

SPP20T 5" 70V Indoor/Outdoor Projection Speaker

Thank you for your choice of Speco Technologies' **SPP20T** Projection Speaker. This unit combines the benefits of a horn and a speaker to give you the best of both worlds. It is ideal for horn-type applications where better quality sound is required.

FEATURES

- Mounts like a horn with adjustable bracket
- Constructed for indoor or outdoor use
- Built-in 70V transformer
- 5 year warranty

INSTALLATION INSTRUCTIONS

- 1) Remove the bracket from your speaker by unscrewing the screws on each side.
- 2) Feed your speaker wire through the central hole incorporated into the rear of the mounting bracket.
- 3) Mount your speaker to the intended surface by utilizing the remaining two holes in the bracket and mounting screws.
- 4) Reattach your speaker to the bracket and adjust at the desired angle.
- 5) Connect the speaker wire to the desired wattage behind the rear panel on the speaker.
- 6) Re-attach the rear panel, taking care for a flush connection – especially if being installed outdoors. Use the wire gland if installed in a wet or outdoor environment.
