FAQ

Why can't I access the web-based configuration utility?

Verify that http://WXYZ.devicesetup.net/ has been correctly entered into the browser (WXYZ represents the last 4 characters of the MAC address). The Wi-Fi Name(SSID), Wi-Fi Password, and device password are printed on the Quick Installation Guide and on the device label.

Why can't I access the Internet?

Power cycle your router and check your Internet access again. If you still can not connect to the Internet, contact your Internet service provider.

What do I do if I forgot my device password or my Wi-Fi Password?

If you forgot your password, you must reset your router. This process will change all your settings back to the factory defaults.

How do I restore the router to its factory default settings?

Locate the reset button. With the router powered on, use a paper clip to hold the button down until the LED turns solid red. Release the button and the router will go through its reboot process.
