimmer profile designed to enhance protection under a wide range of impact circumstances. The innovative slide design disperses pressure evenly around the entire top perimeter, for a snug fit that eliminates pressure hotspots around the screen. Crafted with dual layers of tough TPU for outstanding impact and drop protection, the ESF3 case combines a cushioning inner layer with an oil- and dirt-resistant outer layer and is tested to meet MIL-STD 810G-516.6 for four-foot drops. The clear, rigid top and bottom panels prevent exterior damage and provide visibility for stickers and asset tags. The custom fit ensures easy access to all buttons and ports. For added convenience, the V3 design accommodates a handy carrying strap that fits snugly against the case (sold separately).

Extreme Shell-F3 Slide-On Case

Lightweight slide-on ease and added screen protection

Extreme Shell-F3 Slide-On Case

Lightweight slide-on ease and added screen protection

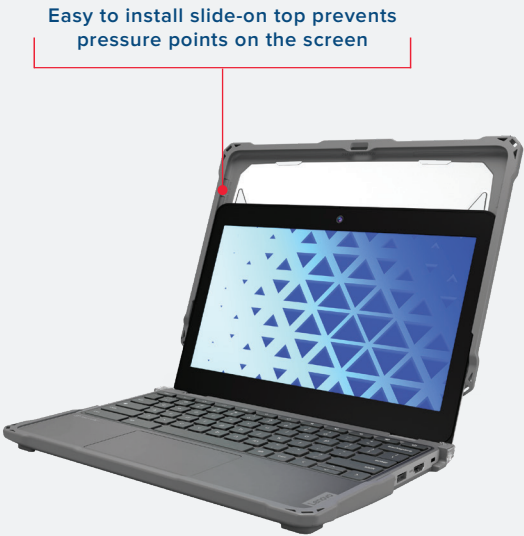

KEY FEATURES

- Patented slide-on top panel adds screen protection by evenly dispersing pressure around the perimeter of the screen
