White	AC4174-1974

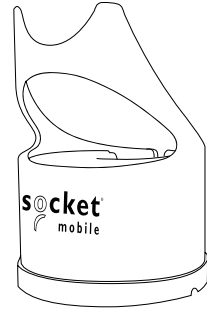

Charging Dock Only

Includes:

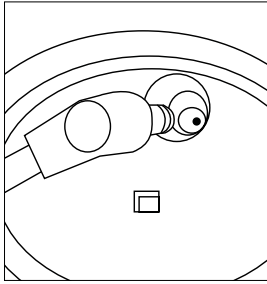

- (1) Charging Dock
- (1) USB Charging Cable 1.5mm

Flexible Configuration Options:

1. Rubber grip on bottom of Charging Dock prevents sliding and can be placed on any flat surface.
2. Easily screws down to secure the dock in place using 4/20 screw.

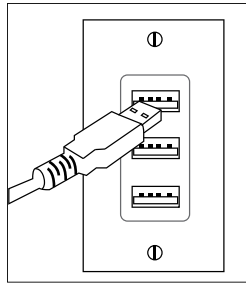

Charge Scanner

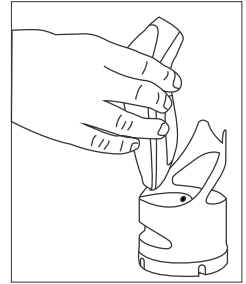

Step 1:

Plug in the charging cable beneath the base.

Step 2:

*Connect USB into the wall socket or wall charger.

Step 3:

Place scanner into the Charging Dock.

Note: Lanyard can remain attached to scanner on Charging Dock.

*Required minimum power 5V/1AMP not to exceed 5.5V or 2AMPS. Computers and laptops will not provide enough power.

Mounting the Charging Dock

To securely mount the Charging Dock, drill a $\frac{1}{4}$ 20 screw into a flat surface, then secure the threaded hole at the bottom of the dock and twist in place to the chosen position.

Charging Dock with Security Base

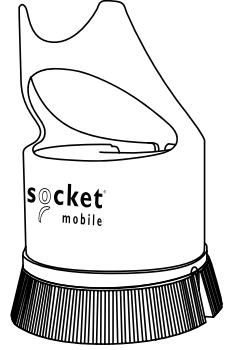

Security base allows for secure placement on most flat surfaces or counter tops using the supplied screws or strong adhesive tape.

Includes:

- (1) Charging Dock
- (1) Security Base
- (1) USB Charging Cable 1.5mm

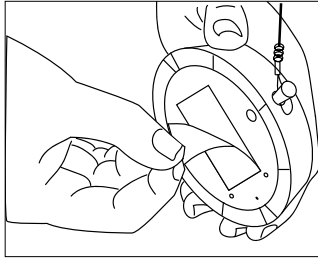

Optional:

- Optional Cable - Attaches the barcode scanner to the Charging Dock to deter the scanner from potentially walking away. Cable extends 36" long for flexible scanning.
- Magnet - Ensures proper alignment for charging.
- Counter Top Options -
 1. Secure base with provided screws.
 2. Secure base in place with provided adhesive tape.

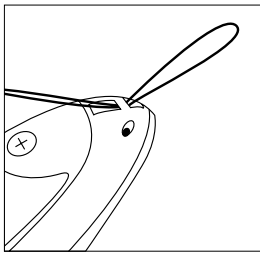

Mounting Security Base with Strong Adhesive

Determine placement of security base. Remove the adhesive from the bottom of the base. Press the base down to secure its position.

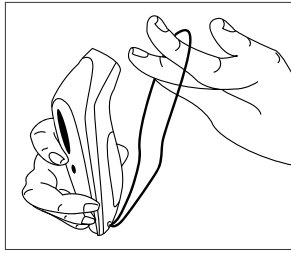

Attach the Scanner to Charging Dock Security Cable

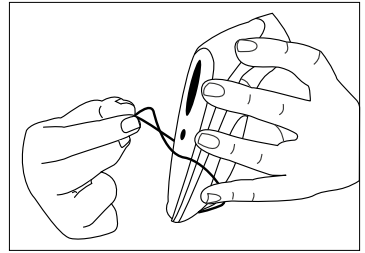

Step 1:

Pull security cable through the wrist strap eyelet.

Step 2:

Pull security cables loop over the scanner.
