Foam Adapter & Sheet Bundle

INSTALLATION:

1. Connecting Keyboard Tray to VESA Enclosure

1A. Align the keyboard tray (A) with the enclosure (A). While holding the hex nuts (D) in the front, screw the bolts (C) through the back until securely tightened.

2. Setting up Device & Enclosure

**Tablet shown for illustration and NOT INCLUDED.

2A. Lock or unlock your tablet enclosure with security key (E) as shown

2B. Find the appropriate size foam padding (F) for the tablet you wish to use. Make sure device is compatible for the enclosure. Lay in device and connect any cables/cords as needed.

**Tablet shown for illustration and NOT INCLUDED.

2C. If needed, lay-in correct included masking insert. Close and lock enclosure afterwards and you're set

3. Cable Management

3A. Connect your cable wire to your tablet device and route it trough the back cavities of the enclosure (A) and the keyboard tray (B).

**Cable shown for illustration and NOT INCLUDED.
