## FEATURES & BENEFITS

Patented & Pats Pend.  
[rammount.com/ip](http://rammount.com/ip)

### Pogo Pin Charging

Protect the charge port and increase efficiency by utilizing the device's pogo pad docking contacts — simply dock the TC8300 to keep the device charged and/or connected to peripherals. Each powered RAM® dock comes equipped with pogo pin technology for this seamless docking experience.

### Heated Pogo Pins

Heating elements provide the necessary heat required to prevent pogo pins from locking up, allowing them to operate in wet and freezing environments.

### Easy Docking

This holder is spring-loaded, making it easy for one-handed docking and removal. Securing the device from both ends allows safe docking position at any angle.

### Static & Light-Duty Vehicle Applications

SCREEN **UP**  
ORIENTATION

### Forklift & Heavy-Duty Applications

SCREEN **DOWN**  
ORIENTATION

### Mount It

With RAM® Compatibility™, customize your mount specific to your environment. RAM® recommends two unique mounting orientations depending on the intended application, enabled by the TC8300's rotating screen.
