#### Revision

V1.0, 2024/10

# **Getting Started**

This chapter provides you with the information on hardware setup procedures. While connecting devices, be careful in holding the devices and use a grounded wrist strap to avoid static electricity.

## **Package Contents**

Monitor	MAG 321CUP QD-OLED	MPG 321CURX QD-OLED	
Documentation	Quick Start Guide		
Accessories	Stand		
	Stand Base with Screw(s)		
	Screw(s) for Wall Mount Bracket(s)		
	Power Cord		
Cables	Ultra High Speed HDMI™ Cable (Optional)		
	DisplayPort Cable (Optional)		
		USB Upstream Cable (for USB Type-B Upstream Port)	

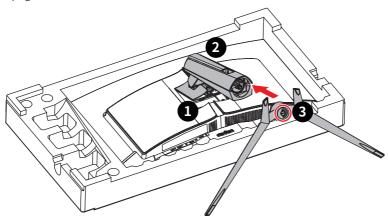

# / Important

- Contact your place of purchase or local distributor if any of the items is damaged or missing.
- Package contents may vary by country and model.
- The included power cord is exclusively for this monitor and should not be used with other products.

## **Installing the Monitor Stand**

- 1. Leave the monitor in its protective packaging. Align the stand to the monitor groove.
- 2. Push the stand towards the monitor groove until it locks in place.
- 3. Connect the base to the stand and tighten the base screw to secure the base.
- 4. Make sure the stand assembly is properly installed before setting the monitor upright.

### **Important**

- Place the monitor on a soft, protected surface to avoid scratching the display panel.
- Do not use any sharp objects on the panel.
- The groove for installing the stand bracket can also be used for wall mount. Please contact your dealer for proper wall mount kit.

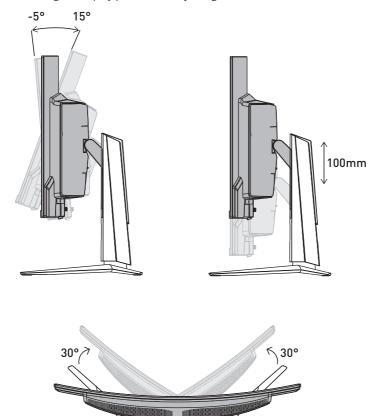

# **Adjusting the Monitor**

This monitor is designed to maximize your viewing comfort with its adjustment capabilities.

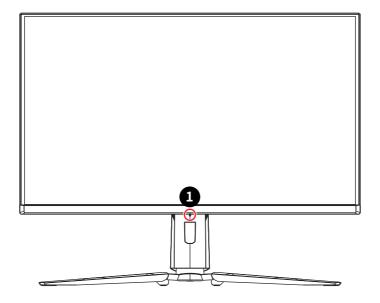

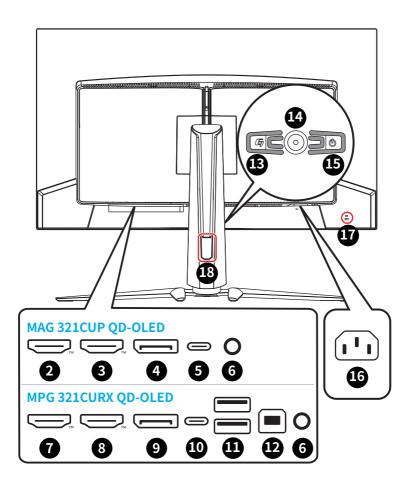

### Important

Avoid touching the display panel when adjusting the monitor.

# **Monitor Overview**

Power LED

Lit in white after the monitor is turned on. If no signal input, the LED will turn into orange. Lit in orange when the monitor is in Stand-by mode.

HDMI<sup>TM</sup> Connector HIGH-DEFINITION MULTIMEDIA INTERPACE

Supports HDMI<sup>™</sup> CEC, 3840x2160@165Hz as specified in HDMI<sup>™</sup> 2.1.

⚠ Important

To ensure optimal performance and compatibility, please use only HDMI™ cables certified with the official HDMI™ logo when connecting this monitor. For more information, please visit <a href="https://www.hdmi.org/resource/cables">https://www.hdmi.org/resource/cables</a>.

# HDMI<sup>TM</sup> Connector HIGH-DEFINITION MULTIMEDIA INTERFACE

Supports 3840x2160@165Hz as specified in HDMI<sup>™</sup> 2.1.

#### Important

To ensure optimal performance and compatibility, please use only HDMI™ cables certified with the official HDMI™ logo when connecting this monitor. For more information, please visit https://www.hdmi.org/resource/cables.

4

#### **DisplayPort**

Supports 3840x2160@165Hz as specified in DisplayPort 1.4a.

5

#### **USB Type-C Port**

This port supports DisplayPort Alternate (DP Alt) Mode and up to 5V/3A (15W) power delivery.

## ! Important

Your USB-C signal source and cable must support DisplayPort Alternate Mode to enable video output to the monitor.

6

#### **Headphone Jack**

# HDMI<sup>TM</sup> Connector HIGH-DENITION MILITINEDIA INTERFACE

Supports HDMI<sup>™</sup> CEC, 3840x2160@240Hz as specified in HDMI<sup>™</sup> 2.1.

#### **Important**

To ensure optimal performance and compatibility, please use only HDMI™ cables certified with the official HDMI™ logo when connecting this monitor. For more information, please visit https://www.hdmi.org/resource/cables.

8

#### **HDMI™** Connector

Supports 3840x2160@240Hz as specified in HDMI<sup>™</sup> 2.1.

#### **Important**

To ensure optimal performance and compatibility, please use only HDMI™ cables certified with the official HDMI™ logo when connecting this monitor. For more information, please visit https://www.hdmi.org/resource/cables.

9

#### DisplayPort

Supports 3840x2160@240Hz as specified in DisplayPort 1.4a.

10	USB Type-C Port
	This port supports DisplayPort Alternate (DP Alt) Mode and up to 20V/4.9A (98W) power delivery.

Important

Your USB-C signal source and cable must support DisplayPort Alternate Mode to enable video output to the monitor.

USB Type-C
<b>Power Delivery</b>

5V / 3A (15W)

9V / 3A (27W)

12V / 3A (36W)

15V / 3A (45W)

20V / 4.9A (98W)

**USB 2.0 Type-A Port** 

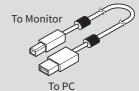

**USB 2.0 Type-B Upstream Port** 

For USB Upstream Cable.

# /!\ Important

Check the package for USB Upstream Cable and connect it to the PC and monitor. Once this cable is connected, the USB Type-A Downstream Ports on the monitor will be ready for use.

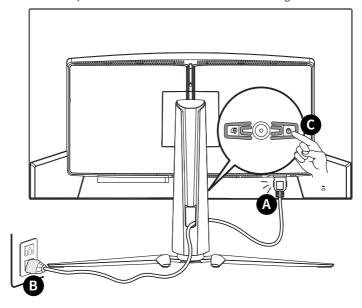

Macro Key 13

To activate MSI Gaming Intelligence Application.

- Navi Key
- Œ **Power Button**
- 16 **Power Jack**
- **Kensington Lock**
- **Cable Routing Hole**

## **Connecting the Monitor to PC**

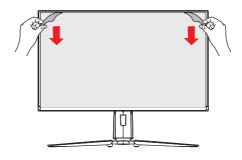

- 1. Turn off your computer.
- 2. Connect the video cable from the monitor to your computer.
- 3. Connect the power cord to the monitor power jack. (Figure A)
- 4. Plug the power cord into the electrical outlet. (Figure B)
- 5. Turn on the monitor. (Figure C)
- 6. Power on the computer and the monitor will auto detect the signal source.

# // Important

To optimize performance, please remove the protective film from the display panel before use.

# **OSD Setup**

This chapter provides you with essential information on OSD Setup.

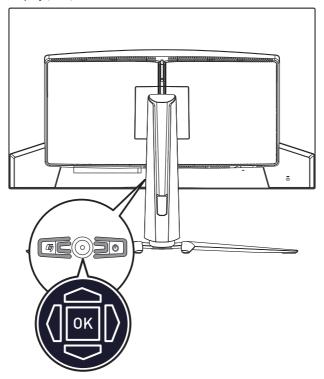

### 

All information is subject to change without prior notice.

# **Navi Key**

The monitor comes with a Navi Key, a multi-directional control that helps navigate the On-Screen Display (OSD) menu.

#### Up/Down/Left/Right:

- selecting function menus and items
- adjusting function values
- entering into/exiting from function menus

#### Press (OK):

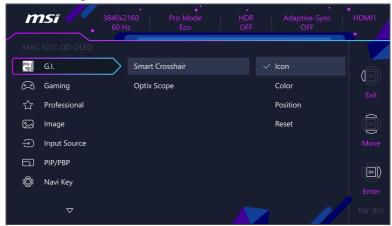

- launching the On-Screen Display (OSD)
- entering submenus
- confirming a selection or setting

## **Hot Key**

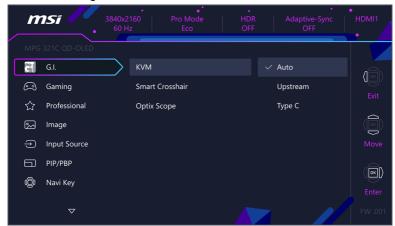

- Users may enter into preset function menus by moving the Navi Key up, down, left or right when the OSD menu is inactive.
- Users may customize their own Hot Keys to enter into different function menus.

## **OSD Menus**

#### **MAG 321CUP QD-OLED**

#### **MPG 321CURX QD-OLED**

The following settings will be grayed out when HDR signals are received:

- Night Vision
- Al Vision
- Low Blue Light
- Brightness

- Contrast
- Color Temperature
- Optix Scope
- PIP/PBP

Reset	YES	Users can Reset and restore settings to original OSD
	NO	Default in any mode.

# **MSI OLED Care**

1st Level Menu	2nd/3rd Level M	lenu .	Description		
Pixel Shift	Slow		Pixel Shift moves the pixels of your screen at		
	Normal		regular intervals to reduce the possibility of screen burn-in or image retention.		
	Fast		Ţ		
Panel Protect			To maintain panel image quality, panel protect function will automatically activate when monitor using over 4 hours.		
			This protect function may take several minutes to complete.		
			The power indicator will blink orange color until process done.		
			During process executing, please do not unplug the power cord from monitor.		
			<ul> <li>During process executing, press power button again to cancel this function.</li> </ul>		
Protect Notice	Auto		When set to Auto, Protect Notice will pop up		
	Usage 16 hrs		when the panel exceeds 4 hours of cumulative usage.		
			When set to Usage 16 hrs, Protect Notice will pop up when the panel exceeds 16 hours of cumulative usage.		
			When Panel Protect is interrupted, Protect Notice will pop up upon next power-up.		
Static Screen	OFF		If Static Screen Detection is set to ON:		
Detection	ON		<ul> <li>When detecting static visuals over long periods of time, the monitor reduces brightness to prevent screen burn-in.</li> </ul>		
			Once detecting moving visuals, the monitor restores its previous brightness setting.		
	Starting in	50 Sec	Starting in detects the time a static image		
		100 Sec	remains on the screen.		
	Time required	120 Sec	Time required specifies the time for brightness		
		240 Sec	reduction after detecting a static image for 50/100 seconds.		
			The brightness reduction level depends on the setting of Reducing Level.		
	Reducing Level	1-7	Users can select a level for brightness reduction.		
			Reducing effect depends on Brightness/ DisplayHDR setting.		

1st Level Menu	2nd/3rd Level M	enu	Description		
Multi Logo Detection	OFF		This function helps prevent image sticking phenomenon. When set to ON, brightness		
	ON		reduction of multi logo areas will kick in if logos are detected.		
	Reducing Level	1-2	Users can select a level for brightness reduction.		
			Reducing effect depends on Brightness/     DisplayHDR setting.		
Taskbar Detection	OFF		This function helps prevent image sticking phenomenon. When set to ON, brightness		
	ON		reduction of taskbar areas will kick in if taskbars are detected.		
	Reducing Level	1-3	Users can select a level for brightness reduction.		
			Reducing effect depends on Brightness/     DisplayHDR setting.		
Boundary Detection	OFF		This function helps prevent image sticking phenomenon. When set to ON, brightness		
	ON		reduction of boundary areas will kick in if boundaries, such as letters, pillars and vertical lines, are detected.		
	Reducing Level	1-3	Users can select a level for brightness reduction.		
			Reducing effect depends on Brightness/ DisplayHDR setting.

# **Troubleshooting**

#### The power LED is off.

- Press the monitor power button again.
- Check if the monitor power cable is properly connected.

#### No image.

- Check if the computer graphics card is properly installed.
- Check if the computer and monitor are connected to electrical outlets and are turned on.
- Check if the monitor signal cable is properly connected.
- The computer may be in Standby mode. Press any key to activate the monitor.

#### The screen image is not properly sized or centered.

 Refer to Preset Display Modes to set the computer to a setting suitable for the monitor to display.

#### No Plug & Play.

- Check if the monitor power cable is properly connected.
- Check if the monitor signal cable is properly connected.
- Check if the computer and graphics card are Plug & Play compatible.

#### The icons, font or screen are fuzzy, blurry or have color problems.

- Avoid using any video extension cables.
- · Adjust brightness and contrast.
- Adjust RGB color or tune color temperature.
- Check if the monitor signal cable is properly connected.
- Check for bent pins on the signal cable connector.

#### The monitor starts flickering or shows waves.

- Change the refresh rate to match the capabilities of your monitor.
- Update your graphics card drivers.
- Keep the monitor away from electrical devices that may cause electromagnetic interference (EMI).

# **Safety Instructions**

- Read the safety instructions carefully and thoroughly.
- All cautions and warnings on the device or User Guide should be noted.
- Refer servicing to qualified personnel only.

#### **Power**

- Make sure that the power voltage is within its safety range and has been adjusted properly to the value of 100~240V before connecting the device to the power outlet.
- If the power cord comes with a 3-pin plug, do not disable the protective earth pin from the plug. The device must be connected to an earthed mains socket-outlet.
- Please confirm the power distribution system in the installation site shall provide the circuit breaker rated 120/240V, 20A (maximum).
- Always disconnect the power cord or switch the wall socket off if the device would be left unused for a certain time to achieve zero energy consumption.
- Place the power cord in a way that people are unlikely to step on it. Do not place anything on the power cord.
- If this device comes with an adapter, use only the MSI provided AC adapter approved for use with this device.

#### **Environment**

- To reduce the possibility of heat-related injuries or of overheating the device, do not place the device on a soft, unsteady surface or obstruct its air ventilators.
- Use this device only on a hard, flat and steady surface.
- To prevent the device from tipping over, secure the device to a desk, wall or fixed object with an anti-tip fastener that helps to properly support the device and keep it safe in place.
- To prevent fire or shock hazard, keep this device away from humidity and high temperature.
- Do not leave the device in an unconditioned environment with a storage temperature above 60°C or below -20°C, which may damage the device.
- The maximum operating temperature is around 40°C.
- When cleaning the device, be sure to remove the power plug. Use a piece of soft cloth rather than industrial chemical to clean the device. Never pour any liquid into the opening; that could damage the device or cause electric shock.
- Always keep strong magnetic or electrical objects away from the device.

- If any of the following situations arises, get the device checked by service personnel:
  - The power cord or plug is damaged.
  - Liquid has penetrated into the device.
  - The device has been exposed to moisture.
  - The device does not work well or you can not get it working according to the User Guide.
  - The device has dropped and damaged.
  - The device has obvious sign of breakage.

# **TÜV Rheinland Certification**

# **TÜV Rheinland Low Blue Light Certification**

Blue light has been shown to cause eye fatigue and discomfort. MSI now offers monitors with TÜV Rheinland Low Blue Light certification to ensure users' eye comfort and well-being. Please follow the instructions below to reduce the symptoms from extended exposure to the screen and blue light.

- Place the screen 20 28 inches (50 70 cm) away from your eyes and a little below eye level.
- Consciously blinking the eyes every now and then will help to reduce eye strain after extended screen time.
- Take breaks for 20 minutes every 2 hours.
- Look away from the screen and gaze at a distant object for at least 20 seconds during breaks.
- Make stretches to relieve body fatigue or pain during breaks.

# TÜV Rheinland Flicker Free Certification

• TÜV Rheinland has tested this product to ascertain whether the display produces visible and invisible flicker for the human eye and therefore strains the eyes of users.

- TÜV Rheinland has defined a catalogue of tests, which sets out minimum standards at various frequency ranges. The test catalogue is based on internationally applicable standards or standards common within the industry and exceeds these requirements.
- The product has been tested in the laboratory according to these criteria.
- The keyword "Flicker Free" confirms that the device has no visible and invisible flicker defined in this standard within the range of 0 - 3000 Hz under various brightness settings.
- The display will not support Flicker Free when Anti Motion Blur/MPRT is enabled. (The availability of Anti Motion Blur/MPRT varies by products.)

# **Regulatory Notices**

# **CE Conformity**

This device complies with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (2014/30/EU), Low-voltage Directive (2014/35/EU), ErP Directive (2009/125/EC) and RoHS directive (2011/65/EU). This product has been tested and found to comply with the harmonized standards for Information Technology Equipment published under Directives of Official Journal of the European Union.

# FCC-B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the measures listed below:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

#### Notice 1

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### Notice 2

Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.

#### MSI Computer Corp.

901 Canada Court, City of Industry, CA 91748, USA (626) 913-0828

#### **WEEE Statement**

Under the European Union ("EU") Directive on Waste Electrical and Electronic Equipment, Directive 2012/19/EU, products of "electrical and electronic equipment" cannot be discarded as municipal waste anymore and manufacturers of covered electronic equipment will be obligated to take back such products at the end of their useful life.

#### **Chemical Substances Information**

In compliance with chemical substances regulations, such as the EU REACH Regulation (Regulation EC No. 1907/2006 of the European Parliament and the Council), MSI provides the information of chemical substances in products at: https://csr.msi.com/global/index

#### **RoHS Statement**

#### Japan JIS C 0950 Material Declaration

A Japanese regulatory requirement, defined by specification JIS C 0950, mandates that manufacturers provide material declarations for certain categories of electronic products offered for sale after July 1, 2006.

https://csr.msi.com/global/Japan-JIS-C-0950-Material-Declarations

#### **India RoHS**

This product complies with the "India E-waste (Management and Handling) Rule 2016" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

#### **Turkey EEE Regulation**

Conforms to the EEE Regulations of the Republic Of Turkey

#### Ukraine Restriction of Hazardous Substances

The equipment complies with requirements of the Technical Regulation, approved by the Resolution of Cabinet of Ministry of Ukraine as of 10 March 2017, № 139, in terms of restrictions for the use of certain dangerous substances in electrical and electronic equipment.

#### Vietnam RoHS

As from December 1, 2012, all products manufactured by MSI comply with Circular 30/2011/TT-BCT temporarily regulating the permitted limits for a number of hazardous substances in electronic and electric products.

#### **Green Product Features**

- Reduced energy consumption during use and stand-by
- Limited use of substances harmful to the environment and health
- Easily dismantled and recycled
- Reduced use of natural resources by encouraging recycling
- Extended product lifetime through easy upgrades
- Reduced solid waste production through take-back policy

### **Environmental Policy**

- The product has been designed to enable proper reuse of parts and recycling and should not be thrown away at its end of life.
- Users should contact the local authorized point of collection for recycling and disposing of their end-of-life products.

- Visit the MSI website and locate a nearby distributor for further recycling information.
- Users may also reach us at gpcontdev@msi.com for information regarding proper disposal, take-back, recycling, and disassembly of MSI products.

## Warning!

Overuse of screens is likely to affect eyesight.

#### **Recommendations:**

- 1. Take a 10-minute break for every 30 minutes of screen time.
- 2. Children under 2 years of age should have no screen time. For children aged 2 years and over, screen time should be limited to less than one hour per day.
