- General advice** Show this safety data sheet to the doctor in attendance.
- Inhalation** If symptoms develop move victim to fresh air. Get medical attention if irritation or other symptoms persists.
- Eye contact** Immediately rinse eyes with water for several minutes. Keep eye wide open while rinsing. If present and easy to do, remove contact lenses and continue rinsing. Get medical attention if irritation persists.
- Skin contact** Wash skin with water. Get medical attention if irritation develops or persists.
- Ingestion** Ingestion is unlikely for solid products. No first aid is required for small amounts transferred from hands to mouth.
- Self-protection of the first aider** Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Use personal protective equipment as required. See section 8 for more information. Avoid contact with skin, eyes or clothing.

**Most important symptoms and effects, both acute and delayed**

**Symptoms** Direct contact with liquid may cause moderate eye irritation. Direct or prolonged inhalation of high concentration of vapors may cause upper respiratory tract irritation and central nervous system effects. Swallowing large amounts of liquid may cause gastrointestinal irritation.

**Indication of any immediate medical attention and special treatment needed**

**Note to physicians** Treat symptomatically.

**5. Fire-fighting measures**

**Suitable Extinguishing Media** Dry chemical. Carbon dioxide (CO2). Water spray. Alcohol resistant foam.

**Unsuitable extinguishing media** CAUTION: Use of water spray when fighting fire may be inefficient.

**Specific hazards arising from the chemical** This product is a solid saturated with a flammable liquid and will burn under fire conditions. Vapors are heavier than air and may flow along surfaces to remote ignition sources and flash back. Combustion may produce oxides of carbon, nitrogen, and ammonia. Flammable vapors may be invisible in daylight.

**Explosion data**

**Sensitivity to mechanical impact** None.

**Sensitivity to static discharge** Yes.

**Special protective equipment for fire-fighters** Wear an approved, positive pressure, self-contained breathing apparatus and full protective clothing. Cool fire exposed containers with water. Contain runoff.

**6. Accidental release measures**

Personal precautions, protective equipment and emergency procedures

**Personal precautions** Remove all ignition sources such as open flames, spark producing equipment, pilot lights, etc. Avoid contact with eyes. Wear appropriate protective clothing as described in Section 8. Avoid breathing vapors.

**Other information** Avoid releases to the environment. Report spill as required by local and federal regulations.

Methods and material for containment and cleaning up

**Methods and Materials for Containment and Cleaning Up** Do not reuse towelette. Pick up wipe and place in an appropriate container for infectious waste disposal. Do not flush in toilet. For free liquid, collect using inert absorbent materials and place in an appropriate container for disposal. Use non-sparking tools and equipment.

**7. Handling and storage**

Precautions for safe handling

**Advice on safe handling** None required for normal use. Avoid contact with eyes and skin. Handle in accordance with good industrial hygiene and safety practice. Avoid breathing vapors. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Refer to product label for additional information on use and handling. Do not reuse the empty container or towelette. Do not flush in toilet. Dispose of in accordance with all local, state, and federal regulations.

Conditions for safe storage, including any incompatibilities

**Storage Conditions** Store in a cool, dry location away from incompatible materials. Do not store near heat or open flame. Do not freeze or expose to extreme cold for a long period. Do not contaminate water, food or feed by storage or disposal. For containers: Protect container from physical damage. When not in use keep center cap of lid closed to prevent moisture loss.
