Monitor Riser with Integrated Qi Charging Pad

Product Diagram (MONSTADQI)
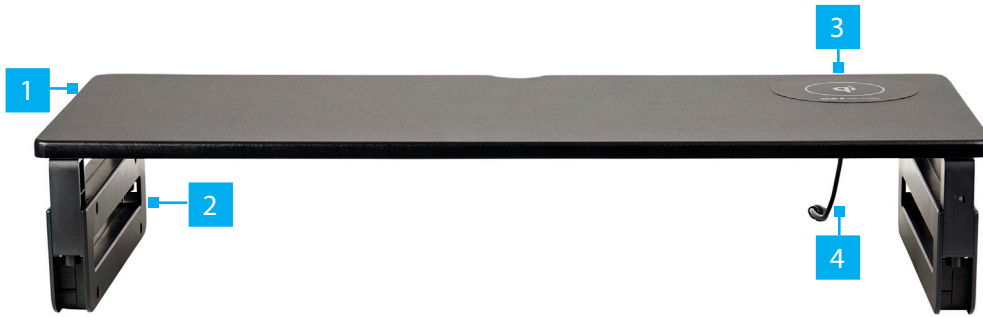

Component		Function
1	Stand Top with Integrated Qi Charger	• 23.6 x 9.8 inches (600 x 250 mm) surface area • Holds a **Monitor**, a **Mobile Device with Wireless Charging Capabilities**, and a **Notebook/Paper Documents**

2	Legs	• Adjustable height:
		   • Legs folded down - 3.3 inches (83.5 mm)
		   • Legs folded up - 4.5 inches (115.5 mm)

3	Qi Charger	• 15W Charging for a **Mobile Device with Wireless Charging Capabilities**
4	Power Cable	• Connect the **Power Adapter** (included) to provide power to the **Qi Charger**

Requirements

For the latest requirements and full manual, please visit: www.startech.com/MONSTADQI.

• Mobile Device with Wireless Charging Capabilities x 1

• Clean, Flat, and Stable Surface

Installation

Assembling the Monitor Riser

1. Determine the desired height for the **Stand Top**.

2. (Optional -- Increase the height of the **Monitor Riser Legs**) Rotate the **Height Adjustment Arms** found on the sides of the **Legs** out and up. The **Height Adjustment Arms** pivot from a single point in the **Legs**. Ensure all four **Height Adjustment Arms** have been fully rotated out and up before proceeding to the next step. *(Figure 1)*

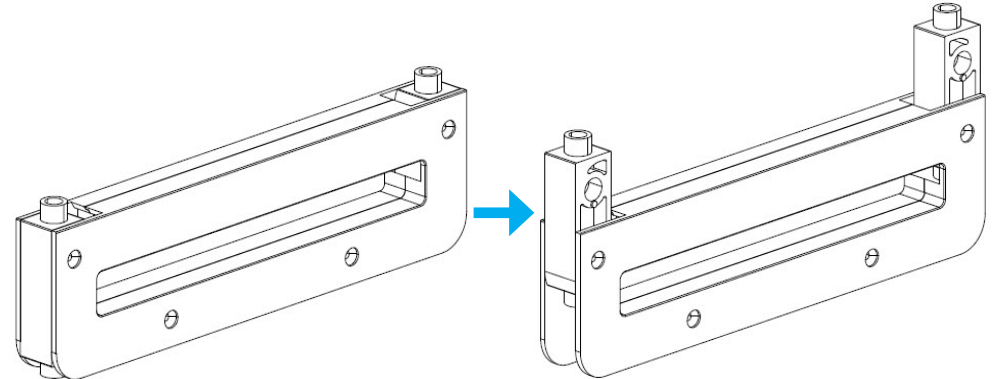

Figure 1

3. Place the **Stand Top**, top side down, onto a **Clean, Flat, and Stable Surface**.

4. Align the two **Pegs** on one of the **Legs** with the two **Holes** in the **Stand Top.** *(Figure 2)*

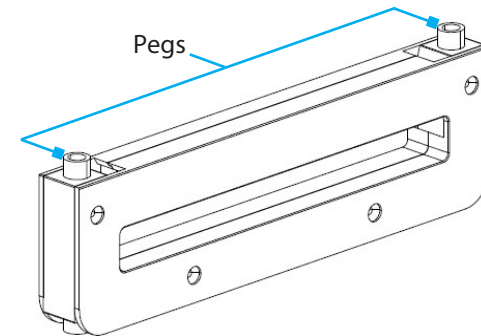

Pegs

Figure 2

5. Firmly press the two **Pegs** on one of the **Legs** into the two **Holes** in the **Stand Top.**

6. Repeat steps 4-5 to install the second **Leg**.

7. Flip the **Monitor Riser Assembly** upright and position it on a **Clean, Flat, and Stable Surface** for use.

8. Connect the **Power Adapter** to the **Power Cable** and to an available **Power Source**.

Operation

Charge a Mobile Device

> ***Note - if your Mobile Device is housed within an external Case:*** *Check with the manufacturer of your **Case** to determine if the **Mobile Device with Wireless Charging Capabilities** can be Qi charged with the **Case** installed.*

- Place a **Mobile Device with Wireless Charging Capabilities** onto the center of the **Qi Charger** found on the right-side of the **Stand Top with Integrated Qi Charger**. *(Figure 3)*

Figure 3

Adjusting the Height of the Monitor Riser

1. Remove the **Monitor**, **Mobile Device with Wireless Charging Capabilities**, and **Notebook/Paper Documents** from the **Monitor Riser Assembly**.

2. Disconnect the **Power Adapter** from the **Power Source** and the **Power Cable**.

3. Place the **Monitor Riser Assembly**, top side down, onto a **Clean, Flat, and Stable Surface**.

4. Remove the **Legs** from the **Stand Top**. Wiggle the **Legs** back and forth while pulling them up and out of the **Stand Top**.

   > ***Warning:*** *Always exercise caution while removing the **Legs**. The **Legs** should always be slowly yet firmly shifted back and forth while removing them to prevent any damage to the **Legs** or **Stand Top**.*

5. Rotate the **Height Adjustment Arms** found on the sides of the **Legs** out and up to increase the height or out and down to decrease the height. The **Height Adjustment Arms** pivot from a single point in the **Legs**. Ensure all four **Height Adjustment Arms** have been fully rotated before proceeding to the next step.

6. Follow steps 4-6 from Installation - Assembling the Monitor Riser to reinstall the **Legs**.

7. Flip the **Monitor Riser Assembly** upright and position it on a **Clean, Flat, and Stable Surface** for use.

8. Connect the **Power Adapter** to the **Power Cable** and to an available **Power Source**.
