

# HP Poly Mission 425 Stereo USB Wired Headset (C01B6AA)

## Overview

### Power your productivity

Stay focused and connected with dependable, consistent audio and easy USB setup. HP Poly Mission 425 headset makes every conversation clear and the day more productive.

### Easy connectivity

Keep work moving with plug-and-play USB Type-C® and USB Type-A connectivity, intuitive inline controls, and easy device management via HP Poly Studio App. These headsets make getting started easy — so you can focus on your work, not your setup.

### Lightweight comfortable fit

Stay in the zone with a headset made for long, demanding days. Lightweight materials and soft ear cushions keep you comfortable through meetings, ensuring focus stays on the conversation — not your headset.

### Built for focused conversations

Designed for productivity, the HP Poly Mission 425 headset keeps conversations efficient and professional. A single noise-canceling mic and super wideband audio make every word come through clearly.

### Built for a better tomorrow

This headset is thoughtfully designed containing at least 25% post-consumer recycled plastics[2] and shipped in paper-based packaging[3].

# Features

## AI noise reduction[1]

AI noise reduction[1] detects and filters ambient sounds so only your voice comes through. Meetings stay quiet and focused without manual muting.

## SoundGuard Digital[5]

SoundGuard Digital[5] technology controls sudden audio spikes and continuous noise to keep levels safe and comfortable throughout the day without distorting speech quality.

## Super wideband audio

Super wideband audio captures a broader frequency range to reproduce voice detail and tone more naturally. Conversations sound closer to in-person speech for clearer calls.

## 32 mm speaker drivers

Large 32 mm drivers deliver richer audio and sharper clarity, making voices easier to recognize and reducing listening fatigue during long sessions.

## Rotatable microphone boom

A 285-degree rotating microphone lets users wear the boom on either side for comfort and control.

## TCO Certified, generation 10

The HP Poly Mission 425 USB headset is certified according to TCO Certified[4]. This product meets a wide scope of sustainability criteria, covering both environmental and social responsibility in the supply chain and throughout the product life cycle.

[4] HP Poly SoundGuard Digital includes G616 anti-startle protection which limits the noise level to below 102 dB SPL and is compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; HP Poly owned proprietary Advanced Audio Limiter, compliant to ACIF G616; and Average Daily Noise Exposure that measures and controls sound to prevent the Average Daily Noise Exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). HP Poly Studio App is required to enable SoundGuard Digital features. HP Poly SoundGuard protects against Acoustic Shock by limiting sounds to below 118 dBA. This feature is enabled by default and is not a user configurable feature.
