For Use with 2-Post and 4-Post Open Frame Racks
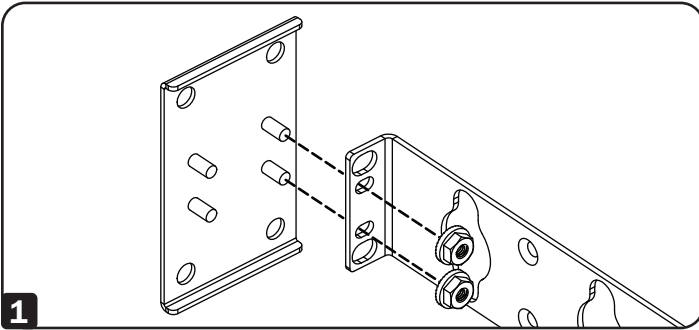

**1** Attach a mounting bracket to an adapter plate using two 8-32 flange nuts.

2 Mount one bracket and adapter plate assembly into pre-threaded holes near the top of the rack frame using two M6 screws.
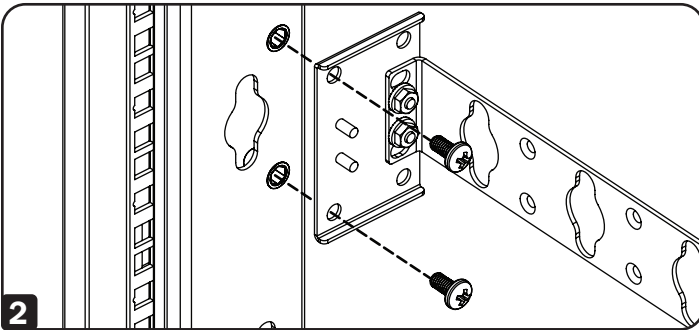

3 Repeat with the second bracket and adapter plate assembly at a lower point of the rack frame in accordance with the length of the PDUs to be mounted in the rack.

4 Mount vertical PDUs (up to 3) or cable management accessories using the keyhole slots in the top and bottom brackets.

For Use with Standard or Heavy-Duty Rack Enclosures

1 Attach one mounting bracket directly into holes in the rack frame using two M6 screws and two cage nuts.

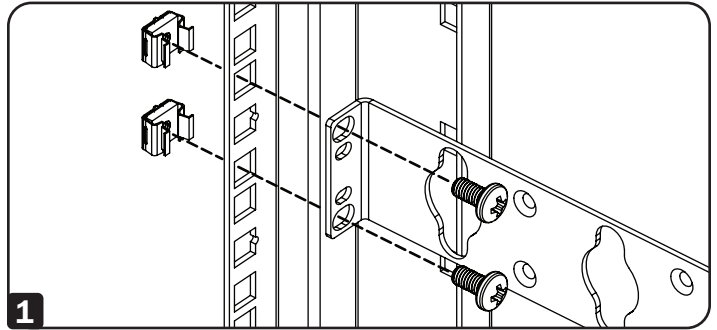

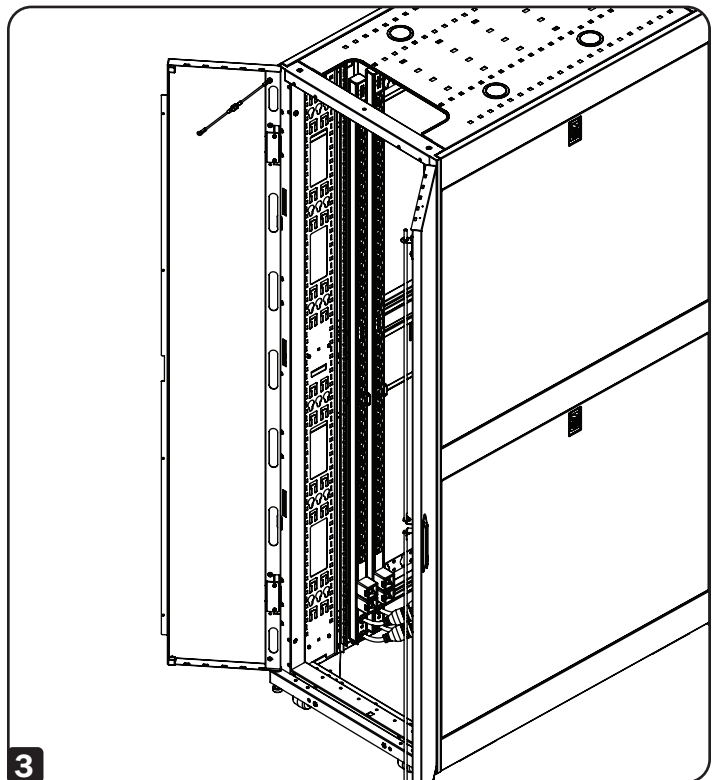

2 Repeat with the second bracket and adapter plate assembly at a lower point of the rack frame in accordance with the length of the PDUs to be mounted in the rack.

3 Mount vertical PDUs (up to 3) or cable management accessories using the keyhole slots in the top and bottom brackets.
