1/4-20UNC
Tapped Hole

- * When the indicator is white, the device is working normally.
- * The brightness of the supplement light is divided into five levels.
Press ☼ to brighten the light. Press ☼ to dim the light.

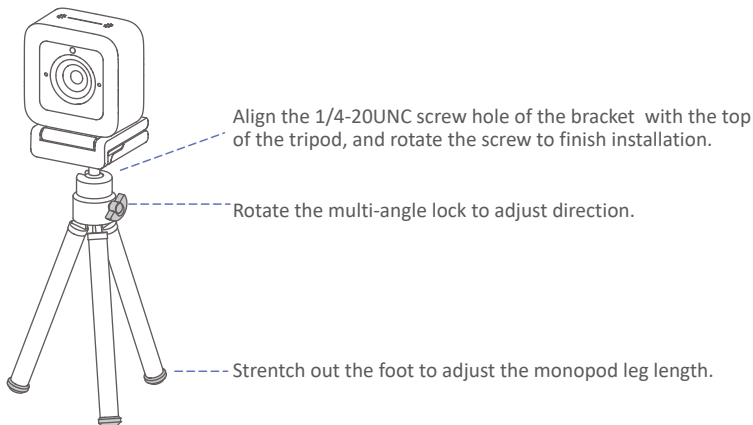

Installation Guide

- Installation with a Clamp

- Installation with a Tripod

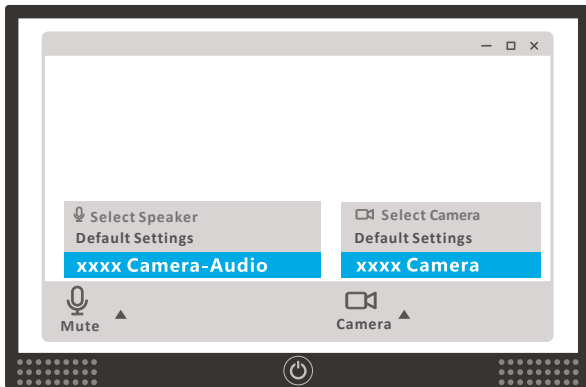

• Connection

- *Connect the device to intelligent terminals, such as computers and conference flat panels.
- *It is recommended to plug into USB3.0 interface of the terminal.
- *It is recommended to connect the the device to intelligent terminals with Type C interface or Type-C-to-A adapter.
- *It is recommended to use the supplied cable for audio quality.

Setup Guide

Power on the device and run the conference/video software. Set the microphone as xxxx Camera-Audio, camera as xxxx Camera to finish the setup.

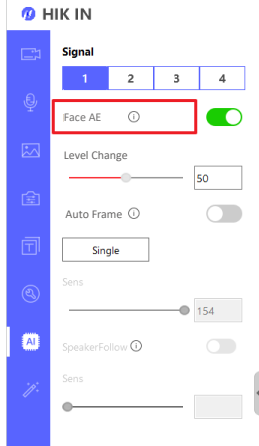

Using Guide

- Face AE

By enabling Face AE, the camera adjusts the image brightness according to the face brightness, making everyone look better in the video.

- Level Change

You can adjust image brightness manually through Level Change.

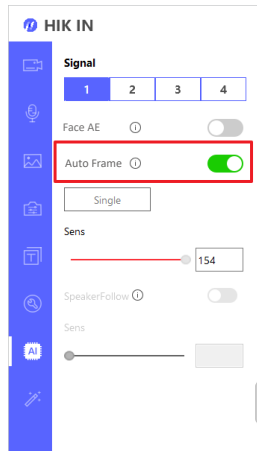

* The above picture is a screenshot of HIK IN interface.

- Auto Frame

The camera adjusts to the best view angle automatically according to the number and location of attendees.

Auto Frame is disabled by default. To enable this function, download HIK IN first and enable Auto Frame.

* The above picture is a screenshot of HIK IN interface.

- Landscape Mode & Portrait Mode

Three sides of the camera can be magnetically attached to the bracket, allowing free switching between landscape and portrait mode.

- Angle Adjustment

- Privacy Protection

Cover the lens with the privacy cover if it is necessary to protect privacy.

FAQ

Visit <http://enpinfodata.hikvision.com/analysisQR/showQR/304d56e7> for frequently asked questions.

Safety Instruction

Warnings

Laws and Regulations

The device should be used in compliance with local laws, electrical safety regulations, and fire prevention regulations.

Electrical Safety

The socket-outlet shall be installed near the equipment and shall be easily accessible.

Battery

CAUTION: Risk of explosion if the battery is replaced by an incorrect type.

Improper replacement of the battery with an incorrect type may defeat a safeguard (for example, in the case of some lithium battery types).

Do not dispose of the battery into fire or a hot oven, or mechanically crush or cut the battery, which may result in an explosion.

Do not leave the battery in an extremely high temperature surrounding environment, which may result in an explosion or the leakage of flammable liquid or gas.

Do not subject the battery to extremely low air pressure, which may result in an explosion or the leakage of flammable liquid or gas.

Dispose of used batteries according to the instructions.

Cautions

Fire Prevention

No naked flame sources, such as lighted candles, should be placed on the equipment.

Transportation

Keep the device in original or similar packaging while transporting it.

DO NOT drop the product or subject it to physical shock.

Power Supply

EUT will be charged by specified source which the output circuit comply with LPS/PS 2.

Refer to the device label for the standard power supply. Please make sure your power supply matches with your device.

Use a power adapter provided by qualified manufacturers. It is recommended to provide an independent power adapter for each device as adapter overload may cause over-heating or a fire hazard.

Maintenance

If the product does not work properly, please contact your dealer or the nearest service center. We shall not assume any responsibility for problems caused by unauthorized repair or maintenance.

Cleaning

Please use a soft and dry cloth to clean the interior and exterior surfaces. Do not use alkaline detergents.

Using Environment

To avoid heat accumulation, good ventilation is required for a proper operating environment.

DO NOT expose the device to extremely hot, cold, dusty, corrosive, saline-alkali, or damp environments. For temperature and humidity requirements, see device specification.

DO NOT expose the device to high electromagnetic radiation.

Emergency

If smoke, odor, or noise arises from the device, immediately turn off the power, unplug the power cable, and contact the service center.

Regulatory Information

FCC Information

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC compliance: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

EU Conformity Statement

CE This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under Directive 2014/53/EU (RED), the Low Voltage Directive 2014/35/EU, the EMC Directive 2014/30/EU, the RoHS Directive 2011/65/EU.

 2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info.

 2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information, see: www.recyclethis.info.

Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (B)/NMB-3(B) standards requirements.

About this Manual

The Manual includes instructions for using and managing the Product. Pictures, charts, images and all other information hereinafter are for description and explanation only. The information contained in the Manual is subject to change, without notice, due to firmware updates or other reasons. Please find the latest version of this Manual at the Hikvision website (<https://www.hikvision.com/>).

Please use this Manual with the guidance and assistance of professionals trained in supporting the Product.
