Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouiller du Canada.

Safety information

- Before setting up the monitor, carefully read all the documentation that came with the package.
- To prevent fire or shock hazard, never expose the monitor to rain or moisture.
- Never try to open the monitor cabinet. The dangerous high voltages inside the monitor may result in serious physical injury.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.
- Before using the product, make sure all cables are correctly connected and the power cables are not damaged. If you detect any damage, contact your dealer immediately.
- Slots and openings on the back or top of the cabinet are provided for ventilation. Do not block these slots. Never place this product near or over a radiator or heat source unless proper ventilation is provided.
- The monitor should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supply to your home, consult your dealer or local power company.
- Use the appropriate power plug which complies with your local power standard.

- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- Avoid dust, humidity, and temperature extremes. Do not place the monitor in any area where it may become wet. Place the monitor on a stable surface.
- Unplug the unit during a lightning storm or if it will not be used for a long period of time. This will protect the monitor from damage due to power surges.
- Never push objects or spill liquid of any kind into the slots on the monitor cabinet.
- To ensure satisfactory operation, use the monitor only with UL listed computers which have appropriate configured receptacles marked between 100 ~ 240V AC.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.
- If you encounter technical problems with the monitor, contact a qualified servicer.
- Provide an earthing connection before the mains plug is connected to the mains. And, when disconnecting the earthing connection, be sure to disconnect after pulling out the mains plug from the mains.
- Please use ADP ADP-90LE B adapter.
- If provided with a 3-pin attachment plug on the power cord, plug the cord into a grounded (earthed) 3-pin outlet. Do not disable the power cord grounding pin, for example, by attaching a 2-pin adapter. The grounding pin is an important safety feature.

Stability Hazard

- The product may fall, causing serious personal injury or death. To prevent injury, this product must be securely attached to the floor/wall in accordance with the installation instructions.
- A product may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
- ALWAYS use cabinets or stands or installation methods recommended by the manufacturer of the product set.

- ALWAYS use furniture that can safely support the product.
- ALWAYS ensure the product is not overhanging the edge of the supporting furniture.
- ALWAYS educate children about the dangers of climbing on furniture to reach the product or its controls.
- ALWAYS route cords and cables connected to your product so they cannot be tripped over, pulled or grabbed.
- NEVER place a product in an unstable location.
- NEVER place the product on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the product to a suitable support.
- NEVER place the product on cloth or other materials that may be located between the product and supporting furniture.
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the product or furniture on which the product is placed.
- If the existing product is going to be retained and relocated, the same considerations as above should be applied.

WARNING: Usage of other than specified head- or earphones can result in hearing loss due to excessive sound pressures.

Restriction on Hazardous Substances statement (India)

This product complies with the “India E-Waste (Management) Rules, 2016” and prohibits use of Lead, Mercury, Hexavalent Chromium, polybrominated biphenyls(PBBs) and polybrominated diphenyl ethers(PBDEs) in concentration exceeding 0.1% by weight in homogenous materials and 0.01% by weight in homogenous materials for cadmium, except of exemptions listed in Schedule 2 of the Rule.

Care & Cleaning

- Before you lift or reposition your monitor, it is better to disconnect the cables and power cord. Follow the correct lifting techniques when positioning the monitor. When lifting or carrying the monitor, grasp the edges of the monitor. Do not lift the display by the stand or the cord.
- Cleaning. Turn your monitor off and unplug the power cord. Clean the monitor surface with a lint-free, non-abrasive cloth. Stubborn stains may be removed with a cloth dampened with mild cleaner.
- Avoid using a cleaner containing alcohol or acetone. Use a cleaner intended for use with the LCD. Never spray cleaner directly on the screen, as it may drip inside the monitor and cause an electric shock.

This symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment, and mercury-containing button cell battery) should not be placed in municipal waste.

Please check local regulations for disposal of electronic products.

AEEE yönetmeliğine uygundur

The following symptoms are normal with the monitor:

- The screen may flicker during the initial use due to the nature of the fluorescent light. Turn off the Power Switch and turn it on again to make sure that the flicker disappears.
- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- When the same image is displayed for hours, an afterimage of the previous screen may remain after switching the image. The screen will recover slowly or you can turn off the Power Switch for hours.
- When the screen becomes black or flashes, or cannot work anymore, contact your dealer or service center to fix it. Do not repair the screen by yourself!

Where to find more information

Refer to the following sources for additional information and for product and software updates.

1. **ASUS websites**

The ASUS websites worldwide provide updated information on ASUS hardware and software products. Refer to **<http://www.asus.com>**

2. **Optional documentation**

Your product package may include optional documentation that may have been added by your dealer. These documents are not part of the standard package.

1.1 Welcome!

Thank you for purchasing the ASUS® OLED monitor!

The latest widescreen OLED monitor from ASUS provides a crisper, broader, and brighter display, plus a host of features that enhance your viewing experience.

With these features, you can enjoy the convenience and delightful visual experience that the monitor brings to you!

1.2 Package Contents

Check your package for the following items:

- ✓ OLED Monitor
- ✓ ROG Ergo Monitor Arm
- ✓ Quick Start Guide
- ✓ Warranty Card
- ✓ 1x Power Cord
- ✓ 1x HDMI Cable
- ✓ 1x DP Cable
- ✓ 1x USB 3.0 Cable
- ✓ 1x Power Adapter
- ✓ 1x ROG wall mount kit
- ✓ 1 x ROG Pouch
- ✓ ROG Sticker
- ✓ Color calibration testing report

-
- If any of the above items is damaged or missing, contact your retailer immediately.
-

1.3 Assembling the Monitor

To assemble the monitor:

- We recommend that you keep the monitor inside its EPS (Expanded Polystyrene) packaging until you mount the monitor.

1. Remove the EPS packaging from the box.

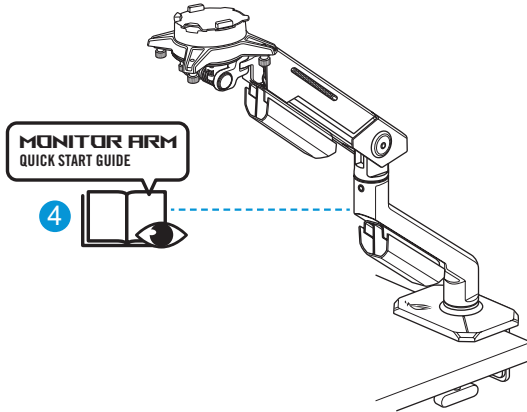

2. Take out all accessories from the upper EPS.

3. Remove the upper EPS from the EPS packaging.

4. Assemble and attach the monitor arm to the desk. For more information, please refer to the Quick Start Guide.

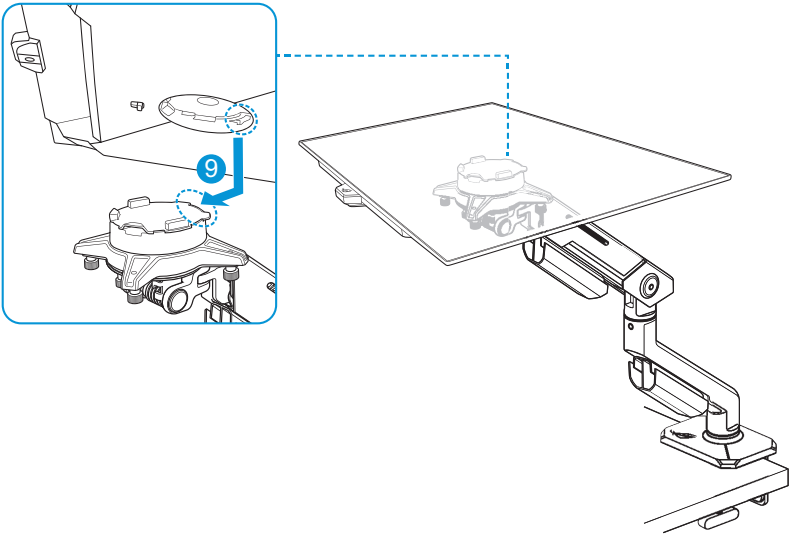

5. Align and install the VESA bracket to the VESA mount.
6. Fix the VESA bracket to the VESA mount by fastening the bundled screws.

7. Align and install the VESA mount to the mounting plate.
8. Fix the VESA mount by fastening the bundled screw.

9. Align and secure the monitor to the VESA mount.

Adjust the monitor to the angle that is most comfortable for you.

- Press the release button to detach the monitor from the VESA mount.

1.4 Connect Cables

1.4.1 Rear of the OLED Monitor

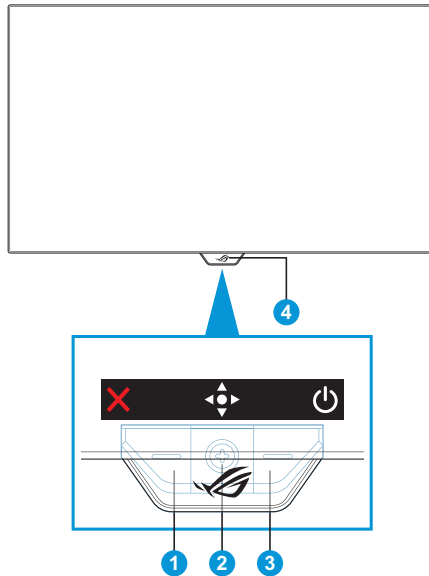

1. DC-IN Port
2. Earphone Jack
3. HDMI-1 Port
4. HDMI-2 Port
5. Kensington Lock
6. DisplayPort
7. USB Type-B Port
8. USB Type-A Ports

1.5 Monitor Introduction

1.5.1 Using the Control Buttons

Use the control buttons on the rear of the monitor to adjust the monitor settings.

1. **X** Input Select / Close Button:

- Press to activate the **Input Select** hotkey. In the OSD menu, press to exit the OSD menu.

- To change the hotkey function, go to the **MyFavorite > Shortcut** menu.

2. **⬆️⬇️⬆️** Hotkey / Navigation Button:

- **⬆️⬇️⬆️**: Press to activate the OSD menu. In the OSD menu, press to confirm the selection.
- **⬆️⬆️⬆️**: Move the button up to activate the **GameVisual** hotkey.
- **⬆️⬆️⬆️**: Move the button down to activate the **Volume** hotkey.

- : In the OSD menu, move the button up/down to navigate through the settings.
- : Move the button right to activate the **GamePlus** hotkey. In the OSD menu, move the the button right to move to the next menu.
- : In the OSD menu, move the the button left to exit the OSD menu or move to the previous menu.

-
- To change the hotkey function, go to the **MyFavorite > Shortcut** menu.
 - For more information on GamePlus function, refer to page 1-8.
 - For more information on GameVisual function, refer to page 1-10.
-

3. Power Button:

- Press this button to turn the monitor on/off.

4. Power Indicator:

- The color definition of the power indicator is as the table below.

Status	Description
Red	ON
Amber	Standby mode
OFF	OFF

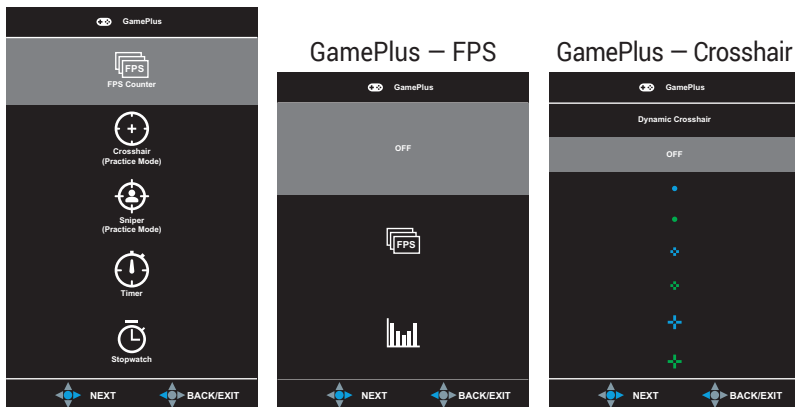

1.5.2 GamePlus Function

The GamePlus function provides a toolkit and creates a better gaming environment for users when playing different types of games. The crosshair overlay with 6 different crosshair options letting you choose the one that best suits the game you're playing. There are also on screen timer and stopwatch you can position on the left of the display so you can keep track of the gaming time; while the FPS (frames per second) counter lets you know how smooth the game is running. Sniper function (only available when HDR is disabled on your device) is customized for first-person shooters. You can select the magnification ratio and the type of alignment in sequence.

To activate GamePlus:

1. Press the GamePlus hotkey. By default, the  button right is set as GamePlus hotkey.
To change the hotkey function, go to the **MyFavorite > Shortcut** menu.
2. Move the  button up/down to select among different functions.
3. Press the  button or move the  button right to confirm the function you choose, and move the  button up/down to navigate through the settings. Move the  button left to go back, off, or exit.
4. Highlight the desired setting and press the  button to activate it.
Once the function is activated, press the  button to inactivate it.

GamePlus Main Menu

GamePlus – Sniper

GamePlus – Timer

GamePlus – Stopwatch

1.5.3 GameVisual Function

The GameVisual function helps you select among different picture modes in a convenient way.

To activate GameVisual:

1. Press the GameVisual hotkey. By default, the  button up is set as GameVisual hotkey.
To change the hotkey function, go to the **MyFavorite > Shortcut** menu.
2. Move the  button up/down to select among different modes.
 - **Scenery Mode:** This is the best choice for scenery photo displaying with GameVisual™ Video intelligence Technology.
 - **Racing Mode:** This is the best choice for racing game playing with GameVisual™ Video intelligence Technology.
 - **Cinema Mode:** This is the best choice for movie watching with GameVisual™ Video intelligence Technology.
 - **RTS/RPG Mode:** This is the best choice for Real-Time Strategy (RTS)/ Role-Playing Game (RPG) playing with GameVisual™ Video intelligence Technology.
 - **FPS Mode:** This is the best choice for First Person Shooter game playing with GameVisual™ Video intelligence Technology.
 - **sRGB Mode:** This is the best choice for viewing photos and graphics from PCs.
 - **MOBA Mode:** This is the best choice for Multiplayer Online Battle Arena (MOBA) games playing with GameVisual™ Video intelligence Technology.
 - **User Mode:** More items are adjustable in the Color menu.

-
- In the Racing Mode, the Saturation and Sharpness functions are not user-configurable.
 - In the sRGB, the Saturation, Color Temp., Sharpness, and Contrast functions are not user-configurable.
 - In the MOBA Mode, the Saturation function is not user-configurable.
-

3. Press the  button to confirm the selection.

2.1 Adjusting the Monitor

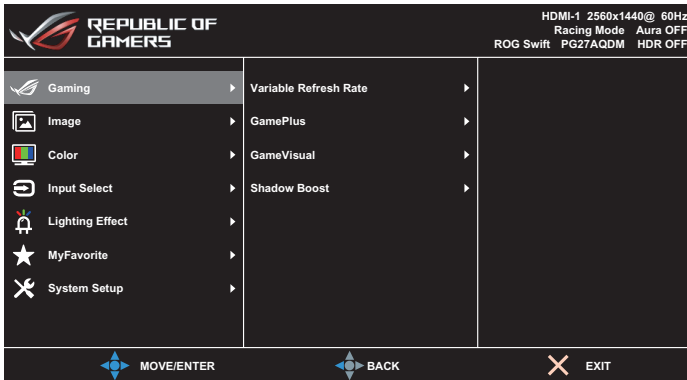

- For optimal viewing, we recommend that you look at the full face of the monitor, then adjust the monitor to the angle that is most comfortable for you.
- You can adjust the monitor's angle from $90^{\circ} \pm 5.0^{\circ}$ to $-20^{\circ} \pm 5.0^{\circ}$ and it allows $90^{\circ} \pm 5.0^{\circ}$ swivel adjustment from either left or right. You can also adjust the monitor's height within 31 cm and pivot the monitor 0° to 360° unlimited.

- It is normal that the monitor slightly shakes while you adjust the viewing angle.

3.1 OSD (On-Screen Display) Menu

3.1.1 How to Reconfigure

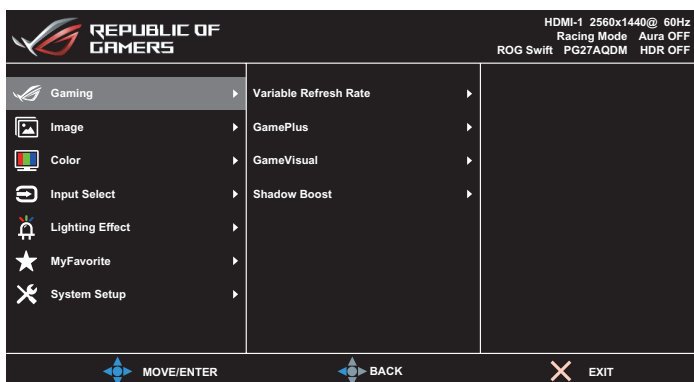

1. Press the  button to display the OSD menu.
2. Move the  button up/down to navigate through the functions. Highlight the desired function and press the  button or move the  button right to enter its sub-menu. In submenu, move the  button up/down again to navigate through the sub-menu functions. Highlight the desired sub-menu function and press the  button to select an option or move the  button up/down to adjust the setting.
3. Move the  button up/down to change the settings of the selected function.
4. To exit and save the OSD menu, press the  button or move the  button left repeatedly until the OSD menu disappears. To adjust other functions, repeat steps 1 to 3.

3.1.2 OSD Function Introduction

1. Gaming

Configure your gaming preferences.

- **Adaptive-Sync / Variable Refresh Rate:** Allows an Adaptive-Sync / Variable Refresh Rate supported graphics source to dynamically adjust display refresh rate based on typical content frame rates for power efficient, virtually stutter free and low-latency display update.

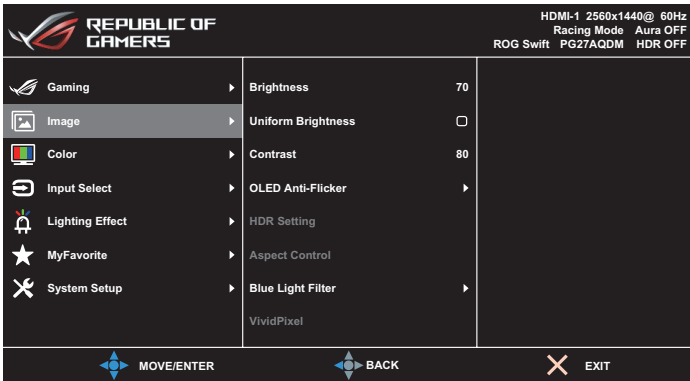

- Adaptive-Sync / Variable Refresh Rate can only be activated within:
 - HDMI source: 40Hz ~ 120Hz
 - DisplayPort source: 40Hz ~ 240Hz

- **GamePlus:** Configures the gaming environment. For more information, refer to pages 1-8 and 1-9.
- **GameVisual:** Selects the picture mode. For more information, refer to pages 1-10 and 1-11.
- **Shadow Boost:** Adjusts the monitor gamma curve to enrich the dark tones in an image making dark scenes and objects much easier be found. Available options: **OFF**, **Dynamic Adjustment**, and **Level 1 ~ Level 3**.

2. Image

Configure the image parameters.

- **Brightness:** Adjusts the brightness level. The adjusting range is from **0** to **100**.
- **Uniform Brightness:** With the feature enabled, the system will not adjust the maximum brightness of the screen when the screen is displayed in a different screen size.
- **Contrast:** Adjusts the contrast level. The adjusting range is from **0** to **100**.
- **OLED Anti-Flicker:** Designed to enhance your viewing experience by stabilizing the refresh rate within a specified range.

- The feature performance may vary depending on the monitor model and environment.
- The OLED anti-flicker can be enabled only at 240Hz for 1080P and 1440P.
- To active the feature, please connect with DP source and the following function will be disabled:
 - Aspect Control
 - Power Saving

- **HDR Setting:** High Dynamic Range. Contains several HDR modes. The HDR mode is selectable when input video is correct HDR source.

- When detecting HDR content, an “HDR ON” message will pop up. When displaying HDR content, the following function(s) are not available: GameVisual, Shadow Boost, Brightness, Contrast, Aspect Control, Blue Light Filter, Color Temp., Gamma, Saturation.

- **Aspect Control:** Adjusts the aspect ratio to **Full, Equivalent, 1:1, and 16:9 (25"W)**.

- Select **Equivalent** to display the picture according to the original aspect ratio of the input source.
- **Equivalent:** You can also choose 1920x1440@240Hz in addition to the proportional zoom.
- **16:9 (25"W):** It is displayed in the center of the screen with a 24.5" W 1920x1080@240Hz as default, and 2368x1332@240Hz can be selected.

- **Blue Light Filter:** Reduces the energy level of blue light emitted from the panel. To turn off the Blue Light Filter, select **OFF**.

- When Blue Light Filter is activated, the default settings of Racing Mode will be automatically imported.
- Between Level 1 to Level 3, the Brightness function is user-configurable.
- Level 4 is optimized setting. It is compliance with TUV Low Blue Light Certification. The Brightness function is not user-configurable.

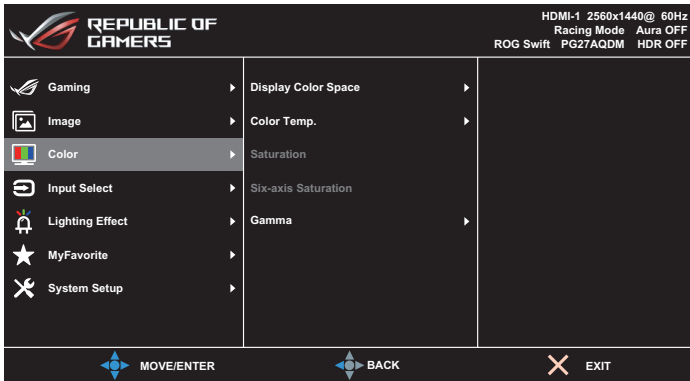

- Please refer to the following to alleviate eye strains:
- Users should take some time away from the display if working for long hours. It is advised to take short breaks (at least 5 mins) after around 1 hour of continuous working at the computer. Taking short and frequent breaks is more effective than a single longer break.
- To minimize eye strain and dryness in your eyes, users should rest the eye periodically by focusing on objects that are far away.
- Eye exercises can help to reduce eye strain. Repeat these exercises often. If eye strain continues please consult a physician. Eye exercises: (1) Repeating look up and down (2) Slowly roll your eyes (3) Move your eyes diagonal.
- High energy blue light may lead to eye strain and AMD (Age-Related Macular Degeneration). Blue light filter to reduce 70% (max.) harmful blue light to avoiding CVS (Computer Vision Syndrome).

- **VividPixel:** ASUS Exclusive Technology that brings lifelike visuals for crystal-clear and detail-oriented enjoyment. The adjusting range is from **0** to **100**.

3. Color

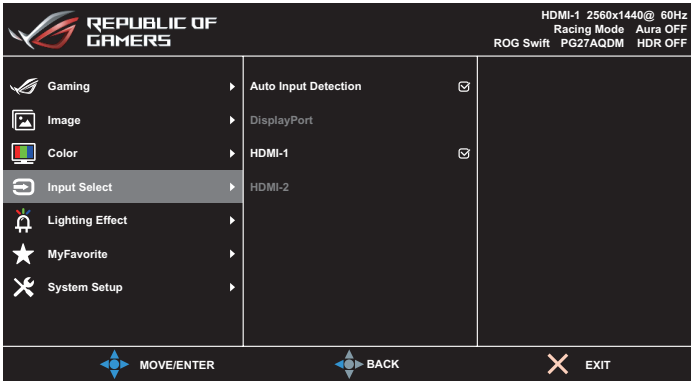

Select the image color you like from this menu.

- **Display Color Space:** Selects the color space for the monitor color output.
- **Color Temp.:** Selects the desired color temperature.
- **Saturation:** Adjusts the saturation level.
- **Six-axis Saturation:** Adjusts the saturation for R, G, B, C, M, Y.
- **Gamma:** Sets the color mode.

4. Input Select

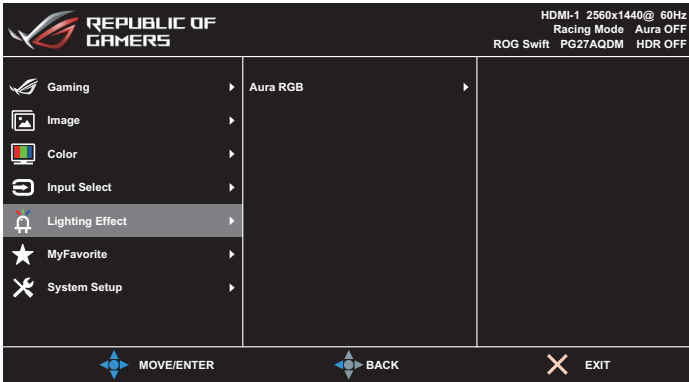

Select the input source.

- **Auto Input Detection:** When enabled, the system will automatically select the latest inserted I/O port.
- **Input Source:** Manually select the input source.

5. Lighting Effect

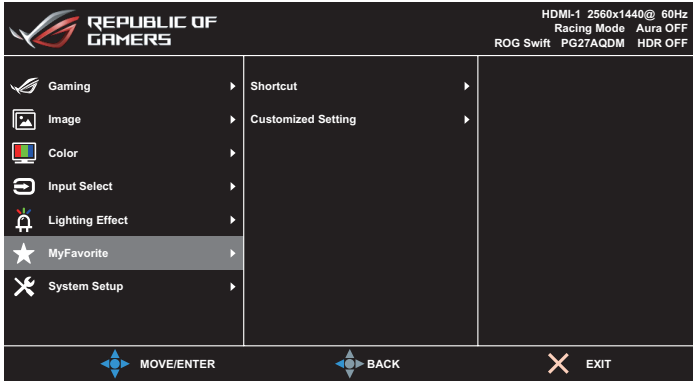

Configure the lighting effect for the rear cover and base cover.

- **Aura RGB:**
 - **Rear Cover:** Sets the Aura RGB light pattern on the rear cover.
 - **Base:** Sets the Aura RGB light intensity.

6. MyFavorite

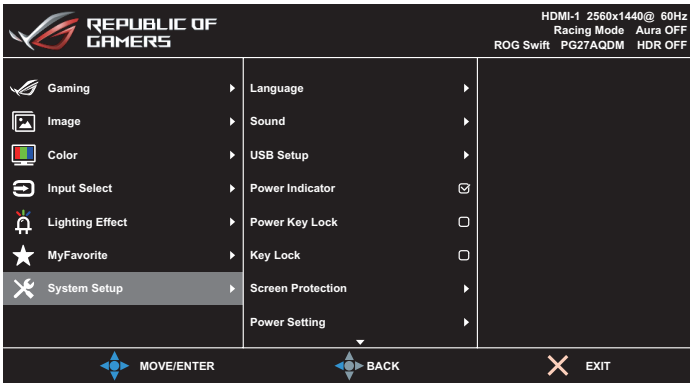

You can adjust Shortcut and Customized Setting from this main function.

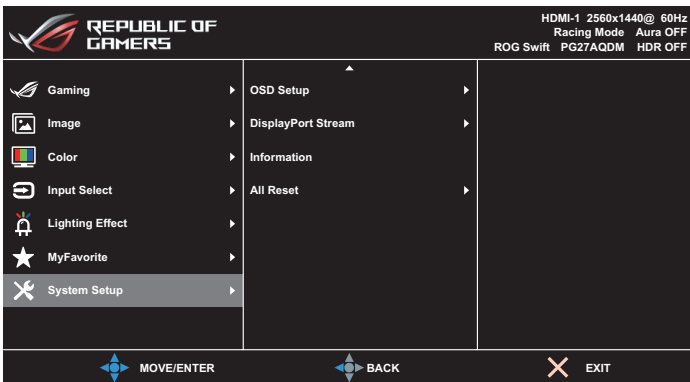

- **Shortcut:** User can select from **GamePlus, GameVisual, Brightness, Mute, Shadow Boost, Contrast, Input Select, HDR Setting, Blue Light Filter, Volume, Customized Setting-1 (Load), Customized Setting-2 (Load)** and set as shortcut key.
- **Customized Setting:** You can do your setting according to your preference.

7. System Setup

Adjust the system configuration.

(Page 1/2)

(Page 2/2)

- **Language:** Selects an available language for the OSD menu. The options include **English, French, German, Spanish, Italian, Dutch, Russian, Polish, Czech, Croatian, Hungarian, Romanian, Portuguese, Turkish, Simplified Chinese, Traditional Chinese, Japanese, Korean, Persian, Thai, Indonesian, and Ukrainian.**
- **Sound:**
 - **Volume:** Adjusts the volume level from **0** to **100**.
 - **Mute:** If checked, mutes the volume.

- **USB Setup:** Sets the USB Hub availability during standby.
- **Power Indicator:** Turns the power LED indicator on/off.
- **Power Key Lock:** Disables or enables the power key.
- **Key Lock:** Enable this function to disable all function keys. Press the  button down for more than five seconds to cancel the key lock function.
- **Screen Protection:**
 - **Screen Saver:** Disables or enables the screen saver function. The screen brightness will automatically decrease when there is no change on the screen.
 - **Pixel Cleaning:** It calibrates any issues that may arise on the screen when your monitor has been turned on for a long time. The process will take approximately 6 minutes. This function will automatically activate when the monitor is turn off. Do not unplug the power cord while it is in progress. If you power on the monitor, the Pixel Cleaning will stop operating.
 - **Screen Move:** Selects the screen movement level to prevent image sticking on the display panel.
 - **Adjust Logo Brightness:** Enables this function to allow the system to automatically adjust the logo brightness to correct the potential picture quality issues.
 - **Pixel Cleaning Cycle Reminder:** Sets a reminder for user to perform the Pixel Cleaning.

-
- The screen may have mura and image sticking due to OLED characteristic during the initial use or re-used after a long time. It is advised to perform Pixel Cleaning while turning on monitor to make sure situation disappear.
-

- **Power Setting:** Select the power setting between **Standard Mode** and **Power Saving Mode**.

-
- In **Power saving** mode, the screen brightness will be lowered and the monitor will consume less power. If you need to keep higher brightness level then set the **Power Setting** to **Standard mode**.
 - Please turn off HDR function before activating the **Power Saving Mode**.
-

- **OSD Setup:**
 - **OSD Position:** Sets the OSD menu position.
 - **OSD Timeout:** Adjusts the OSD timeout.
 - **Transparency:** Adjusts the OSD background from opaque to transparent.
 - **DDC/CI:** Disables or enables the DDC/CI function.
- **DisplayPort Stream:** Selects **DisplayPort 1.2** or **DisplayPort 1.4** according to the graphic card DP version.
- **Information:** Displays the monitor information.
- **All Reset:** Select **YES** to revert all settings to the factory default mode.

3.2 Specifications

Model	PG27AQDM-R
Panel Type	OLED
Panel Size	26.50" (67.32cm)
Max. Resolution	2560 x 1440
Brightness (Typ.)	450 nits (APL 25%) 1000 nits (HDR 3%)
Contrast Ratio (Typ.)	1,500,000:1
Viewing Angle	178° (R/L), 178° (U/D)
Display Colors	1073.7M (10 bit)
Response Time	0.03 ms
HDMI Input	Yes
DisplayPort Input	Yes
USB3.0 Port	Upstream x1, Downstream x2
Earphone	Yes
Power ON consumption	90W (maximum) (Measuring a screen brightness of 200 nits without audio/USB/ Card reader connection)
Chassis Colors	Black
Power LED	Red (On) / Orange (Standby) / Blinking Orange (Pixel Cleaning)
Power Saving Mode	< 0.5W
Power Off Mode	< 0.3W
Tilt	90°±5.0° to -20°±5.0°
Swivel	Yes (+90° to -90°) with arm
Pivot	Yes (+180° to -180°)
Height Adjustment	310.0 mm
