

Part# TGMSETIGE4900BM **UPC** 843151144267

Product Title:

CLX SET Gaming PC - AMD Ryzen 7 8700G 4.2GHz 8-Core Processor, 16GB DDR5 Memory, Radeon 780M (CPU Integrated) Graphics, 1TB NVMe M.2 SSD, WiFi, Windows 11 Home 64-bit

Product Description:

Entry-level gaming desktop PC for those gamers looking for an edge in online gaming, that can later upgrade as their skill level increases. This CLX SET gaming desktop computer, TGMSETIGE4900BM, is built with the latest AMD Ryzen G-Series processor, the AMD Ryzen 7 8700G 4.2GHz processor with 8-Cores and an AMD Zen 4 architecture that will provide an immersive gaming experience, even at a max Boost speed of 5.1GHz! Plus, so you can play virtually any PC game out there, the G-Series processor in this CLX SET rig has built-in (CPU integrated) AMD Radeon 780M graphics allowing you to play in smooth 1080p or better! Then when you're ready, you can easily upgrade by adding a dedicated graphics card for an even bigger visual performance boost. This system comes with 16GB of high-speed DDR5 RAM that will power through everyday titles and programs, while the 1TB NVMe M.2 SSD offers quick data transfer, fast load times, plus plenty of storage space. That's the power providing the exceptional performance for an entry-level gamer like this CLX gaming machine, but it's also a stunner too in its sleek black steel CLX Karnak Micro ATX tower chassis with tempered glass front and side panels, a swing-open side panel door, plus RGB fans inside that can be set to your desired look. If you're on a budget, start your gaming adventure off right with this budget-friendly PC that you can easily upgrade with a dedicated graphics card, as your skills and needs grow. Be a standout in all your online gaming battles and more, with this CLX SET TGMSETIGE4900BM gaming PC!

Product Features:
