X Strap

Bracket (4)

Screw (1)

NOTE

The pictures are for reference only, actual items may slightly differ.

Installation

This section will guide you on how to install the X strap of your tablet.

Installing the X Strap

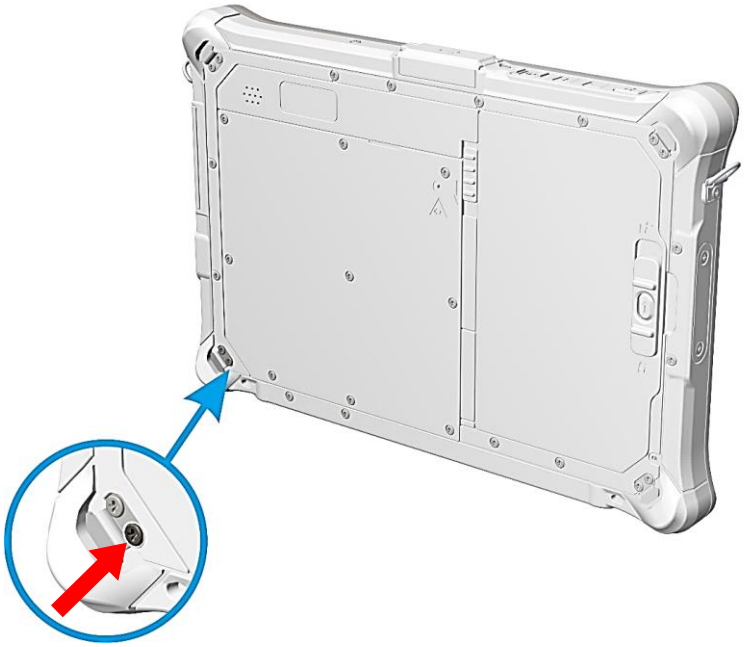

To install the rotating hand strap, follow the steps below:

1. Remove the 2 screws from the corner at the back of the device. Align the strap bracket (A) with the notch facing out.
2. Use the removed screws to mount on the strap bracket. Repeat the steps to complete all four corners of the tablet.

NOTE

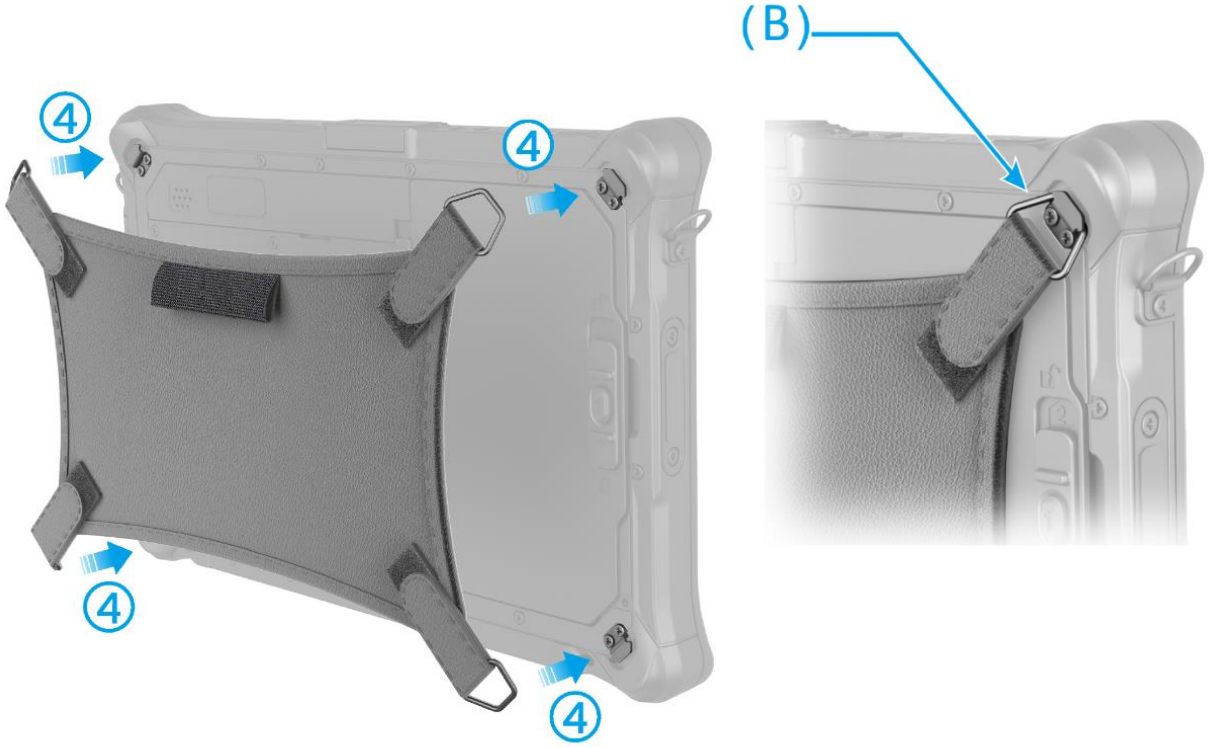

When mounting the bracket at the bottom left corner, please use the screw that comes with the rotating hand strap and replace the existing screw, as illustrated below.

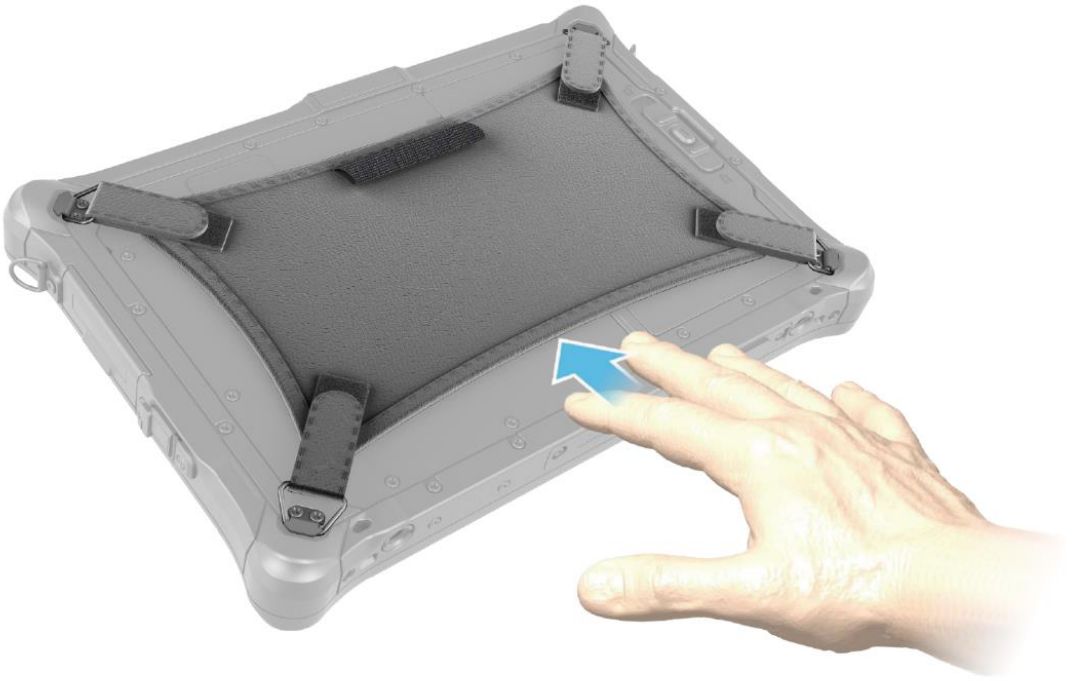

3. Insert the steel loop into each of the 4 corner straps.

4. Hook the steel loop of the X Strap (B) onto the corner bracket. Please repeat this step for the other corners and tighten the corner straps.

5. Move your hand into the slit between the X Strap and the device.
6. Fix the hand strap firmly so that the tablet does not come off.
