## Hardware Reset

If the device stops functioning properly or has become unresponsive, perform a hardware reset by pressing the reset button gently using a small paperclip. The front LED blinks once during reset.

CLASS 2 LASER SAFETY STATEMENT

This laser device complies with International Standard IEC/EN 60825-1: ED 2. 2007, Class 2 Laser Product and also complies with 21 CFR 1040.10 and 1040.11, except for deviations pursuant to laser Notice No. 50, dated June 24, 2007:

ATTENTION:
LASER RADIATION
DO NOT STARE INTO BEAM
CLASS 2 LASER PRODUCT
WAVELENGTH: 650+/- 20nm
OPTICAL POWER: <1mW
IEC 60825-1: 2007-EN60825-1: 2007 ED 2.0

1. Emission of a parallel beam of visible light;
2. Maximum Power of 1 milliwatt CW, wavelength range 650±20 nanometers;
3. Operating temp between 0 ° C (32° F) to 40° C (104° F).
   - Do not disassemble the device
   - Do not use the device outside of its specified operating temperature range. If the device is exposed to an environment outside of its prescribed operation, turn off the device and allow the temperature to stabilize within the specified operating range before using the device.

S/N:

Getting Started

1 Charge your Presentair™ Bluetooth Presenter Remote on any USB port or charging adapter for 2 hours before initial use **or when the front LED blinks orange, indicating the battery is low**.

a

b

OR

NOTE: This device has USB charging function only, and will not appear on your system as a data device when plugged into a USB port.

2 The Rear LED blinks orange during charging. When the Presenter Remote is fully charged, the Rear LED glows solid orange.

* Power supply not included

Blue LED

Power Button
Power On/Off and Bluetooth pairing

Power On/Off

1 From On State—To Turn Power Off

Press and hold the **Power Button**. The Presentair rear blue LED blinks rapidly. Release button, the LED fades off and the power turns off.

2a From Off State—To Turn Power On

Press the **Power Button** for 1 second and release. The blue LED glows, the power turns on, then the LED turns off.

OR

2b From Off State—To Pair Device

Press and hold the **Power Button** from 3 to 6 seconds. The blue LED blinks slowly and Presentair enters **Pairing Mode**. Release button, it stays in pairing mode for 3 minutes or until paired to a device.

Pairing

On the computer you are pairing Presentair to, be sure the Bluetooth Wireless is on, active, and ready to connect to a device. Follow the Bluetooth pairing instructions from your computer manufacturer for connecting Presentair. Presentair appears as a **mouse device** for pairing.

NOTE: Your computer's Bluetooth configuration settings need to be set to allow devices to connect to this computer. Some Windows configuration and update settings may interfere with the Bluetooth connection or function. Ensure your Windows services for B**luetooth Service and Support** are **Started** and set to **Automatic** (found in **Administrative Tools** > **Services**). Ensure your Windows Bluetooth power management is not set to turn off your Bluetooth Wireless (found in **Device Manager** > **Bluetooth** > **Properties** > **Power Management**). Updating Bluetooth Drivers to the latest version found on your equipment manufacturer's website is recommended and may be necessary.

If you experience problems pairing or using Presentair, additional instructions, FAQs, and solutions with illustrations are found in the online guide at:
www.kensington.com/man/K39524

Mode Switching

Press and hold the **Down Button** to switch between Presentation and Media modes.

Presentation mode = Orange LED
Media mode* = Blue LED

* Laser does not activate in Media Mode.

Button	Presenter Mode (LED=Orange)	Media Mode (LED=Blue)
Up Button	Turns laser on as long as button is pressed.	Play/Pause
Down Button	Black screen	Stop
Left Button	Page up	Previous song/video
Right Button	Page down	Next song/video
