Product Description:

Speed, power, and performance all come together in this built in the USA gaming PC, the CLX SET (TGMSETRTA5302BM). This high-performance mid-tower gaming PC has been designed in the sleek black CLX Obelisk gaming chassis and features a dominant gaming processor, the 7000-series AMD Ryzen 7 7800X3D 4.2GHz 8-Core processor with AMD 3D V-Cache Technology for a massive boost in gaming performance. That powerhouse CPU also has CLX Quench 360mm AIO liquid cooling to keep it performing at top speeds, even the capable Max 5GHZ! Along with that processing power you get the newest 50-series GeForce RTX 5070 graphics card with 12GB of GDDR7 ultra high-speed memory for raw graphics horsepower too! Along with game-changing technologies that include the NVIDIA Blackwell architecture with AI horsepower, plus Fifth-Gen Tensor Cores, Fourth-Gen Ray Tracing Cores and the cutting-edge NVIDIA DLSS 4 with Multi Frame Generation, you'll be assured of max frames per second gameplay. Running AAA gaming titles, high-end design applications, and intensive editing programs at lightning-fast speeds will be easy for this CLX SET PC because it has the power plus, 32GB of high speed 5600MHz DDR5 memory included, that can be expanded up to 256GB max! Ample storage is also included, with a 2TB NVMe M.2 SSD, so quick boot and load times will get you into your files or deep into the game of choice quickly, but expansion options are available to add more hard drives or M.2 drives, to handle all your storage needs. High-speed WiFi technology as well as a Gigabit LAN are included too, so enjoy the fast connection speeds! Hand-built by Gamers and supported by CLX in the USA, this impressive PC is a step above the rest!
