# Safety information

## Conventions

**Note:** A *note* identifies information that could help you.

**Warning:** A *warning* identifies something that could damage the product hardware or software.

**WARNING (in full capitals):** A *WARNING* indicates a risk of death or serious injury if not avoided.

**CAUTION:** A *caution* indicates a potentially hazardous situation that could injure you.

Different types of caution statements include:

-  **CAUTION—POTENTIAL INJURY:** Indicates a risk of injury.
-  **CAUTION—SHOCK HAZARD:** Indicates a risk of electrical shock.
-  **CAUTION—HOT SURFACE:** Indicates a risk of burn if touched.
-  **CAUTION—TIPPING HAZARD:** Indicates a crush hazard.
-  **CAUTION—PINCH HAZARD:** Indicates a risk of being caught between moving parts.

## Product statements

-  **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
-  **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.
-  **CAUTION—POTENTIAL INJURY:** Do not use this product with extension cords, multioutlet power strips, multioutlet extenders, or UPS devices. The power capacity of these types of accessories can be easily overloaded by a laser printer and may result in a risk of fire, property damage, or poor printer performance.
-  **CAUTION—POTENTIAL INJURY:** Only a Lexmark Inline Surge Protector that is properly connected between the printer and the power cord provided with the printer may be used with this product. The use of non-Lexmark surge protection devices may result in a risk of fire, property damage, or poor printer performance.
-  **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not place or use this product near water or wet locations.
-  **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

 **CAUTION—POTENTIAL INJURY:** Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

 **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

 **CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

 **CAUTION—TIPPING HAZARD:** Installing one or more options on your printer or MFP may require a caster base, furniture, or other feature to prevent instability causing possible injury. For more information on supported configurations, see [www.lexmark.com/multifunctionprinters](http://www.lexmark.com/multifunctionprinters).

 **CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

-  **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
-  **CAUTION—PINCH HAZARD:** To avoid the risk of a pinch injury, use caution in areas marked with this label. Pinch injuries may occur around moving parts, such as gears, doors, trays, and covers.
-  **CAUTION—POTENTIAL INJURY:** This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified in the *User's Guide* may result in hazardous radiation exposure.
-  **CAUTION—POTENTIAL INJURY:** The lithium battery in this product is not intended to be replaced. There is a danger of explosion if a lithium battery is incorrectly replaced. Do not recharge, disassemble, or incinerate a lithium battery. Discard used lithium batteries according to the manufacturer's instructions and local regulations.

 <b>WARNING</b>	
<ul style="list-style-type: none"> <li>• <b>INGESTION HAZARD:</b> This product contains a button cell or coin battery.</li> <li>• <b>DEATH</b> or serious injury can occur if ingested.</li> <li>• A swallowed button cell or coin battery can cause <b>Internal Chemical Burns</b> in as little as <b>2 hours</b>.</li> <li>• <b>KEEP</b> new and used batteries <b>OUT OF REACH of CHILDREN</b>.</li> <li>• <b>Seek immediate medical attention</b> if a battery is suspected to be swallowed or inserted inside any part of the body.</li> </ul>	

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do not dispose of batteries in household trash or incinerate. Even used batteries may cause severe injury or death. Call a local poison control center for treatment information.

Battery type: CR6821

Nominal battery voltage: 3V

Do not force discharge, recharge, disassemble, heat above 60°C (140°F), or incinerate. Doing so may result in injury due to venting, leakage, or explosion resulting in chemical burns.

This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.

Refer service or repairs, other than those described in the user documentation, to a service representative.

## Printer configurations

**CAUTION—TIPPING HAZARD:** Installing one or more options on your printer or MFP may require a caster base, furniture, or other feature to prevent instability causing possible injury. For more information on supported configurations, see [www.lexmark.com/multifunctionprinters](http://www.lexmark.com/multifunctionprinters).

**CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

You can configure your printer by adding up to three optional 250- or 550-sheet trays. For more information, see [“Installing optional trays” on page 36](#).

Blinking amber	The printer is in Deep Sleep or Hibernate mode.

## Selecting paper

### Paper guidelines

Use the appropriate paper to prevent jams and help ensure trouble-free printing.

- Always use new, undamaged paper.
- Before loading paper, know the recommended printable side of the paper. This information is usually indicated on the paper package.
- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, types, or weights in the same tray; mixing results in jams.
- Do not use coated papers unless they are specifically designed for electrophotographic printing.

For more information, see the *Paper and Specialty Media Guide*.

### Paper characteristics

The following paper characteristics affect print quality and reliability. Consider these factors before printing on them.

## Weight

Trays can feed paper of varying weights. Paper lighter than 60 g/m<sup>2</sup> (16 lb) may not be stiff enough to feed properly, and may cause jams. For more information, see the “Supported paper weights” topic.

## Curl

Curl is the tendency for paper to curl at its edges. Excessive curl can cause paper feeding problems. Curl can occur after the paper passes through the printer, where it is exposed to high temperatures. Storing paper unwrapped in hot, humid, cold, or dry conditions can contribute to paper curling before printing and can cause feeding problems.

## Smoothness

Paper smoothness directly affects print quality. If paper is too rough, toner cannot fuse to it properly. If paper is too smooth, it can cause paper feeding or print quality issues. We recommend the use of paper with 50 Sheffield points.

## Moisture content

The amount of moisture in paper affects both print quality and the printer ability to feed the paper correctly. Leave paper in its original wrapper until you use it. Exposure of paper to moisture changes can degrade its performance.

Before printing, store paper in its original wrapper for 24 to 48 hours. The environment in which the paper is stored must be the same as the printer. Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.

## Grain direction

Grain refers to the alignment of the paper fibers in a sheet of paper. Grain is either *grain long* which runs the length of the paper, or *grain short* which runs the width of the paper. For recommended grain direction, see the “Supported paper weights” topic.

## Fiber content

Most high-quality xerographic paper is made from 100 percent chemically treated pulped wood. This content provides the paper with a high degree of stability, resulting in fewer paper feeding problems and better print quality. Paper containing fibers such as cotton can negatively affect paper handling.

## Unacceptable paper

The following paper types are not recommended for use with the printer:

- Chemically treated papers that are used to make copies without carbon paper. They are also known as carbonless papers, carbonless copy paper (CCP), or no carbon required (NCR) paper.
- Preprinted papers with chemicals that may contaminate the printer.
- Preprinted papers that can be affected by the temperature in the printer fuser.
- Preprinted papers that require a registration (the precise print location on the page) greater than ±2.3 mm (±0.09 in.). For example, optical character recognition (OCR) forms.

Sometimes, registration can be adjusted with a software app to print successfully on these forms.

- Coated papers (erasable bond), synthetic papers, or thermal papers.

- Rough-edged, rough or heavily textured surface papers, or curled papers.
- Recycled papers that fail EN12281:2002 (European).
- Paper weighing less than 60 g/m<sup>2</sup> (16 lb).
- Multiple-part forms or documents.

## Storing paper

Use these paper storage guidelines to help avoid jams and uneven print quality:

- Store paper in its original wrapper in the same environment as the printer for 24 to 48 hours before printing.
- Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.
- For best results, store paper where the temperature is 21°C (70°F) and the relative humidity is 40 percent.
- Most label manufacturers recommend printing in a temperature range of 18–24°C (65–75°F) with relative humidity between 40 and 60 percent.
- Store paper in cartons, on a pallet or shelf, rather than on the floor.
- Store individual packages on a flat surface.
- Do not store anything on top of individual paper packages.
- Take paper out of the carton or wrapper only when you are ready to load it in the printer. The carton and wrapper help keep the paper clean, dry, and flat.

## Selecting preprinted forms and letterhead

- Use grain long paper.
- Use only forms and letterhead printed using an offset lithographic or engraved printing process.
- Avoid paper with rough or heavily textured surfaces.
- Use inks that are not affected by the resin in toner. Inks that are oxidation-set or oil-based generally meet these requirements; latex inks might not.
- Print samples on preprinted forms and letterheads considered for use before buying large quantities. This action determines whether the ink in the preprinted form or letterhead affects print quality.
- When in doubt, contact your paper supplier.
- When printing on letterhead, load the paper in the proper orientation for your printer. For more information, see the *Paper and Specialty Media Guide*.

# Set up, install, and configure

## Selecting a location for the printer

- Leave enough room to open trays, covers, and doors and to install hardware options.
- Set up the printer near an electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**⚡ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not place or use this product near water or wet locations.

- Make sure that airflow in the room meets the latest revision of the ASHRAE 62 standard or the CEN Technical Committee 156 standard.
- Provide a flat, sturdy, and stable surface.
- Keep the printer:
  - Clean, dry, and free of dust.
  - Away from stray staples and paper clips.
  - Away from the direct airflow of air conditioners, heaters, or ventilators.
  - Free from direct sunlight and humidity extremes.
- Observe the recommended temperatures and avoid fluctuations:

Ambient temperature	10 to 32.2°C (50 to 90°F)
Storage temperature	15.6 to 32.2°C (60 to 90°F)

- Allow the following recommended amount of space around the printer for proper ventilation:

<b>1</b>	Top	305 mm (12 in.)
<b>2</b>	Rear	100 mm (3.94 in.)
<b>3</b>	Right side	76.2 mm (3 in.)

4	Front	305 mm (12 in.) <b>Note:</b> The minimum space needed in front of the printer is 76 mm (3 in.).
5	Left side	110 mm (4.33 in.)

## Attaching cables

**CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

**CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

**Warning—Potential Damage:** To avoid loss of data or printer malfunction, do not touch the USB cable, any wireless network adapter, or the printer in the areas shown while actively printing.

	Printer port	Function
1	Power cord socket	Connect the printer to a properly grounded electrical outlet.
2	USB printer port	Connect the printer to a computer.
3	USB port	Attach a keyboard or any compatible option.
4	Ethernet port	Connect the printer to a network.

## Setting up and using the home screen applications

### Using the home screen

**Note:** Your home screen may vary depending on your home screen customization settings, administrative setup, and active embedded solutions.

	Icon	Function
1	Stop or Cancel button	Stop the current printer task.
2	Status/Supplies	<ul style="list-style-type: none"> <li>Show a warning or error message whenever the printer requires intervention to continue processing.</li> <li>View more information on the printer warning or message and how to clear it.</li> </ul> <p><b>Note:</b> You can also access this setting by touching the top section of the home screen.</p>
3	Job Queue	Show all the current print jobs. <b>Note:</b> You can also access this setting by touching the top section of the home screen.
4	Change Language	Change the language on the display.
5	Settings	Access the printer menus.
6	USB Drive	Print photos and documents from a flash drive.
7	Held Jobs	Show the print jobs that are held in the printer memory.
8	Address Book	Manage a contact list that other applications on the printer can access.
9	On-screen keypad	Enter numbers or symbols in an input field.

## Customizing the home screen

1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings** > **Device** > **Home Screen Customization**.

3 Do one or more of the following:

- To add an icon to the home screen, click **+**, select the app name, and then click **Add**.
- To remove a home screen icon, select the app name, and then click **Remove**.

- To customize an app name, select the app name, click **Edit**, and then assign a name.
- To restore the name of an app, select the app name, click **Edit**, and then select **Restore app label**.
- To add a space between apps, click **+**, select **BLANK SPACE**, and then click **Add**.
- To arrange the apps, drag the app names in the order that you want.
- To restore the default home screen, click **Restore home screen**.

**4** Apply the changes.

## Supported applications

Application	Printer models
Shortcut Center	MS632, MS639, M3350
Display Customization	MS632, MS639, M3350
Customer Support	M3350
Device Quotas	M3350

## Using Display Customization

Before using the application, make sure to enable and configure the screen saver, slideshow, and wallpaper settings from the Embedded Web Server.

### Managing screen saver and slide show images

- 1** From the Embedded Web Server, click **Apps > Display Customization > Configure**.
- 2** In the Screen Saver and Slideshow Images section, add, edit, or delete an image.

**Notes:**

- You can add up to 10 images.
- When enabled, the status icons appear on the screen saver only when there are errors, warnings, or cloud-based notifications.

**3** Apply the changes.

### Changing the wallpaper image

- 1** From the home screen, touch **Change Wallpaper**.
- 2** Select an image to use.
- 3** Apply the changes.

### Running a slide show from a flash drive

- 1** Insert a flash drive into the front USB port.
- 2** From the home screen, touch **Slideshow**.

**Note:** You can remove the flash drive after the slide show starts, but the images are not stored in the printer. If the slide show stops, then insert the flash drive again to view the images.

## Using Customer Support

### Notes:

- This application is supported only in some printer models. For more information, see [“Supported applications” on page 22](#).
- For information on how to configure the application settings, see the *Customer Support Administrator’s Guide*.

**1** From the home screen, touch **Customer Support**.

**2** Print or e-mail the information.

## Setting up Device Quotas

### Notes:

- This application is supported only in some printer models. For more information, see [“Supported applications” on page 22](#).
- For information on how to configure the application settings, see the *Device Quotas Administrator’s Guide*.

**1** Open a web browser, and then type the printer IP address in the address field.

### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Apps > Device Quotas > Configure**.

**3** In the User Accounts section, add or edit a user, and then set the user quota.

**4** Apply the changes.

## Managing bookmarks

### Creating bookmarks

Use bookmarks to print frequently accessed documents that are stored in servers or on the web.

**1** Open a web browser, and then type the printer IP address in the address field.

### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Bookmarks > Add Bookmark**, and then type a bookmark name.

- 3 Select an Address protocol type, and then do one of the following:
  - For HTTP and HTTPS, type the URL that you want to bookmark.
  - For HTTPS, make sure to use the host name instead of the IP address. For example, type **myWebsite.com/sample.pdf** instead of typing **123.123.123.123/sample.pdf**. Make sure that the host name also matches the Common Name (CN) value in the server certificate. For more information on obtaining the CN value in the server certificate, see the help information for your web browser.
  - For FTP, type the FTP address. For example, **myServer/myDirectory**. Enter the FTP port number. Port 21 is the default port for sending commands.
  - For SMB, type the network folder address. For example, **myServer/myShare/myFile.pdf**. Type the network domain name.
  - If necessary, select the Authentication type for FTP and SMB.

To limit access to the bookmark, enter a PIN.

**Note:** The application supports the following file types: PDF, JPEG, and TIFF. Other file types such as DOCX and XLSX are supported in some printer models.

- 4 Click **Save**.

## Creating folders

- 1 Open a web browser, and then type the printer IP address in the address field.

### Notes:

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Bookmarks > Add Folder**, and then type a folder name.

**Note:** To limit access to the folder, enter a PIN.

- 3 Click **Save**.

**Note:** You can create folders or bookmarks inside a folder. To create a bookmark, see [“Creating bookmarks” on page 23](#).

## Managing contacts

- 1 From the home screen, touch **Address Book**.
- 2 Do one or more of the following:
  - To add a contact, touch  on top of the screen, and then touch **Create Contact**. If necessary, specify a login method to allow application access.
  - To delete a contact, touch  on top of the screen, touch **Delete Contacts**, and then select the contact.
  - To edit contact information, touch the contact name.
  - To create a group, touch  on top of the screen, and then touch **Create Group**. If necessary, specify a login method to allow application access.
  - To delete a group, touch  on top of the screen, touch **Delete Groups**, and then select the group.
  - To edit a contact group, touch **GROUPS >** select a group name **>**  **>** select the action you want to make.
- 3 Apply the changes.

# Setting up and using the accessibility features

## Activating Voice Guidance

### From the home screen

- 1 In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

**Note:** For printer models without built-in speakers, use headphones to hear the message.

- 2 Using two fingers, touch **OK**.

**Note:** If the gesture does not work, then apply more pressure.

### From the keyboard

- 1 Press and hold the **5** key until you hear a voice message.

**Note:** For printer models without built-in speakers, use headphones to hear the message.

- 2 Press **Tab** to navigate the focus cursor to the OK button, and then press **Enter**.

### Notes:

- When Voice Guidance is activated, always use two fingers to select any item on the display.
- Voice Guidance has limited language support.

## Deactivating Voice Guidance

- 1 In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

**Note:** For printer models without built-in speakers, use headphones to hear the message.

- 2 Using two fingers, do either of the following:

- Touch **Voice Guidance**, then touch **OK**.
- Touch **Cancel**.

**Note:** If the gesture does not work, then apply more pressure.

You can also deactivate Voice Guidance by doing either of the following:

- Using two fingers, double tap the home screen.
- Press the power button to put the printer in Sleep or Hibernate mode.

## Navigating the screen using gestures

### Notes:

- Most of the gestures are applicable only when Voice Guidance is activated.
- Enable Magnification to use the zoom and pan gestures.
- Use a physical keyboard to type characters and adjust certain settings.

Gesture	Function
Swipe left then up using one finger	Launch Accessibility mode. Use the same gesture to exit Accessibility mode. <b>Note:</b> This gesture is also applicable when the printer is in normal mode.
Double-tap using one finger	Select an option or item on the screen.
Double-tap the home icon using two fingers	Deactivate the Accessibility mode.
Triple-tap using one finger	Zoom in or zoom out text and images.
Swipe right or swipe down using one finger	Move to the next item on the screen.
Swipe left or swipe up using one finger	Move to the previous item on the screen.
Swipe up then down using one finger	Move to the first item on the screen.
Pan	Access parts of the zoomed image that are beyond the limit of the screen. <b>Note:</b> Use two fingers to drag a zoomed image.
Swipe up then right using one finger	Increase the volume. <b>Note:</b> This gesture is also applicable when the printer is in normal mode.
Swipe down then right using one finger	Decrease the volume. <b>Note:</b> This gesture is also applicable when the printer is in normal mode.
Swipe up then left using one finger	Exit an application and return to the home screen.
Swipe down then left using one finger	Go back to the previous setting.

## Using the on-screen keyboard

When the on-screen keyboard appears, do one or more of the following:

- Touch a key to announce and type the character in the field.
- Drag a finger across different characters to announce and type the character in the field.
- Touch a text box using two fingers to announce the characters in the field.
- Touch **Backspace** to delete characters.

## Enabling Magnification mode

- 1 In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

**Note:** For printer models without built-in speakers, use headphones to hear the message.

- 2 Using two fingers, do the following:

- a Touch **Magnification mode**.
- b Touch **OK**.

**Note:** If the gesture does not work, then apply more pressure.

For more information on navigating a magnified screen, see [“Navigating the screen using gestures” on page 25](#).

## Adjusting the Voice Guidance speech rate

- 1 From the home screen, touch **Settings > Device > Accessibility > Speech Rate**.
- 2 Select the speech rate.

## Adjusting the default headphone volume

- 1 From the home screen, touch **Settings > Device > Accessibility**.
- 2 Adjust the headphone volume.

**Note:** The volume resets to the default value after the user exits Accessibility mode or when the printer wakes from Sleep or Hibernate mode.

## Adjusting the default internal speaker volume

- 1 From the home screen, touch .
- 2 Adjust the volume.

### Notes:

- If Quiet Mode is enabled, then audible alerts are turned off. This setting also slows the printer performance.
- The volume resets to the default value after the user exits Accessibility mode or when the printer wakes from Sleep or Hibernate mode.

## Enabling spoken passwords or personal identification numbers

- 1 From the home screen, touch **Settings > Device > Accessibility > Speak Passwords/PINs**.
- 2 Enable the setting.

## Loading paper and specialty media

### Setting the paper size and type

- 1 From the home screen, touch **Settings > Paper > Tray Configuration > Paper Size/Type** > select a paper source.
- 2 Set the paper size and type.

## Configuring Universal paper settings

- 1 From the home screen, touch **Settings** > **Paper** > **Media Configuration** > **Universal Setup**.
- 2 Configure the settings.

## Loading trays

 **CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

- 1 Remove the tray.

**Note:** To avoid paper jams, do not remove the tray while the printer is busy.

- 2 Adjust the guides to match the size of the paper that you are loading.

**3** Flex, fan, and align the paper edges before loading.

**4** Load the paper stack with the printable side facedown, and then make sure that the guides fit snugly against the paper.

**Notes:**

- Load letterhead facedown with the header toward the front of the tray for one-sided printing.
- Load letterhead faceup with the header toward the back of the tray for two-sided printing.
- Do not slide paper into the tray.
- To avoid paper jams, make sure that the stack height is below the maximum paper fill indicator.

**5** Insert the tray.

If necessary, set the paper size and paper type from the control panel to match the paper loaded.

## Loading the multipurpose feeder

- 1 Open the multipurpose feeder.

- 2 Flex, fan, and align the paper edges before loading.

- 3 Load paper with the printable side faceup.

**Notes:**

- Load letterhead faceup with the header toward the rear of the printer for one-sided printing.
- Load letterhead facedown with the header toward the front of the printer for two-sided printing.
- Load envelopes with the flap facedown on the left side.

**Warning—Potential Damage:** Do not use envelopes with stamps, clasps, snaps, windows, coated linings, or self-stick adhesives.

- 4 Adjust the guide to match the size of the paper that you are loading.

- 5 From the control panel, set the paper size and paper type to match the paper loaded.

## Linking trays

- 1 From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > select a paper source.
- 2 Set the same paper size and paper type for the trays that you are linking.
- 3 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Configuration Menu** > **Tray Configuration** > **Tray Linking**.
- 4 Touch **Automatic**.

To unlink trays, make sure that no trays have the same paper size and paper type settings.

**Warning—Potential Damage:** The temperature of the fuser varies according to the specified paper type. To avoid printing issues, match the paper type setting in the printer with the paper loaded in the tray.

## Installing and updating software, drivers, and firmware

### Installing the printer software

#### Notes:

- The print driver is included in the software installer package.
  - For Macintosh computers with macOS version 10.7 or later, you do not need to install the driver to print on an AirPrint-certified printer. If you want custom printing features, then download the print driver.
- 1 Obtain a copy of the software installer package.
    - From the software CD that came with your printer.
    - Go to [www.lexmark.com/downloads](http://www.lexmark.com/downloads).
  - 2 Run the installer, and then follow the instructions on the computer screen.

## Adding printers to a computer

Before you begin, do one of the following:

- Connect the printer and the computer to the same network. For more information on connecting the printer to a network, see [“Connecting the printer to a Wi-Fi network” on page 48](#).
- Connect the computer to the printer. For more information, see [“Connecting a computer to the printer” on page 50](#).
- Connect the printer to the computer using a USB cable. For more information, see [“Attaching cables” on page 20](#).

**Note:** The USB cable is sold separately.

### For Windows users

- 1 From a computer, install the print driver.

**Note:** For more information, see [“Installing the printer software” on page 31](#).

- 2 Open the printers folder, and then click **Add a printer or scanner**.

- 3 Depending on your printer connection, do one of the following:

- Select a printer from the list, and then click **Add device**.
- Click **Show Wi-Fi Direct printers**, select a printer, and then click **Add device**.
- Click **The printer that I want isn't listed**, and then from the Add Printer window, do the following:
  - a Select **Add a printer using a TCP/IP address or hostname**, and then click **Next**.
  - b In the “Hostname or IP address” field, type the printer IP address, and then click **Next**.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- c Select a print driver, and then click **Next**.
- d Select **Use the print driver that is currently installed (recommended)**, and then click **Next**.
- e Type a printer name, and then click **Next**.
- f Select a printer sharing option, and then click **Next**.
- g Click **Finish**.

### For Macintosh users

- 1 From a computer, open **Printers & Scanners**.
- 2 Click **+**, and then select a printer.
- 3 From the Use menu, select a print driver.

**Notes:**

- To use the Macintosh print driver, select either **AirPrint** or **Secure AirPrint**.
- If you want custom printing features, then select the Lexmark print driver. To install the driver, see [“Installing the printer software” on page 31](#).

- 4 Add the printer.

## Exporting or importing a configuration file

You can export the configuration settings of your printer into a text file, and then import the file to apply the settings to other printers.

- 1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 From the Embedded Web Server, click **Export Configuration** or **Import Configuration**.
- 3 Follow the instructions on the screen.
- 4 If the printer supports applications, then do the following:
  - a Click **Apps** > select the application > **Configure**.
  - b Click **Export** or **Import**.

## Adding available options in the print driver

### For Windows users

- 1 Open the printers folder.
- 2 Select the printer you want to update, and then do either of the following:
  - For Windows 7 or later, select **Printer properties**.
  - For earlier versions, select **Properties**.
- 3 Navigate to the Configuration tab, and then select **Update Now - Ask Printer**.
- 4 Apply the changes.

### For Macintosh users

- 1 From System Preferences in the Apple menu, navigate to your printer, and then select **Options & Supplies**.
- 2 Navigate to the list of hardware options, and then add any installed options.
- 3 Apply the changes.

## Updating firmware

### Updating the firmware using the control panel

#### Using the notification center

This method is applicable only in some printer models.

- 1 From the control panel, navigate to the notification center, and then select **Firmware update available**.

- 2 Select **Install now**.

The printer reboots automatically after the update.

#### Using the Settings menu

- 1 From the control panel, navigate to **Settings > Device > Update Firmware**.
- 2 Depending on your printer model, select **Check for updates** or **Check for updates now**.
- 3 If a new update is available, then select **Install now**.

The printer reboots automatically after the update.

## Updating the firmware using the Embedded Web Server

Before you begin, make sure that:

- You have downloaded the latest printer firmware from <https://support.lexmark.com> and saved it to your flash drive or computer.

**Note:** To deploy the printer firmware, extract the .fls firmware file from the ZIP package.

- You are not using a special code on your printer to avoid losing this functionality.

**Warning—Potential Damage:** Make sure that all printers receiving firmware updates are turned on during the entire firmware update process. Turning off a printer during a firmware update can severely damage it.

If the printer is connected to the network when checking for updates, then downloading the firmware is not required.

- 1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Device**.

- 3 Scroll down, and then click **Update Firmware**.

- 4 Depending on your printer model, click **Check for updates** or **Check for updates now**.

If a new update is available, then click **I agree, start update**.

The printer reboots automatically after the update.

## Installing hardware options

### Available internal options

- Intelligent storage drive
  - Fonts
    - Simplified Chinese
    - Traditional Chinese
    - Japanese
    - Korean
    - Arabic
  - Mass storage
- Hard disk
- Licensed features
  - IPDS
  - Bar Code

- Internal solutions port
  - RS-232C Serial Interface Card
  - Parallel 1284-B Interface Card
  - MarkNet™ N8230 Fiber Ethernet

**Note:** An intelligent storage drive or a hard disk is required to activate Forms Merge and some IPDS features.

## Installing optional trays

**⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.
- 3 Unpack the optional tray, and then remove all packing material.
- 4 Align the printer with the optional tray, and then lower the printer into place.

**⚠ CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

- 5 Connect the power cord to the printer, and then to the electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 6 Turn on the printer.

Add the tray in the print driver to make it available for print jobs. For more information, see [“Adding available options in the print driver” on page 33](#).

## Installing the intelligent storage drive

**⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.
- 3 Using a flat-head screwdriver, open the controller board access cover.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.

- 4 Unpack the intelligent storage drive (ISD).

**Warning—Potential Damage:** Avoid touching the connection points along the edge of the storage drive.

5 Locate the ISD connector.

6 Insert the ISD to its connector.

- 7 Close the controller board access cover, and then install the screw.

- 8 Connect the power cord to the printer, and then to the electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 9 Turn on the printer.

## Installing a printer hard disk

**Note:** These instructions apply only to printers that support printer hard disk.

**⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.

- 3 Using a flat-head screwdriver, open the controller board access cover.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.

- 4 Unpack the hard disk.
- 5 Attach the hard disk to the controller board, and then install the screws.

**Warning—Potential Damage:** Do not touch or press the center of the hard disk.

**6** Attach the hard disk interface cable to the controller board.

- 7 Close the controller board access cover, and then install the screw.

- 8 Connect the power cord to the printer, and then to the electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 9 Turn on the printer.

## Installing an internal solutions port

**⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.

### 3 Unpack the internal solutions port (ISP) kit.

<b>1</b>	ISP <ul style="list-style-type: none"> <li>• RS-232C Serial Interface Card</li> <li>• Parallel 1284-B Interface Card</li> <li>• MarkNet N8230 Fiber Ethernet</li> </ul>
<b>2</b>	ISP extended cable
<b>3</b>	Mounting bracket
<b>4</b>	Thumbscrews
<b>5</b>	Housing

### 4 Remove the preinstalled interface cable from the ISP.

**5** Install the ISP into its housing.

**6** Secure the ISP in place, and then attach the ISP extended cable.

7 Using a flat-head screwdriver, remove the controller board access cover.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board electronic components or connectors.

8 Attach the ISP kit to the printer.

If a hard disk is installed, then disconnect the hard disk interface cable before installing the ISP.

**Note:** Hard disk is supported only in some printer models.

- a** Disconnect the hard disk interface cable from the controller board.

- b** Connect the hard disk interface cable to the ISP.

- c** Connect the ISP extended cable to the ISP connector.

- 9 Close the ISP kit, and then install the screw.

- 10 Connect the power cord to the printer, and then to the electrical outlet.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 11 Turn on the printer.

# Networking

## Connecting the printer to a Wi-Fi network

Make sure that Active Adapter is set to Auto. From the home screen, touch **Settings > Network/Ports > Network Overview > Active Adapter**.

### Using the control panel

- 1 From the home screen, touch **Settings > Network/Ports > Wireless > Setup On Printer Panel > Choose Network**.
- 2 Select a Wi-Fi network, and then type the network password.  
**Note:** For Wi-Fi-network-ready printer models, a prompt for Wi-Fi network setup appears during initial setup.

### Using Lexmark Mobile Assistant

- 1 Depending on your mobile device, download the Lexmark Mobile Assistant application from either the Google Play™ store or App Store online store.
- 2 From the printer home screen, touch **Settings > Network/Ports > Wireless > Setup Using Mobile App > Printer ID**.
- 3 From your mobile device, launch the application, and then accept the Terms of Use.  
**Note:** If necessary, grant permissions.
- 4 Tap **Connect to Printer > Go to Wi-Fi Settings**.
- 5 Connect your mobile device to the printer wireless network.
- 6 Return to the application, and then tap **Setup Wi-Fi Connection**

**7** Select a Wi-Fi network, and then type the network password.

**8** Tap **Done**.

## Connecting the printer to a wireless network using Wi-Fi Protected Setup (WPS)

Before you begin, make sure that:

- The access point (wireless router) is WPS-certified or WPS-compatible. For more information, see the documentation that came with your access point.
- A wireless network adapter is installed in your printer. For more information, see the instructions that came with the adapter.
- Active Adapter is set to Auto. From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter**.

### Using the Push Button method

- 1** From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi-Fi Protected Setup** > **Start Push Button Method**.
- 2** Follow the instructions on the display.

### Using the personal identification number (PIN) method

- 1** From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi-Fi Protected Setup** > **Start PIN Method**.
- 2** Copy the eight-digit WPS PIN.
- 3** Open a web browser, and then type the IP address of your access point in the address field.

#### Notes:

- To know the IP address, see the documentation that came with your access point.
  - If you are using a proxy server, then temporarily disable it to load the web page correctly.
- 4** Access the WPS settings. For more information, see the documentation that came with your access point.
  - 5** Enter the eight-digit PIN, and then save the changes.

## Configuring Wi-Fi Direct

Wi-Fi Direct® is a Wi-Fi-based peer-to-peer technology that allows wireless devices to connect directly to a Wi-Fi Direct-enabled printer without using an access point (wireless router).

Make sure that Active Adapter is set to Auto. From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter**.

- 1** From the home screen, touch **Settings** > **Network/Ports** > **Wi-Fi Direct**.
- 2** Configure the settings.
  - **Enable Wi-Fi Direct**—Enables the printer to broadcast its own Wi-Fi Direct network.
  - **Wi-Fi Direct Name**—Assigns a name for the Wi-Fi Direct network.

- **Wi-Fi Direct Password**—Assigns the password for negotiating the wireless security when using the peer-to-peer connection.
- **Show Password on Setup Page**—Shows the password on the Network Setup Page.
- **Auto-Accept Push Button Requests**—Lets the printer accept connection requests automatically.

**Note:** Accepting push-button requests automatically is not secured.

#### Notes:

- By default, the Wi-Fi Direct network password is not visible on the printer display. To show the password, enable the password peek icon. From the home screen, touch **Settings > Security > Miscellaneous > Enable Password/PIN Reveal**.
- You can see the password of the Wi-Fi Direct network without showing it on the printer display. From the home screen, touch **Settings > Reports > Network > Network Setup Page**.

## Connecting a mobile device to the printer

Before connecting your mobile device, make sure that Wi-Fi Direct has been configured. For more information, see [“Configuring Wi-Fi Direct” on page 49](#).

### Connecting using Wi-Fi Direct

**Note:** These instructions apply only to Android mobile devices.

- 1 From the mobile device, go to the settings menu.
- 2 Enable **Wi-Fi**, and then tap **Wi-Fi Direct**.
- 3 Select the printer Wi-Fi Direct name.
- 4 Confirm the connection on the printer control panel.

### Connecting using Wi-Fi

- 1 From the mobile device, go to the settings menu.
- 2 Tap **Wi-Fi**, and then select the printer Wi-Fi Direct name.

**Note:** The string DIRECT-xy (where x and y are two random characters) is added before the Wi-Fi Direct name.

- 3 Enter the Wi-Fi Direct password.

## Connecting a computer to the printer

Before connecting your computer, make sure that Wi-Fi Direct has been configured. For more information, see [“Configuring Wi-Fi Direct” on page 49](#).

### For Windows users

- 1 Open the printers folder, and then click **Add a printer or scanner**.
- 2 Click **Show Wi-Fi Direct printers**, and then select the printer Wi-Fi Direct name.

- 3 From the printer display, take note of the eight-digit PIN of the printer.
- 4 Enter the PIN on the computer.

**Note:** If the print driver is not already installed, then Windows downloads the appropriate driver.

### For Macintosh users

- 1 Click the wireless icon, and then select the printer Wi-Fi Direct name.

**Note:** The string DIRECT-xy (where x and y are two random characters) is added before the Wi-Fi Direct name.

- 2 Type the Wi-Fi Direct password.

**Note:** Switch your computer back to its previous network after disconnecting from the Wi-Fi Direct network.

## Deactivating the Wi-Fi network

- 1 From the home screen, touch **Settings > Network/Ports > Network Overview > Active Adapter > Standard Network**.
- 2 Follow the instructions on the display.

## Checking the printer connectivity

- 1 From the home screen, touch **Settings > Reports > Network > Network Setup Page**.
- 2 Check the first section of the network setup page, and confirm that the status is connected.  
If the status is not connected, then the LAN drop may be inactive, or the network cable may be malfunctioning. Contact your administrator for assistance.

# Secure the printer

## Locating the security slot

The printer is equipped with a security lock feature. Attach a security lock compatible with most laptop computers in the location shown to secure the printer in place.

## Erasing printer memory

To erase volatile memory or buffered data in your printer, turn off the printer.

To erase nonvolatile memory, device and network settings, security settings, and embedded solutions, do the following:

- 1 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Out of Service Erase**.
- 2 Select the **Sanitize all information on nonvolatile memory** check box, and then touch **ERASE** or **OK**.
- 3 Touch **Start initial setup wizard** or **Leave printer offline**, and then touch **Next** or **OK**.
- 4 Start the operation.

**Note:** This process also destroys the encryption key that is used to protect user data. Destroying the encryption key makes the data irrecoverable.

## Erasing printer storage drive

- 1 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Out of Service Erase**.
- 2 Depending on the storage drive that is installed on your printer, do either of the following:
  - For hard disk, touch the **Sanitize all information on hard disk** check box, touch **ERASE**, and then select a method to erase data.  
**Note:** The process to sanitize the hard disk can take from several minutes to more than an hour, making the printer unavailable for other tasks.
  - For intelligent storage drive (ISD), touch **Erase Intelligent Storage Drive**, and then touch **ERASE** to erase all user data.
- 3 Start the operation.

## Restoring factory default settings

- 1 From the home screen, touch **Settings** > **Device** > **Restore Factory Defaults**.
- 2 Touch **Restore Settings** > select the settings that you want to restore > **RESTORE**.
- 3 Start the operation.

## Statement of Volatility

Type of memory	Description
Volatile memory	The printer uses standard random access memory (RAM) to buffer temporarily user data during simple print jobs.
Nonvolatile memory	The printer may use two forms of non-volatile memory: EEPROM and NAND (flash memory). Both types store the operating system, printer settings, and network information. They also store bookmark settings and embedded solutions.
Hard disk storage drive	Some printers may have a hard disk drive installed. The printer hard disk is designed for printer-specific functionality. The hard disk lets the printer retain buffered user data from complex print jobs, form data, and font data.
Intelligent storage drive (ISD)	Some printers may have an ISD installed. ISD uses non-volatile flash memory to store user data from complex print jobs, form data, and font data.

Erase the content of any installed printer memory in the following circumstances:

- The printer is decommissioned.
- The printer hard disk or ISD is replaced.
- The printer is moved to a different department or location.
- The printer is serviced by someone from outside your organization.
- The printer is removed from your premises for service.
- The printer is sold to another organization.

**Note:** To dispose a storage drive, follow the policies and procedures of your organization.

# Print

## Printing from a computer

**Note:** For labels, card stock, and envelopes, set the paper size and type in the printer before printing the document.

- 1 From the document that you are trying to print, open the Print dialog.
- 2 If necessary, adjust the settings.
- 3 Print the document.

## Printing from a mobile device

### Printing from a mobile device using Lexmark Mobile Print

Lexmark™ Mobile Print allows you to send documents and images directly to a supported Lexmark printer.

- 1 Open the document, and then send or share the document to Lexmark Mobile Print.

**Note:** Some third-party applications may not support the send or share feature. For more information, see the documentation that came with the application.

- 2 Select a printer.
- 3 Print the document.

### Printing from a mobile device using Lexmark Print

Lexmark Print is a mobile printing solution for mobile devices running on Android™ version 6.0 or later. It lets you send documents and images to network-connected printers and print management servers.

**Notes:**

- Make sure that you download the Lexmark Print application from the Google Play store and enable it in the mobile device.
- Make sure that the printer and the mobile device are connected to the same network.

- 1 From your mobile device, select a document from the file manager.
- 2 Send or share the document to Lexmark Print.

**Note:** Some third-party applications may not support the send or share feature. For more information, see the documentation that came with the application.

- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Print the document.

## Printing from a mobile device using Mopria Print Service

Mopria® Print Service is a mobile printing solution for mobile devices running on Android version 5.0 or later. It allows you to print directly to any Mopria-certified printer.

**Note:** Make sure that you download the Mopria Print Service application from the Google Play store and enable it in the mobile device.

- 1 From your Android mobile device, launch a compatible application or select a document from your file manager.
- 2 Tap  > **Print**.
- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Tap .

## Printing from a mobile device using AirPrint

The AirPrint software feature is a mobile printing solution that allows you to print directly from Apple devices to an AirPrint-certified printer.

### Notes:

- Make sure that the Apple device and the printer are connected to the same network. If the network has multiple wireless hubs, then make sure that both devices are connected to the same subnet.
- This application is supported only in some Apple devices.

- 1 From your mobile device, select a document from your file manager or launch a compatible application.
- 2 Tap  > **Print**.
- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Print the document.

## Printing from a mobile device using Wi-Fi Direct®

Wi-Fi Direct® is a printing service that lets you print to any Wi-Fi Direct-ready printer.

**Note:** Make sure that the mobile device is connected to the printer wireless network. For more information, see [“Connecting a mobile device to the printer” on page 50](#).

- 1 From your mobile device, launch a compatible application or select a document from your file manager.
- 2 Depending on your mobile device, do one of the following:
  - Tap  > **Print**.
  - Tap  > **Print**.
  - Tap  > **Print**.
- 3 Select a printer, and then adjust the settings, if necessary.
- 4 Print the document.

## Printing from a flash drive

- 1 Insert the flash drive.

### Notes:

- If you insert the flash drive when an error message appears, then the printer ignores the flash drive.
- If you insert the flash drive while the printer is processing other print jobs, then **Busy** appears on the display.

- 2 From the display, touch the document that you want to print.

If necessary, configure the print settings.

- 3 Print the document.

To print another document, touch **USB Drive**.

**Warning—Potential Damage:** To avoid loss of data or printer malfunction, do not touch the flash drive or the printer in the area shown while actively printing, reading, or writing from the memory device.

## Supported flash drives and file types

### Flash drives

- Flash drives that support USB 2.0 or lower.
- Flash drives that support a New Technology File System (NTFS) or the File Allocation Table (FAT32) file system.

### File types

Documents	Images
<ul style="list-style-type: none"> <li>• PDF (version 1.7 or earlier)</li> <li>• Microsoft file formats (DOC, DOCX, XLS, XLSX, PPT, PPTX)</li> </ul>	<ul style="list-style-type: none"> <li>• JPEG or JPG</li> <li>• TIFF or TIF</li> <li>• GIF</li> <li>• BMP</li> <li>• PNG</li> <li>• PCX</li> <li>• DCX</li> </ul>

## Configuring confidential jobs

- 1 From the home screen, touch **Settings** > **Security** > **Confidential Print Setup**.
- 2 Configure the settings.

Setting	Description
Max Invalid PIN	Set the limit for entering an invalid PIN. <b>Note:</b> When the limit is reached, the print jobs for that user name are deleted.
Confidential Job Expiration	Set an individual expiration time for each held job before it is automatically deleted from the printer memory, hard disk, or intelligent storage drive. <b>Note:</b> A held job is either Confidential, Repeat, Reserve, or Verify.
Repeat Job Expiration	Set the expiration time for print jobs that you want to repeat.
Verify Job Expiration	Set the expiration time for printing a copy of a job for you to check its quality before printing the remaining copies.
Reserve Job Expiration	Set the expiration time for jobs that you want to store in the printer for printing later.
Require All Jobs to be Held	Set the printer to hold all print jobs.
Keep duplicate documents	Set the printer to keep all documents with the same file name.

## Printing confidential and other held jobs

### For Windows users

- 1 With a document open, click **File > Print**.
- 2 Select a printer, and then click **Properties, Preferences, Options, or Setup**.
- 3 Click **Print and Hold**.
- 4 Select **Use Print and Hold**, and then assign a user name.
- 5 Select the print job type (Confidential, Repeat, Reserve, or Verify).  
If you select **Confidential**, then secure the print job with a personal identification number (PIN).
- 6 Click **OK** or **Print**.
- 7 From the printer home screen, release the print job.
  - For confidential print jobs, touch **Held jobs** > select your user name > **Confidential** > enter the PIN > select the print job > configure the settings > **Print**.
  - For other print jobs, touch **Held jobs** > select your user name > select the print job > configure the settings > **Print**.

### For Macintosh users

#### Using AirPrint

- 1 With a document open, choose **File > Print**.
- 2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **PIN Printing**.
- 3 Enable **Print with PIN**, and then enter a four-digit PIN.

- 4 Click **Print**.
- 5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > enter the PIN > select the print job > **Print**.

#### Using the print driver

- 1 With a document open, choose **File** > **Print**.
- 2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **Print and Hold**.
- 3 Choose **Confidential Print**, and then enter a four-digit PIN.
- 4 Click **Print**.
- 5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > select the print job > enter the PIN > **Print**.

## Printing a font sample list

- 1 From the home screen, touch **Settings** > **Reports** > **Print** > **Print Fonts**.
- 2 Touch **PCL Fonts** or **PS Fonts**.

## Placing separator sheets between copies

- 1 From the home screen, touch **Settings** > **Print** > **Layout** > **Separator Sheets** > **Between Copies**.
- 2 Print the document.

## Canceling a print job

- 1 From the home screen, touch .
- 2 Select the job to cancel.

**Note:** You can also cancel a job by touching **Job Queue**.

## Adjusting toner darkness

- 1 From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.
- 2 Adjust the setting.

Menu item	Description
<b>Separator Sheet Source</b> Tray [x] (1*) Multipurpose Feeder	Specify the paper source for the separator sheet.
<b>Pages per Side</b> Off* 2 pages per side 3 pages per side 4 pages per side 6 pages per side 9 pages per side 12 pages per side 16 pages per side	Print multiple page images on one side of a sheet of paper.
<b>Pages per Side Ordering</b> Horizontal* Reverse Horizontal Vertical Reverse Vertical	Specify the positioning of multiple page images when using the Pages per Side menu.
<b>Pages per Side Orientation</b> Auto* Landscape Portrait	Specify the orientation of multiple page images when using the Pages per Side menu.
<b>Pages per Side Border</b> None* Solid	Print a border around each page image when using the Pages per Side menu.
<b>Copies</b> 1–9999 (1*)	Specify the number of copies for each print job.
<b>Print Area</b> Normal* Whole Page	Set the printable area on a sheet of paper.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

## Setup

Menu item	Description
<b>Printer Language</b> PCL Emulation* PS Emulation	Set the printer language.  <b>Note:</b> Setting a printer language default does not prevent a software program from sending print jobs that use another printer language.
<b>Job Waiting</b> Off* On	Preserve print jobs requiring supplies so that jobs not requiring the missing supplies can print.  <b>Note:</b> This menu item appears only when a hard disk or an intelligent storage drive (ISD) is installed.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

Menu item	Description
<b>Job Hold Timeout</b> 0–255 (30*)	Set the time in seconds that the printer waits for user intervention before it holds jobs that require unavailable resources. <b>Note:</b> This menu item appears only when a hard disk or an ISD is installed.
<b>Download Target</b> RAM* Disk	Specify where to save all permanent resources that have been downloaded to the printer. <b>Note:</b> This menu item appears only when a hard disk or an ISD is installed.
<b>Resource Save</b> Off* On	Determine what the printer does with downloaded resources when it receives a job that requires more than the available memory. <b>Notes:</b> <ul style="list-style-type: none"> <li>When set to Off, the printer retains downloaded resources only until memory is needed. Resources associated with the inactive printer language are deleted.</li> <li>When set to On, the printer preserves all the permanent downloaded resources across all language switches. When necessary, the printer shows memory full messages instead of deleting permanent resources.</li> </ul>
<b>Print All Order</b> Alphabetical* Newest First Oldest First	Specify the order when you choose to print all held and confidential jobs.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

## Quality

Menu item	Description

**Note:** This menu appears only in network printers or printers attached to print servers.

Menu item	Description
<b>Set Hostname</b>	Set the current TCP/IP host name.
<b>Domain Name</b>	Set the domain name.
<b>Allow DHCP/BOOTP to update NTP server</b> On* Off	Allow the DHCP and BOOTP clients to update the NTP settings of the printer.
<b>Zero Configuration Name</b>	Specify a service name for the zero configuration network.
<b>Enable Auto IP</b> Off On*	Assign an IP address automatically.
<b>DNS Server Address</b>	Specify the current Domain Name System (DNS) server address.
<b>Backup DNS Address</b>	Specify the backup DNS server addresses.
<b>Backup DNS Address 2</b>	
<b>Backup DNS Address 3</b>	
<b>Domain Search Order</b>	Specify a list of domain names to locate the printer and its resources that reside in different domains on the network.
<b>Enable DDNS</b> Off* On	Update the Dynamic DNS settings.
<b>DDNS TTL</b>	Specify the current DDNS settings.
<b>Default TTL</b>	
<b>DDNS Refresh Time</b>	
<b>Enable mDNS</b> Off On*	Update the multicast DNS settings.
<b>WINS Server Address</b>	Specify a server address for Windows Internet Name Service (WINS).
<b>Enable BOOTP</b> Off* On	Allow the BOOTP to assign a printer IP address.
<b>Restricted Server List</b>	Specify the IP addresses that are allowed to communicate with the printer over TCP/IP.  <b>Notes:</b> <ul style="list-style-type: none"> <li>• Use a comma to separate each IP address.</li> <li>• You can add up to 50 IP addresses.</li> <li>• This menu item is available only in some printer models.</li> </ul>

Menu item	Description
<b>Proxy</b> HTTP Proxy IP Address HTTP Default IP Port FTP Proxy IP Address FTP Default IP Port Authentication User Name Password Local Domains	Configure the HTTP and FTP server settings.
<b>Other Settings</b> Enable HTTP Server (On*)	Access the Embedded Web Server to monitor and manage the printer.
<b>Other Settings</b> Enable HTTPS (On*)	Enable Hypertext Transfer Protocol Secure (HTTPS) to encrypt data transferring to and from the print server.
<b>Other Settings</b> Force HTTPS Connections (Off*)	Force the printer to use HTTPS connections.
<b>Other Settings</b> Enable FTP/TFTP (On*)	Send files using FTP/TFTP.
<b>Other Settings</b> HTTPS Device Certificate (default*)	View the HTTP device certificate used on the printer.
<b>Other Settings</b> Timeout for HTTP/FTP Requests (30*)	Specify the amount of time before the server connection stops.
<b>Other Settings</b> Retries for HTTP/FTP Requests (3*)	Set the number of retries to connect to the HTTP/FTP server.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

## ThinPrint

Menu item	Description
<b>Enable ThinPrint</b> Off* On	Print using ThinPrint.
<b>Port Number</b> 4000–4999 (4000*)	Set the port number for the ThinPrint server.
<b>Bandwidth (bits/sec)</b> 100–1000000 (0*)	Set the speed to transmit data in a ThinPrint environment.
<b>Packet Size (kbytes)</b> 0–64000 (0*)	Set the packet size for data transmission.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

## USB

Menu item	Description
<b>PCL SmartSwitch</b> Off On*	Set the printer to switch to PCL emulation when a print job received through a USB port requires it, regardless of the default printer language.  <b>Note:</b> When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
<b>PS SmartSwitch</b> Off On*	Set the printer to switch to PostScript emulation when a print job received through a USB port requires it, regardless of the default printer language.  <b>Note:</b> When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu.
<b>Job Buffering</b> Off* On	Temporarily store print jobs in the hard disk or intelligent storage drive (ISD) before printing.  <b>Note:</b> This menu item appears only when a hard disk or an ISD is installed.
<b>Mac Binary PS</b> Auto* On Off	Set the printer to process Macintosh binary PostScript print jobs.  <b>Notes:</b> <ul style="list-style-type: none"> <li>• Auto processes print jobs from computers using either Windows or Macintosh operating systems.</li> <li>• Off filters PostScript print jobs using the standard protocol.</li> </ul>
<b>Enable USB Port</b> Off On*	Enable the front USB drive port.
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.	

## Restrict external network access

Menu item	Description
<b>Restrict external network access</b> Off* On	Restrict access to network sites.
<b>External network address</b>	Specify the network addresses with restricted access.
<b>E-mail address for notification</b>	Specify an e-mail address to send a notification of logged events.
<b>Ping frequency</b> 1–300 (10*)	Specify the network query interval in seconds.
<b>Subject</b>	Specify the subject and message of the notification e-mail.
<b>Message</b>	
<b>Note:</b> An asterisk (*) next to a value indicates the factory default setting.

Menu item	Description
<b>Server Address</b>	Specify the address of the cloud server.
<b>Client ID</b>	Specify the organization-specific client ID.
<b>Client Secret</b>	Specify the organization-specific client secret.

## Cloud Services Enrollment

Menu item	Description
<b>View More Information</b>	View additional information on the usage of Lexmark Cloud Services.
<b>Enable communication with Lexmark Cloud Services</b> Off* On	Enable the printer to communicate with Lexmark Cloud Services.
<b>View Current Status</b>	View the connection status between the printer and Lexmark Cloud Services.

**Note:** An asterisk (\*) next to a value indicates the factory default setting.

## Reports

### Menu Settings Page

Menu item	Description
<b>Menu Settings Page</b>	Print a report that contains the printer menus.

### Device

Menu item	Description
<b>Device Information</b>	Print a report that contains information about the printer.
<b>Device Statistics</b>	Print a report about printer usage and supply status.
<b>Profiles List</b>	Print a list of profiles that are stored in the printer.
<b>Asset Report</b>	Print a diagnostic tool for print problems. <b>Note:</b> To avoid clipping the content, print the report on letter- or A4-size paper.

## Print

Menu item	Description
<b>Print Fonts</b> PCL Fonts PS Fonts	Print samples and information about the fonts that are available in each printer language.
<b>Print Demo</b> Demo Page	Print a page that shows the printer capabilities and supported solutions.
<b>Print Directory</b>	Print the resources that are stored in the flash drive, hard disk, or intelligent storage drive (ISD).  <b>Note:</b> This menu item appears only when a flash drive, a hard disk, or an ISD is installed.

## Network

Menu item	Description
<b>Network Setup Page</b>	Print a page that shows the configured network and wireless settings on the printer.  <b>Note:</b> This menu item appears only in network printers or printers connected to print servers.
<b>Wi-Fi Direct Connected Clients</b>	Print a page that shows the list of devices that are connected to the printer using Wi-Fi Direct.  <b>Note:</b> This menu item appears only when Enable Wi-Fi Direct is set to On.

## Troubleshooting

Menu item	Description
<b>Print Quality Test Pages</b>	Print sample pages to identify and correct print quality defects.

## Forms Merge

**Note:** This menu appears only when a hard disk or an intelligent storage drive is installed.

Menu item	Description
<b>Merge Mode</b> Print* Data Capture Disabled	Specify the mode of operation for Forms Merge.
<b>Data Capture Target</b> Flash*	Set the target destination where the captured data is forwarded.  <b>Note:</b> This menu item appears only when Merge Mode is set to Data Capture.

## Printing the Menu Settings Page

From the home screen, touch **Settings > Reports > Menu Settings Page**.

# Maintain the printer

## Checking the status of parts and supplies

- 1 From the home screen, touch **Status/Supplies**.
- 2 Select the parts or supplies that you want to check.

**Note:** You can also access this setting by touching the top section of the home screen.

## Configuring supply notifications

- 1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Settings > Device > Notifications**.
- 3 From the Supplies menu, click **Custom Supply Notifications**.
- 4 Select a notification for each supply item.
- 5 Apply the changes.

## Setting up e-mail alerts

Configure the printer to send e-mail alerts when supplies are low, when paper must be changed or added, or when there is a paper jam.

- 1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

- 2 Click **Settings > Device > Notifications > E-mail Alert Setup**, and then configure the settings.  
**Note:** For more information on SMTP settings, contact your e-mail provider.
- 3 Apply the changes.
- 4 Click **Setup E-mail Lists and Alerts**, and then configure the settings.
- 5 Apply the changes.

## Viewing reports

- 1 From the home screen, touch **Settings** > **Reports**.
- 2 Select the report that you want to view.

## Ordering parts and supplies

To order supplies in the U.S., contact Lexmark at 1-800-539-6275 for information about Lexmark authorized supplies dealers in your area. In other countries or regions, go to [www.lexmark.com](http://www.lexmark.com) or contact the place where you purchased the printer.

**Note:** All life estimates for printer supplies assume printing on letter- or A4-size plain paper.

**Warning—Potential Damage:** Failure to maintain optimum printer performance, or to replace parts and supplies, may cause damage to your printer.

## Using genuine Lexmark parts and supplies

Your Lexmark printer is designed to function best with genuine Lexmark parts and supplies. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components. It can also affect warranty coverage. Damage caused by the use of third-party parts and supplies is not covered by the warranty. All life indicators are designed to function with Lexmark parts and supplies, and may deliver unpredictable results if third-party parts and supplies are used. Imaging component usage beyond the intended life may damage your Lexmark printer or its associated components.

**Warning—Potential Damage:** Supplies and parts without Return Program agreement terms may be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies or parts. Resetting counters on the supply or part without proper remanufacturing can cause damage to your printer. After resetting the supply or part counter, your printer may display an error indicating the presence of the reset item.

## Ordering a toner cartridge

### Notes:

- The estimated cartridge yield is based on the ISO/IEC 19752 standard.
- Extremely low print coverage for extended periods of time may negatively affect actual yield.

## Replacing parts and supplies

### Replacing the toner cartridge

- 1 Open door A.

- 2 Remove the used toner cartridge.

- 3 Unpack the new toner cartridge.

**4** Shake the toner cartridge to redistribute the toner.

**5** Insert the new toner cartridge.

**6** Close door A.

## Replacing the imaging unit

1 Open door A.

2 Remove the toner cartridge.

3 Remove the used imaging unit.

4 Unpack the new imaging unit.

- 5 Shake the imaging unit to redistribute the toner.

**Warning—Potential Damage:** Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

6 Insert the new imaging unit.

7 Insert the toner cartridge.

8 Close door A.

## Replacing MarkNet N8450 Wireless Print Server

**⚠ CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**Note:** This task requires a flat-head screwdriver.

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.
- 3 Open the controller board access cover.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.

**4** Remove the wireless print server cover.

- 5** Remove the used wireless print server.

- 6** Unpack the new wireless print server.

- 7** Insert the new wireless print server until it *clicks* into place.

**8** Attach the wireless print server cover, and then install the screw.

**9** Close the controller board access cover, and then install the screw.

**10** Connect the power cord to the printer, and then to the electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**11** Turn on the printer.

## Replacing the pick tires

- 1 Turn off the printer.
- 2 Unplug the power cord from the electrical outlet, and then from the printer.
- 3 Remove the tray.

**4** Remove the used pick tires.

**5** Unpack the new pick tires.

- 6 Insert the new pick tires.

- 7 Insert the tray.
- 8 Connect the power cord to the printer, and then to the electrical outlet.

**⚠ CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

- 9 Turn on the printer.

## Resetting the supply usage counters

- 1 From the home screen, touch **Settings > Device > Maintenance > Configuration Menu > Supply Usage And Counters**.
- 2 Select the counter that you want to reset.

**Warning—Potential Damage:** Supplies and parts without Return Program agreement terms may be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies or parts. Resetting counters on the supply or part without proper remanufacturing can cause damage to your printer. After resetting the supply or part counter, your printer may display an error indicating the presence of the reset item.

# Cleaning printer parts

## Cleaning the printer

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

### Notes:

- Perform this task after every few months.
- Damage to the printer caused by improper handling is not covered by the printer warranty.

- 1 Turn off the printer, and then unplug the power cord from the electrical outlet.
- 2 Remove paper from the standard bin and multipurpose feeder.
- 3 Remove any dust, lint, and pieces of paper around the printer using a soft brush or vacuum.
- 4 Wipe the outside of the printer with a damp, soft, lint-free cloth.

### Notes:

- Do not use household cleaners or detergents, as they may damage the finish of the printer.
- Make sure that all areas of the printer are dry after cleaning.

- 5 Connect the power cord to the electrical outlet, and then turn on the printer.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

## Cleaning the touch screen

 **CAUTION—SHOCK HAZARD:** To avoid the risk of electric shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

- 1 Turn off the printer, and then unplug the power cord from the electrical outlet.
- 2 Using a damp, soft, lint-free cloth, wipe the touch screen.

### Notes:

- Do not use household cleaners or detergents, as they may damage the touch screen.
- Make sure that the touch screen is dry after cleaning.

- 3 Connect the power cord to the electrical outlet, and then turn on the printer.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

## Saving energy and paper

### Configuring the power save mode settings

#### Sleep mode

- 1 From the home screen, touch **Settings > Device > Power Management > Timeouts > Sleep Mode**.
- 2 Specify the amount of time that the printer stays idle before it enters Sleep Mode.

#### Hibernate mode

- 1 From the home screen, touch **Settings > Device > Power Management > Timeouts > Hibernate Timeout**.
- 2 Select the amount of time that the printer stays idle before it enters Hibernate mode.

#### Notes:

- For Hibernate Timeout to work, set Hibernate Timeout on Connection to Hibernate.
- The Embedded Web Server is disabled when the printer is in Hibernate mode.

### Adjusting the brightness of the display

- 1 From the home screen, touch **Settings > Device > Preferences**.
- 2 In the Screen Brightness menu, adjust the setting.

### Conserving supplies

- Print on both sides of the paper.  
**Note:** Two-sided printing is the default setting in the print driver.
- Print multiple pages on a single sheet of paper.
- Use the preview feature to see how the document looks like before printing it.
- Print one copy of the document to check its content and format for accuracy.

## Moving the printer to another location

 **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

 **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

 **CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.

- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

**Note:** Damage to the printer caused by improper moving is not covered by the printer warranty.

## Clearing jams

### Avoiding jams

#### Load paper properly

- Make sure that the paper lies flat in the tray.

- Do not load or remove a tray while the printer is printing.
- Do not load too much paper. Make sure that the stack height is below the maximum paper fill indicator.

- Do not slide paper into the tray. Load paper as shown in the illustration.

- Make sure that the paper guides are positioned correctly and are not pressing tightly against the paper or envelopes.
- Push the tray firmly into the printer after loading paper.

### Use recommended paper

- Use only recommended paper or specialty media.
- Do not load paper that is wrinkled, creased, damp, bent, or curled.
- Flex, fan, and align the paper edges before loading.

- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, weights, or types in the same tray.
- Make sure that the paper size and type are set correctly on the computer or printer control panel.
- Store paper according to manufacturer recommendations.

## Identifying jam locations

### Notes:

- When Jam Assist is set to On, the printer flushes blank pages or pages with partial prints after a jammed page has been cleared. Check your printed output for blank pages.
- When Jam Recovery is set to On or Auto, the printer reprints jammed pages.

Jam locations	
<b>1</b>	Multipurpose feeder
<b>2</b>	Trays
<b>3</b>	Door A
<b>4</b>	Duplex unit
<b>5</b>	Door B

## Paper jam in door A

- 1 Open door A.

- 2 Remove the toner cartridge.

- 3 Remove the imaging unit.

**Warning—Potential Damage:** Do not expose the imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.

**4** Remove the jammed paper.

 **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**Note:** Make sure that all paper fragments are removed.

**5** Insert the imaging unit.

**Note:** Use the arrows inside the printer as guides.

**6** Insert the toner cartridge.

**Note:** Use the arrows inside the printer as guides.

**7** Close door A.

## Paper jam in door B

**1** Open door B.

 **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**2** Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

**3** Close door B.

## Paper jam in the duplex unit

- 1 Remove the tray.

- 2 Push the duplex unit latch to open the duplex unit.

- 3 Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

- 4 Insert the tray.

## Paper jam in trays

- 1 Remove the tray.

**Warning—Potential Damage:** To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.

- 2 Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

3 Insert the tray.

### Paper jam in the multipurpose feeder

1 Remove paper from the multipurpose feeder.

2 Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

3 Reload paper, and then adjust the paper guide.

### Defective flash detected

Try one or more of the following:

- Replace the defective intelligent storage drive.
- From the home screen, touch **Continue** to ignore the message and continue printing.

- Cancel the current print job.

## Not enough free space in flash memory for resources

Try one or more of the following:

- Touch **Continue** to clear the message and continue printing.
- Delete fonts, macros, and other data stored in the flash memory.
- Install a hard disk.

**Note:** Downloaded fonts and macros that are not previously stored in the flash memory are deleted.

## Issues with supplies

### Replace cartridge, printer region mismatch

To correct this problem, purchase a cartridge with the correct region that matches the printer region, or purchase a worldwide cartridge.

- The first number in the message after 42 indicates the region of the printer.
- The second number in the message after 42 indicates the region of the cartridge.

#### Printer and toner cartridge regions

Region	Numeric code
Worldwide or Undefined region	0
North America (United States, Canada), Australia, New Zealand	1
European Economic Area, Iceland, Liechtenstein, and Norway	2
Asia Pacific	3
Latin America	4
Rest of Europe, Middle East, Africa	5
Invalid region	9

**Note:** To find the region settings of the printer and toner cartridge, print the print quality test pages. From the home screen, touch **Settings > Troubleshooting > Print Quality Test Pages**.

### Refilled regular [color] cartridge

The printer has detected a Lexmark Regular cartridge that has been refilled with non-genuine toner by a party other than Lexmark.

Select **OK** to continue.

All printer component life indicators are designed to function with Lexmark supplies and parts and may deliver unpredictable results when using supplies or parts in your Lexmark printer that are remanufactured by parties other than Lexmark.

For more information, see the printer statement of limited warranty.

## Non-Lexmark supply

The printer has detected a non-Lexmark supply or part installed in the printer.

Your Lexmark printer is designed to function best with genuine Lexmark supplies and parts. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components.

All life indicators are designed to function with Lexmark supplies and parts and may deliver unpredictable results if third-party supplies or parts are used. Imaging component usage beyond the intended life may damage your Lexmark printer or associated components.

**Warning—Potential Damage:** Use of third-party supplies or parts can affect warranty coverage. Damage caused by the use of third-party supplies or parts may not be covered by the warranty.

To accept any and all of these risks and to proceed with the use of non-genuine supplies or parts in your printer, touch and hold the error message on the display using two fingers for 15 seconds. When a confirmation dialog box appears, touch **Continue**.

If you do not want to accept these risks, then remove the third-party supply or part from your printer and install a genuine Lexmark supply or part. For more information, see [“Using genuine Lexmark parts and supplies” on page 110](#).

If the printer does not print after clearing the error message, then reset the supply usage counter.

- 1 From the home screen, touch **Settings > Device > Maintenance > Configuration Menu > Supply Usage And Counters**.
- 2 Select the part or supply that you want to reset, and then touch **Start**.
- 3 Read the warning message, and then touch **Continue**.
- 4 Using two fingers, touch the display for 15 seconds to clear the message.

**Note:** If you are unable to reset the supply usage counters, then return the supply item to the place of purchase.

## Contacting customer support

Before contacting customer support, make sure to have the following information:

- Printer problem
- Error message
- Printer model type and serial number

Go to <http://support.lexmark.com> to receive e-mail or chat support, or browse through the library of manuals, support documentation, drivers, and other downloads.

Technical support via telephone is also available. In the U.S. or Canada, call 1-800-539-6275. For other countries or regions, go to [the international support contact directory](#).

# Recycle and dispose

## Recycling Lexmark products

To return Lexmark products for recycling:

- 1 Go to [www.lexmark.com/recycle](http://www.lexmark.com/recycle).
- 2 Select your country or region.
- 3 Select a recycling program.
- 4 Follow the instructions on the screen.

## Recycling Lexmark packaging

Lexmark continually strives to minimize packaging. Less packaging helps to ensure that Lexmark printers are transported in the most efficient and environmentally sensitive manner and that there is less packaging to dispose of. These efficiencies result in fewer greenhouse emissions, energy savings, and natural resource savings. Lexmark also offers recycling of packaging components in some countries or regions. For more information, go to [www.lexmark.com/recycle](http://www.lexmark.com/recycle), and then choose your country or region. Information on available packaging recycling programs is included with the information on product recycling.

Lexmark cartons are 100% recyclable where corrugated recycling facilities exist. Facilities may not exist in your area.

The foam used in Lexmark packaging is recyclable where foam recycling facilities exist. Facilities may not exist in your area.

When you return a cartridge to Lexmark, you can reuse the box that the cartridge came in. Lexmark recycles the box.

## Waste from Electrical and Electronic Equipment (WEEE) directive

The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products.

If you have further questions about recycling options, visit the Lexmark Web site at [www.lexmark.com](http://www.lexmark.com) for your local sales office phone number.

## India E-Waste notice

This product including components, consumables, parts and spares complies with the “India E-Waste Rules” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1% by weight and 0.01% by weight for cadmium, except for the exemption set in the Rule.

## Lithium-ion rechargeable battery

This product may contain a coin-cell, lithium-ion rechargeable battery, which should only be removed by a trained technician. Crossed-out wheeled bin means the product should not be discarded as unsorted waste but must be sent to separate collection facilities for recovery and recycling. In the event the battery is removed, do not dispose of the battery in your household waste. There may be separate collection systems for batteries in your local community, such as a battery-recycling drop-off location. The separate collection of waste batteries

assures appropriate treatment of waste including reuse and recycling and prevents any potential negative effects on human health and environment. Please responsibly dispose of the batteries.

## Product disposal

Do not dispose of the printer or supplies in the same manner as normal household waste. Consult your local authorities for disposal and recycling options.

## Returning Lexmark cartridges for reuse or recycling

The Lexmark Cartridge Collection Program allows you to return used cartridges for free to Lexmark for reuse or recycling. One hundred percent of the empty cartridges returned to Lexmark are either reused or demanufactured for recycling. The boxes used to return the cartridges are also recycled.

To return Lexmark cartridges for reuse or recycling, do the following:

- 1 Go to [www.lexmark.com/recycle](http://www.lexmark.com/recycle).
- 2 Select your country or region.
- 3 Select **Lexmark Cartridge Collection Program**.
- 4 Follow the instructions on the screen.

## Static sensitivity notice

This symbol identifies static-sensitive parts. Do not touch the areas near these symbols without first touching a metal surface in an area away from the symbol.

To prevent damage from electrostatic discharge when performing maintenance tasks such as clearing paper jams or replacing supplies, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer even if the symbol is not present.

## ENERGY STAR

Any Lexmark product bearing the ENERGY STAR® emblem on the product or on a start-up screen is certified to comply with Environmental Protection Agency (EPA) ENERGY STAR requirements as of the date of manufacture.

## Laser notice

The printer is certified in the U.S. to conform to the requirements of DHHS 21 CFR, Chapter I, Subchapter J for Class I (1) laser products, and elsewhere is certified as a Class 1 consumer laser product conforming to the requirements of IEC 60825-1:2014, EN 60825-1:2014+A11:2021, and EN 50689:2021.

Class I laser products are not considered to be hazardous. The laser system and printer are designed so there is never any human access to laser radiation above a Class I level during normal operation, user maintenance, or prescribed service conditions. The printer has a non-serviceable printhead assembly that contains a laser with the following specifications:

Class: IIIb (3b) AlGaInP

Nominal output power (milliwatts): 15

Wavelength (nanometers): 650–670

## Power consumption

### Product power consumption

The following table documents the power consumption characteristics of the product.

**Note:** Some modes may not apply to your product.

Mode	Description	Power consumption (Watts)
Printing	The product is generating hard-copy output from electronic inputs.	One-sided: 644 (MS531dw); 657 (MS631dw); 669 (MS632dwe, M3350) Two-sided: 397 (MS531dw); 401 (MS631dw); 417 (MS632dwe, M3350)
Copy	The product is generating hard-copy output from hard-copy original documents.	N/A

Mode	Description	Power consumption (Watts)
Scan	The product is scanning hard-copy documents.	N/A
Ready	The product is waiting for a print job.	6.8 (MS531dw); 7.1 (MS631dw); 7.7 (MS632dwe, M3350)
Sleep Mode	The product is in a high-level energy-saving mode.	0.9 (MS531dw, MS631dw); 1.0 (MS632dwe, M3350) MS639: N/A
Hibernate	The product is in a low-level energy-saving mode.	0.1 MS639: N/A
Off	The product is plugged into an electrical outlet, but the power switch is turned off.	0.1

The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average.

Values are subject to change. See [www.lexmark.com](http://www.lexmark.com) for current values.

### Sleep Mode

This product is designed with an energy-saving mode called *Sleep Mode*. The Sleep Mode saves energy by lowering power consumption during extended periods of inactivity. The Sleep Mode is automatically engaged after this product is not used for a specified period of time, called the *Sleep Mode Timeout*.

Factory default Sleep Mode Timeout for this product (in minutes):	15 MS639: N/A
---	------------------

By using the configuration menus, the Sleep Mode Timeout can be modified between 1 minute and 120 minutes, or between 1 minute and 114 minutes, depending on the printer model. If the printer speed is less than or equal to 30 pages per minute, then you can set the timeout only up to 60 minutes or 54 minutes, depending on the printer model. Setting the Sleep Mode Timeout to a low value reduces energy consumption, but may increase the response time of the product. Setting the Sleep Mode Timeout to a high value maintains a fast response, but uses more energy.

Some models support a *Deep Sleep Mode*, which further reduces power consumption after longer periods of inactivity.

### Hibernate Mode

This product is designed with an ultra-low power operating mode called *Hibernate mode*. When operating in Hibernate Mode, all other systems and devices are powered down safely.

The Hibernate mode can be entered in any of the following methods:

- Using the Hibernate Timeout
- Using the Schedule Power modes

Factory default Hibernate Timeout for this product in all countries or regions	3 days MS639: N/A
--	----------------------

The amount of time the printer waits after a job is printed before it enters Hibernate mode can be modified between one hour and one month.

**Notes on EPEAT-registered imaging equipment products:**

- Standby power level occurs in Hibernate or Off mode.
- The product shall automatically power down to a standby power level of  $\leq 1$  W. The auto standby function (Hibernate or Off) shall be enabled at product shipment.

**Off mode**

If this product has an off mode which still consumes a small amount of power, then to completely stop product power consumption, disconnect the power supply cord from the electrical outlet.

**Total energy usage**

It is sometimes helpful to estimate the total product energy usage. Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the product spends in each mode in order to calculate energy usage. The total product energy usage is the sum of each mode's energy usage.

**Applicability of Regulation (EU) 2019/2015 and (EU) 2019/2020**

Per Commission Regulation (EU) 2019/2015 and (EU) 2019/2020, the light source contained within this product or its component is intended to be used for Image Capture or Image Projection only, and is not intended for use in other applications.

**The UK Product Security and Telecommunications Infrastructure Act 2022 (PSTI Act)—Summary Statement of Compliance**

Lexmark International Inc., 740 West New Circle Road, Lexington, KY 40550 USA, declares that this product complies with the applicable security requirements in Schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023. **Regulatory notices for wireless products**

This section contains regulatory information that applies only to wireless models.

If in doubt as to whether your model is a wireless model, then see [“Wireless support” on page 48](#).

## Modular component notice

Wireless models contain the following modular component:

Lexmark MarkNet N8450 / AzureWave AW-CM467-SUR; FCC ID:TLZ-CM467; IC:6100A-CM467

To determine which modular components are installed in your particular product, refer to the labeling on your actual product.

## Exposure to radio frequency radiation

The radiated output power of this device is far below the radio frequency exposure limits of the FCC and other regulatory agencies. A minimum separation of 20 cm (8 inches) must be maintained between the antenna and any persons for this device to satisfy the RF exposure requirements of the FCC and other regulatory agencies.

## Innovation, Science and Economic Development Canada

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

### Innovation, Sciences et Développement économique Canada

Cet appareil est conforme aux normes RSS exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférences et (2) il doit accepter toutes les interférences, y compris les celles qui peuvent entraîner un fonctionnement indésirable.

## European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directive 2014/53/EU on the approximation and harmonization of the laws of the Member States relating to radio equipment.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The EEA/EU authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY. ## Federal Communications Commission (FCC) compliance information statement

This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The FCC Class B limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your point of purchase or service representative for additional suggestions.

The manufacturer is not responsible for radio or television interference caused by using other than recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate this equipment.

**Note:** To assure compliance with FCC regulations on electromagnetic interference for a Class B computing device, use a properly shielded and grounded cable such as Lexmark part number 1021231 for parallel attach or 1021294 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

Any questions regarding this compliance information statement should be directed to:

This product satisfies the Class B limits of BS EN 55032 and safety requirements of BS EN 62368-1.

## STATEMENT OF LIMITED WARRANTY FOR LEXMARK LASER PRINTERS, LEXMARK LED PRINTERS, AND LEXMARK MULTIFUNCTION LASER PRINTERS

### Lexmark International, Inc., Lexington, KY

This limited warranty applies to the United States and Canada. For customers outside the U.S., refer to the country-specific warranty information that came with your product.

This limited warranty applies to this product only if it was originally purchased for your use, and not for resale, from Lexmark or a Lexmark Remarketer, referred to in this statement as “Remarketer.”

### Limited warranty

Lexmark warrants that this product:

- Is manufactured from new parts, or new and serviceable used parts, which perform like new parts
- Is, during normal use, free from defects in material and workmanship

If this product does not function as warranted during the warranty period, contact a Remarketer or Lexmark for repair or replacement (at Lexmark's option).

If this product is a feature or option, this statement applies only when that feature or option is used with the product for which it was intended. To obtain warranty service, you may be required to present the feature or option with the product.

If you transfer this product to another user, warranty service under the terms of this statement is available to that user for the remainder of the warranty period. You should transfer proof of original purchase and this statement to that user.

### Limited warranty service

The warranty period starts on the date of original purchase as shown on the purchase receipt and ends 12 months later provided that the warranty period for any supplies and for any maintenance items included with the printer shall end earlier if it, or its original contents, are substantially used up, depleted, or consumed. Fuser Units, Transfer/Transport Units, Paper Feed items, if any, and any other items for which a Maintenance Kit is

available are substantially consumed when the printer displays a “Life Warning” or “Scheduled Maintenance” message for such item.

To obtain warranty service you may be required to present proof of original purchase. You may be required to deliver your product to the Remarketer or Lexmark, or ship it prepaid and suitably packaged to a Lexmark designated location. You are responsible for loss of, or damage to, a product in transit to the Remarketer or the Lexmark designated location.

When warranty service involves the exchange of a product or part, the item replaced becomes the property of the Remarketer or Lexmark. The replacement may be a new or repaired item.

The replacement item assumes the remaining warranty period of the original product.

Replacement is not available to you if the product you present for exchange is defaced, altered, in need of a repair not included in warranty service, damaged beyond repair, or if the product is not free of all legal obligations, restrictions, liens, and encumbrances.

As part of your warranty service and/or replacement, Lexmark may update the firmware in your printer to the latest version. Firmware updates may modify printer settings and cause counterfeit and/or unauthorized products, supplies, parts, materials (such as toners and inks), software, or interfaces to stop working. Authorized use of genuine Lexmark products will not be impacted.

Before you present this product for warranty service, remove all print cartridges, programs, data, and removable storage media (unless directed otherwise by Lexmark).

For further explanation of your warranty alternatives and the nearest Lexmark authorized servicer in your area contact Lexmark on the World Wide Web.

Remote technical support is provided for this product throughout its warranty period. For products no longer covered by a Lexmark warranty, technical support may not be available or only be available for a fee.

### **Extent of limited warranty**

Lexmark does not warrant uninterrupted or error-free operation of any product or the durability or longevity of prints produced by any product.

Warranty service does not include repair of failures caused by:

- Modification or unauthorized attachments
- Accidents, misuse, abuse or use inconsistent with Lexmark user’s guides, manuals, instructions or guidance
- Unsuitable physical or operating environment
- Maintenance by anyone other than Lexmark or a Lexmark authorized servicer
- Operation of a product beyond the limit of its duty cycle
- Use of printing media outside of Lexmark specifications
- Refurbishment, repair, refilling or remanufacture by a third party of products, supplies or parts
- Products, supplies, parts, materials (such as toners and inks), software, or interfaces not furnished by Lexmark

**TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER LEXMARK NOR ITS THIRD PARTY SUPPLIERS OR REMARKETERS MAKE ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THIS PRODUCT, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND SATISFACTORY QUALITY. ANY WARRANTIES THAT MAY NOT BE DISCLAIMED UNDER APPLICABLE LAW ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES, EXPRESS OR IMPLIED, WILL**

**APPLY AFTER THIS PERIOD. ALL INFORMATION, SPECIFICATIONS, PRICES, AND SERVICES ARE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE.**

### **Limitation of liability**

Your sole remedy under this limited warranty is set forth in this document. For any claim concerning performance or nonperformance of Lexmark or a Remarketer for this product under this limited warranty, you may recover actual damages up to the limit set forth in the following paragraph.

Lexmark's liability for actual damages from any cause whatsoever will be limited to the amount you paid for the product that caused the damages. This limitation of liability will not apply to claims by you for bodily injury or damage to real property or tangible personal property for which Lexmark is legally liable. **IN NO EVENT WILL LEXMARK BE LIABLE FOR ANY LOST PROFITS, LOST SAVINGS, INCIDENTAL DAMAGE, OR OTHER ECONOMIC OR CONSEQUENTIAL DAMAGES.** This is true even if you advise Lexmark or a Remarketer of the possibility of such damages. Lexmark is not liable for any claim by you based on a third party claim.

This limitation of remedies also applies to claims against any Suppliers and Remarketers of Lexmark. Lexmark's and its Suppliers' and Remarketers' limitations of remedies are not cumulative. Such Suppliers and Remarketers are intended beneficiaries of this limitation.

### **Additional rights**

Some states do not allow limitations on how long an implied warranty lasts, or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions contained above may not apply to you.

This limited warranty gives you specific legal rights. You may also have other rights that vary from state to state.
