How to use the POP PHONE:

PLEASE READ THESE INSTRUCTIONS CAREFULLY before using your new handset

IMPORTANT SAFETY INSTRUCTIONS READ BEFORE OPERATING EQUIPMENT
This product was designed and manufactured to meet strict quality and safety standards. There are, however, some installation and operation precautions which you should be particularly aware of:

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
8. Only use attachments/accessories specified by the manufacturer.
CONNECTING YOUR POP PHONE TO YOUR MOBILE PHONE

Step 1
Check if your mobile phone requires any adaptor. If your mobile phone doesn’t require an adaptor, please proceed directly to step 3

Step 2
Plug the corresponding adaptor to the 3.5mm jack end of your handset

Step 3
Plug the 3.5mm jack end of the POP PHNOE securely into the 3.5mm port of your mobile phone

www.nativeunion.com/adaptors
BE CAREFUL
Not to force the adaptor into your mobile phone, you could damage it. We cannot be held responsible for any damage you will do to your mobile phone while trying to plug your POP PHONE.

MAKING A CALL
Once your POP PHONE is connected to your mobile phone, you can make a call as you normally would. Volume is controlled through your mobile phone as usual.

ANSWERING AN INCOMING CALL
Most mobile phone will support the POP PHONE answer button function. Just press the center button on the handle of the handset to answer a call. If your mobile phone doesn’t support the answer button function, you can then answer the call by pressing the regular answer button on your mobile phone.

DISCONNECTING A CALL
Simply press the center button on the handle of the POP PHONE to end a call. If your mobile phone doesn’t support the button function, you can then end the call by pressing the regular disconnect button on your mobile phone.

REDIALING LAST NUMBER
Depending on your mobile phone brand and model, you may be able to redial the last number called by simply pressing the center button of the POP PHONE while the phone is in standby.
VOICE ACTIVATED DIALING
The POP PHONE also supports “voice activated dialing” with certain brand and model of mobile phones. Before you can use this function, you need to set up voice tags on your mobile phone (please check your mobile phone’s instruction manual for more details).
To make a voice activated call, hold down the center button of the handset until you hear an alert tone. You must then pronounce clearly the name of the contact you wish to call.

TROUBLE SHOOTING
If you are having problems using your POP PHONE, please go to www.nativeunion.com for further help, or consult your local retailer.

ADAPTORS
The POP PHONE handset works with most of the mobile phones available on the market. However, some of them might require a special adaptor to connect to your POP PHONE. To check which adaptor your phone might need, please go to www.nativeunion.com/adaptors

LIMITED WARRANTY
If the product appears to be damaged or does not function properly, please follow the advice in this booklet.
If you cannot find any solution in this booklet, please go to www.nativeunion.com/support for instructions about how to obtain warranty service.
FCC COMPLIANCE
This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 condition:
1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

IMPORTANT SAFETY WARNINGS
1. FCC regulations state that any change or modification to the equipment, not expressly approved by the manufacturer or its authorized parties, could void user’s authority to operate this equipment.
2. To prevent fire or electric shock, do not expose the unit to rain or moisture.
3. Never attempt to open the casing. Always refer servicing to a qualified technician.

FCC NOTICE (USA)
As specified in Part 15 of the FCC Rules, this equipment complies within the limits of a Class B digital device. These restrictions provide sufficient against radio and TV interference in residential areas. However, even during normal operation, this device may cause TV or radio interference. In attempting to eliminate some or all interference, you should try one or more of the following corrective measures:
1. Increase the distance between the device and the radio and/or TV
2. Try a different outlet on various electrical circuits for the device, the radio and/or TV.
3. Reposition the receiving antenna
Disposal of old electrical and electronic equipment:
After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:
Electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose or point sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
