RAM® Docks for Zebra TC22 / TC27

FEATURES

Pogo Pin Charging

Protect the charge port and increase efficiency utilizing the device's pogo pad docking contacts — simply dock the TC22/TC27 to keep the device charged. Each powered RAM® dock comes equipped with pogo pin technology for this seamless docking experience.

Stylus Holder

Integrated snap-in stylus holder on all docks prevent lost or dangling styluses when on-the-go.

Removable Inserts

("-1U" Part Numbers Only)

Part numbers ending in "-1U" indicate docks that include removable inserts. When installed, these inserts retain form-fit docking of the TC22/TC27 when the rugged boot is removed from the device.

Mount It

With RAM® Compatibility™ customize your mount to your environment. Our recommended mount is the RAM-101U Drill-Down mount.
