Section 2. Hazards Identification

Classification: Not considered as a hazardous mixture.
Label Elements: Labels and Other forms of Warning according to 29 CFR 1910.1200 [HCS]:
Not applicable
Other hazards: No data available.

Section 3. Ingredients

CAS	Ingredient Name	Weight %
7732-18-5	Water	50 %

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First-Aid Measures

Inhalation:	Move victim to fresh air. If not breathing, give artificial respiration. Get medical attention.
Skin contact:	Immediately wash with plenty of soap and water. Get medical attention if irritation occurs.
Eye contact:	Immediately flush eyes with running water for at least 20 minutes holding eyelids open. Get medical attention.
Ingestion:	Do not induce vomiting. Give 1-2 glasses of water to conscious victim. Never give anything by mouth to an unconscious victim. Get medical attention.
Advice for the doctor:	Symptomatic treatment.

Section 5. Fire Fighting Measures

Suitable Extinguishing Media	Foam Dry Chemical Powder Carbon Dioxide
Unsuitable Extinguishing Media	Water spray or fog.
Special hazards arising from the chemical:	Fire/explosion hazard: Emits toxic fumes under fire conditions. Main combustion gas: Carbon monoxide and carbon dioxide gases
Special protective actions for firefighters:	Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves. Prevent, by any means available, spillage from entering drains or water courses. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:	For non-emergency personnel: Wear suitable protective equipment. For emergency responders: Remove ignition sources and provision of sufficient ventilation, evacuate the danger area and consult experts.
Environmental precautions:	Take precautions to prevent entry into waterways, sewers, or surface drainage systems. Dispose according to local or international regulations.
Methods and materials for containment and cleaning up:	Use appropriate tools to put the spilled solid in suitable container for recovery or disposal, avoid splashing.

Section 7. Handling and Storage

Precautions for safe handling:

Avoid ingestion, inhalation, skin and eye contact. Minimize generate dust. Handle in accordance with good industrial hygiene practice and any legal requirements.

Conditions for safe storage, including any incompatibilities:

Suitable container: Polyethylene. Check all containers are clearly labeled and free from leaks.
Storage incompatibility: Avoid reaction with strong acid, alkali and oxidizing agents.
