# PRG Precision Gear Projector Mount

FOR MULTIMEDIA PROJECTORS UP TO 50LB (22KG)

Peerless-AV's PRG Precision Gear Projector Mount simplifies image alignment. The patent-pending precision gear design allows exact tilt and roll image positioning by either turning two adjustment knobs with a Phillips screwdriver, or using the tool-free option by extending the knobs to adjust by hand. Set the precision gear to the desired position to secure it in place and it will hold its position even during projector maintenance. With Peerless-AV's PRG Precision Gear Projector Mount, just set it and forget it. No more adjustment screws. No more micro-adjustments. No more hassles.

- Patent-pending precision gears provide exact projector image alignment
- Two adjustment knobs control projector image alignment
- Pre-assembled design reduces installation time
- Horizontal wrench access slots make flush mounting installations fast and easy
- Cable management allows cables to be routed through the projector mount and out of sight
- "U" shaped pitch bracket allows for hassle-free cable routing
- Quick-release mechanism to easily service projector
- Pre-installed security screws provide optional tilt and roll lock to prevent tampering with adjustment knobs
- Specifications:
  - Tilt:  $\pm 20^\circ$
  - Roll:  $\pm 10^\circ$
  - Swivel:  $360^\circ$  when mounted on extension column
  - $\pm 15^\circ$  when mounted flush on ceilings

#### PIN-POINT IMAGE ALIGNMENT

Achieve pin-point image alignment by simply turning the adjustment knobs by hand or with a Phillips screwdriver

#### SIMPLE FLUSH INSTALLATION

Enables fast, easy, and flush mounting installation with horizontal wrench access slots

#### UNIVERSAL COMPATIBILITY

Spider® Universal Adaptor Plate extends up to 17.63" (448 mm) to fit most projector models

#### PATENT-PENDING PRECISION GEARS

Reduces installation time and delivers pin-point image alignment
