

Custom-designed to complement the MacBook Neo, the MAXCases Sure-Grip Shell Case combines sleek style with added protection and functional features that surpass simple shell cases. Crafted with engineering-grade polycarbonate (PC), the scratch-resistant top and bottom panels are surrounded by molded PC edges and reinforced PC corners that increase protection against damage from drops. The Sure-Grip spine-wrap features clear, textured TPU for more secure carrying, providing added insurance against drops. The durable clip-on panels are quick and easy to install and ensure a secure fit that stays on until it's time to remove them. The crystal-clear surface showcases the beauty of the MacBook Neo and allows for easy visibility to asset tags. The lightly textured surface of the PC perimeter provides a stylish frosted appearance that adds durability to this scuff-prone area. Grippy, traction-enhancing feet resist sliding for stability while typing, while the perfect-fit allows easy access to all device functions. Certified to meet MIL-STD-810H Method 516.6 test for 26 drops from two feet.
