SMARTMOUNT.

Pull-out Pivot Wall Mount

FOR 49" TO 65" DISPLAYS*

The SmartMount® Pull-Out Pivot Mount combines the best features of a wall mount and pivot arm into one design. When closed, the SP850-UNM acts as a flat or tilting wall mount. At only 2.73" (69mm) from the wall, its unique wall plate and built-in cable management neatly hides all components and cords. Extended, the SP850-UNM's sturdy arm construction smoothly glides the display out 11.18" (284mm) from the wall and allows the display to pivot up to 45°. The SP850-UNM is ideal in applications where the display needs to be recessed into the wall, custom framed, or aligned into a multi-display wall.

- Universal models adapt to displays with mounting holes up to 400 x 400mm (15.75" W x 15.75" H)
- IncreLok™ tilt provides tilt at 0°, 5° and 10°
- ±1° of roll for horizontal display leveling during installation
- Mounts to 16" wood studs, concrete and cinder block
- Landscape or portrait mounting options increases display versatility

RoHS

Please visit peerless-av.com/en-us/patents for patent information.

*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA® pattern and max weight of the Peerless-AV® product.
